

Webfoot Team Jumps Notch In Standings

Oregon's Basketball Five Are Holding Down Fifth Place by Montana Win

Idaho Can Tie Husky In Northwest League

California Is Leading Pack In Southern Conference

CONFERENCE STANDINGS

Table with columns: Won, Lost, Pct. Rows: Washington, Washington State, Idaho, Oregon State, Oregon, Montana.

Oregon's varsity basketball team emerged from the cellar position in the league standing by its victory over the Montana Grizzlies in McArthur court Tuesday night.

Decisive Games Coming

This week's play will go a long way toward determining the champion of the northern division of the Coast conference, with Washington travelling to play Washington State and Idaho on successive nights.

The basketball championship of Oregon may be settled for the year when the Webfoots and the Oregon Aggies clash on McArthur court Saturday.

The Oregon star totaled 23 field goals and nine free throws for 55 points, while Ballard has

Ridings Heads Scorers

Gordon Ridings, leading Webfoot scorer, and Rod Ballard, Aggie tapper, will battle for the high point honors Saturday night.

Eldress Judd Leads Vesper Services at Y. W. Bungalow Today

The program which was given at the last Y. W. C. A. vespers proved so popular that it is to be repeated for the services which are to be held this afternoon at 4 o'clock in the Bungalow.

"My Conception of Religion" is the topic upon which Eldress Judd will speak. Miss Judd is chairman of religious education for the Y. W. C. A. cabinet.

The vesper choir is to sing two songs, an opening response, "The Lord Is in His Holy Temple," and a special number, "Noon."

Dr. Lesch, "Hard-boiled" Sergeant, Trades Kiss For Croix de Guerre

(It is only fair to Mr. Lesch to state that this news was gained by unfair means and that he had not the vaguest idea that any of it was to be printed.)

"I was only kissing on one cheek, because the other one slipped on my nose," Edward A. Lesch, assistant professor of English didn't even blush, but he looked uncomfortable.

He was telling how he won the Croix de Guerre.

He was second lieutenant in an artillery division. The Americans and French were drawn up side by side in the trenches. Across from them were the Germans.

Edward Tomlinson, War Veteran and Traveler, to Speak at Assembly Today

'Under Ten Flags,' Concerning Customs of South American Countries, Is Topic of World Scholar

"Under Ten Flags" will be the subject of Edward Tomlinson's address at the assembly this morning. Tomlinson will tell about the ten countries of South America, their manners of living, social customs and international intricacies.

Mr. Tomlinson became interested in South America when he was in Europe during the World War. He saw the devastation of Europe and became convinced that the economic balance would be preponderantly in favor of the United States, and that the future of American trade and investment was in Latin America.

Men Appointed For Junior Shine Fest Tomorrow

Ticket Sales Begin Tonight, Women Sell to Frats, Men to Cover Sororities

Junior class men who will wield the brush and cloth on Friday were announced yesterday by Bill Barry, chairman of the stand committee for the event.

Sale of tickets will begin at the dinner hour tonight when men will speak at the women's living organizations and women will sell tickets at men's houses.

A list of the shiners with hours and stands: Old library 9 to 11, Dick Horn in charge, Les Falt, George Weber, Darold Elkins; 11 to 1 Ken Hamaker in charge, Johnny Wharton, Oscar Wagner, Walter Norblad; 1 to 3, Mel Parker in charge, Don Stephens, Hal Anderson, Rosser Atkinson; 3 to 5 Don Speer in charge, Hal Leonard, Tommy Simons, Meredith Landers.

Administration building 9 to 11, Carl Nelson in charge, Arnold Toiven, Billy Sievers, Day Foster; 11 to 1 Jack Paige in charge, Boyd Overhulse, Herb Jones, Harold Hilbreth; 1 to 3 Harry Wood in charge, Denny Lawrence, John Halderman, Gerold Van Dervlugt; 3 to 5 Harvey Wright in charge, Ed Riel, Philip Windrem, Ed Bissell.

Oregon Building 9 to 11 John Allen in charge, Carl Forstrum, Pete Slausen, Ed Sullivan; 11 to 1 Phil Smith in charge, Ken Proctor, Terry King, Pat Flynn; 1 to 3 George Stadlern in charge, Lavelle Shields, Bill Williams, Walt Brown; 3 to 5 Arlen McCarthy in charge, Lawrence Parks, Bill Hamman, Everett Horrell.

Condon Hall, 9 to 11, Keith Hall in charge, Sid Dobbin, Paul Hunt, Wallace Giles; 11 to 1 Art Stendal in charge, Bob McAlpin, Reed Clark, Harry Wolf; 1 to 3 Johnny Anderson in charge, Dave Mason, Harold Kelly, Jim Sharp; 3 to 5 Joe Erkenbrecher in charge, Kirby Kittig, Phil Livesly, and Prince Helfrich.

Extension Bureau Now Using New Type Slide

Pictorial Kind Found More Efficient Than Glass

The visual education service of the extension department has recently bought a new type of slide to be used in its work.

The old style glass slides hold only 70 pictures and weigh 34 pounds with the postage cost of 39 cents for the first zone and \$1.33 for the fourth.

