

## Klum's Hawaii Eleven Relies On Its Speed

Honolulu Town Team Put Kibosh on University Men by 39-20 Score

Football Main Sport For Island Athletes

Edwards, Former Aggie, To Meet Oregon Again

By HARRY VAN DINE  
Otto Klum and his University of Hawaii football players are eagerly awaiting the arrival of the University of Oregon team in the islands, according to press dispatches received on the campus. The collegians have not had an overly successful season and are working hard to be in shape to win over the Webfoots. A win New Year's day would turn the season into a fairly successful one for the former Medford high coach.

After playing some of the smaller college teams in the islands, the Roaring Rainbows, as they are called, tackled the Honolulu town team and tasted defeat, 39-20. It was just a case of the former college stars being too good for the Hawaiian collegians.

Points to Oregon  
However, this defeat has taken none of the vigor out of the work-outs of the Rainbows and Klum is pointing his men for the Oregon game. This is evidenced by the fact that he has compelled every man on the squad to sign a pledge to faithfully train for the game. Ordinarily, due to the long season in Hawaii, the college team does not train as faithfully as the mainland varsity squads.

The Hawaiian grid mentor has been handicapped by injuries to his star players all season and he is working to have every man in condition to play against the Webfoots. It will be a gala crowd at the game, if attendance at previous New Year's games can be taken as an estimate. It was estimated that 20,000 paid admissions were in the stands of the huge new Honolulu stadium last year. Football is the biggest sport in the islands and it is not unusual for a high school game to draw 15,000 people.

Aggie Is Head Man  
The Honolulu town team is led by "Web" Edwards, former Oregon Aggie quarterback. He is just as flashy now as he was a few years back and will be opposing the Oregon varsity gridders for the fourth time. The town team has had a fairly successful season, losing only to the Olympic club, of San Francisco, by a score of 4-0.

The game was played on December 1 and since then the town coach, "Scotty" Schuman, has had his charges out daily practicing for

## Trader Horn, Trapper Thompson, Juniors, Go A-Hunting Up McKenzie

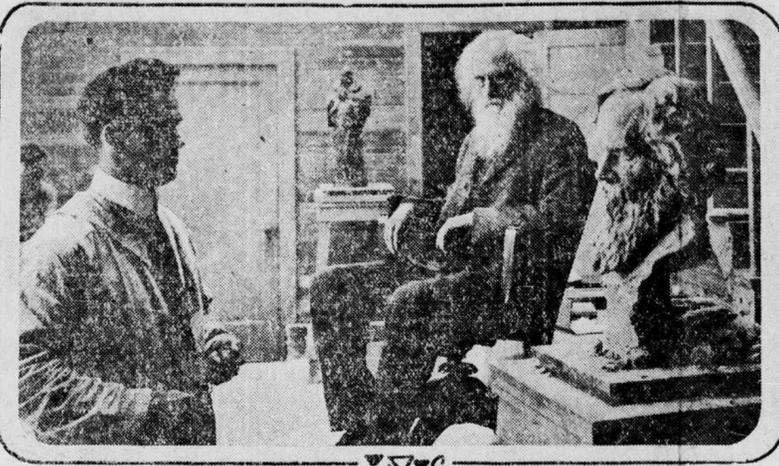

If Horatio Alger were writing this story, it would probably be a full length book entitled "Fighting Through, or With the Boy Motorcyclists in the Mountains," and if Lowell Thomas were so fortunate as to be the author, he would undoubtedly call it "Along the McKenzie with the Student Trappers," but the Emerald must forego such melodramatic titles in favor of prosaic headlines.

But to get down to facts, the moral of the tale, dear children and members of the faculty, is simply this: Never, never, never attempt to ride a motorcycle up the McKenzie pass road on a night in mid-winter without first taking a few

## Christmas Carols To Add To Yuletide Spirit

Y. W. C. A. Sponsors Start Of English Custom Here

One of the most cherished of old English customs will make its first appearance at Oregon Sunday night when several groups of students will serenade the campus with Christmas carols.

Although the idea is being sponsored by the Y. W. C. A., any student, man or woman, who wishes to do so may join the singers. Margaret Lee Slesher, who is in charge of the arrangements, has announced a short song practice which will be held Friday afternoon at five o'clock in the Y. W. Bangalow. She urged particularly that all students who were interested in the idea should be there.

The Y. W. C. A. vesper choir is to form the nucleus of the singers, and they with other students who volunteer, will be divided into groups of about eight. Each group will cover a certain district, singing not to individual houses but to several at a time. Leaders for these groups will be chosen Friday at the song practice.

To make the singing of carols at Christmas time a tradition at Oregon is the aim of those who originated the idea. Other colleges, particularly eastern ones, have this custom; and many feel that it would be a distinct addition to our campus customs.

"It is a lovely custom to start provided that it is handled in an appropriate manner," declared Miss Hazel Prutsman, dean of women.

The singing of carols will start about nine thirty Sunday evening and will last until ten thirty.

Songs which are to be sung include: "Hark, the Herald Angels Sing," "Joy to the World," "Oh, Little Town of Bethlehem," "Oh, Come All Ye Faithful," "First Noel," and "Silent Night."

Thacher, professor of advertising, whose article on "Questions That Won't Stay Answered," drew the lead position in the December issue of Western Advertising.

"Such questions as 'Does advertising pay the advertiser? Who pays for advertising? Is advertising a good thing for the manufacturer and distributor, is it as well, a good thing for the consumer? Is advertising a social benefit? Is it a good thing for you and for me—and our neighbor?' are discussed by the Oregon professor, whose name appears frequently in advertising journals.

## Dorm Boys Rise Early and Aid In Big Search

Brad Datslow Tells of Trip And Hunt for Lost Girl

"We can understand how a woman unacquainted with the region could become lost in that wilderness," Brad Datslow said in relating the experiences that eleven university men had in assisting in the search for Fay Wilbur who became lost in the Siuslaw region Sunday afternoon.

At four o'clock Tuesday morning boys from Gamma and Alpha halls arose, partook of a hasty breakfast prepared by Wilbur Peterkin, and drove to the Chamber of Commerce building, from where they left at about 5 a. m. The six Gamma students made the trip to the Siuslaw in a Chevrolet touring car. The others went in cars waiting for them down town. Twelve miles of mud greeted the would-be heroes, but, after a lot of walking and some pushing the boys got their machine through with the aid of chains.

"We arrived at the searching headquarters about seven o'clock and soon joined the right wing of the long line of searchers, which was spread out for over a mile and a half, each 25 yards from the man to either side," Datslow explained.

"We all got good and wet from the damp brush which stood waist high all about us.

"We advanced for two hours, and then became detached from the left wing which found the girl at about 10:30. During the two hours that we were lost we saw a number of deer, a skunk and one bear. After

"They have a 'Big Four' agreement of Stanford, Washington, University of California, and U. S. C.," continued Professor Howe, "and have arranged to take up the three best places on their schedule with each other for the next five years."