Mr. Lesch looked pained. He thought the reporter would laugh. He didn't realize that he was being

Francis McKenna Will Fill Position McCreight Left On Executive Council

Orchestra Has Billing March 16, in Portland

Veal, Cousins, P. Douglas, Ogle, Made Managers

Clarence Veal will be manager of this year's orchestra, ALLET Cousins of the men's glee club, Perry Douglas of the women's glee club, and Lawrence Ogle of the band, according to appointments made by Herbert Lassalle, general music manager, and approved at last night's meeting of the executive council.

Francis McKenna, president of the senior class, will be senior man on the executive council, thereby filling the position left vacant when Ronald McCreight left school.

Freshman Team Will Play Rooks At Igloo Friday

Yearlings Must Win Game To Take Beaver Series; Squad Poor in Practice

The Webfoot yearlings make their first home appearance in conference basketball play Friday afternoon at 4 o'clock on the McArthur court floor when they meet the Aggie rooks in a third game.

The rooks took the first game, 41 to 34, and the frosh came back to win the second, 43 to 29. The rooks lost to the University of Washington frosh earlier in the season. Oregon will play two games with the Washington yearlings after they finish the four game series with the Aggies.

The coast conference schools do not organize their schedules for the freshman teams as they do for the varsity, and no Pacific coast or northern division championships are official. Last year Washington was considered the winner, as they defeated Oregon, Oregon Aggies and Washington State.

Lawrence Ogle, a senior, who was publicity manager for the Junior Revue, is on the Greater Oregon district No. 1, and is a member of Phi Sigma Kappa. Albert Cousins, a senior Phi Kappa Psi, belongs to the International Relations club Douglas is a senior, and Veal a junior. Both have served as assistants in musical managerial work.

Lad Brings Two Cats To Be Sacrificed for Use of Lab Students

A university may perform many unique services for the city in which it is situated. This was proved Tuesday afternoon, when a lad walked into Deady hall, carrying under his arm a large cardboard box.

"Can you tell me what to do with these cats?" he queried. The student directed him to one of the lab assistants for information, so the boy again asked his question. It finally developed that he had a superabundance of cats at his home, so he brought two to the university, to be sacrificed at the altar of higher learning.

However, the lab had already secured all the cats necessary, but the assistant volunteered to dispose of them for the boy.

Aeronautics Courses Approved by Faculty

New Code of Entrance Put On 'U' Books

Requirements for High School Students Are Changed by Faculty

Rulings Will Take Effect Here Next Fall Term

A new code of entrance requirements, designed with the purpose of emphasizing quality rather than variety in high school work, was adopted by the University of Oregon faculty at a meeting yesterday.

These requirements conform exactly to those recommended by the higher education standards committee, and grew out of conferences at which representatives of all Oregon colleges as well as from many high schools were present.

The requirements were recommended by the higher education standards committee, at a recent meeting in Salem, the idea being that they should represent minimum requirements for entrance into higher institutions of learning in Oregon. As approved at Salem, any college may add to them, but at yesterday's faculty session it was decided to adopt the basic code as the requirements for entrance to the University of Oregon.

Effective at the beginning of the fall term in 1929, the action of the faculty yesterday also repeals all standing entrance requirements. It is the understanding that the adoption of the regulations does not preclude the possibility of addition of special requirements in the future.

As they stand, the new requirements make it possible for a high school graduate to enter the University of Oregon without fulfilling the present requirements of one year of laboratory science, one year of algebra, and one year of geometry.

The question of eliminating algebra and geometry from the requirement list aroused considerable discussion at the faculty meeting.

It was brought out, however, that under the required list of major and minor subjects the student would probably find it advisable to take mathematics in high school anyhow, that unified mathematics courses are being taught in the rapidly increasing junior high schools.

The new requirements include three plans. Each requires the presentation of 15 units from a four-year high school or 12 units from a senior high school. This latter clause is a recognition of the junior high school system.

Part of the units are to be grouped into majors and minors. Distribution from a four year high school must include two majors and three minors, of which two majors and one minor, or vice versa, must be selected from the fields of English, language, mathematics, laboratory science and social science.

One of the majors must be in English. Distribution from a senior (three year) high school must include two majors and two minors, of which two majors and one minor, or vice versa, must be selected from the same fields. One minor or major must be in English. No credit will be given for penmanship, spelling, physical education, or any subject classified as a student activity.

A second plan conforms almost exactly to the present entrance requirements of the university, while a third is provided so that students who are particularly well-qualified for college work, but have by chance failed to conform to the first two plans, may still enter under special circumstances.

Physical Education Group to Entertain

Phi Epsilon Kappa, men's honorary physical education fraternity, is sponsoring a social gathering for men tonight at 7:15 in the men's gymnasium.

Insanity as Defense For Murder Debated

With Roger Pfaff, freshman in pre-law, leading the attack of the affirmative, and Clarence Barton, sophomore in pre-law staging the defense on the negative, the Congress, public speaking club, debated and discussed the question, "Resolved, that insanity should not be allowed as a defense for murder," at a meeting last night at the College Side Inn.

Insanity as a defense plea is the only way by which a deranged person can escape capital punishment, the negative argued. A murderer is either unusually brave or he's crazy, the speaker contended.

With vivid expounding of actual murder cases the affirmative showed the inability of a court to decide the mental condition of an accused person.

"The court is not justice. It is a battleground of lawyers. It is the toy of the rich man, and has been ever since the trial of Harry K. Thaw," one speaker stated in the discussion. Gene Laird, junior in journalism, acted as discussion critic.

Companionate marriage was chosen as the topic for next week's discussion. The subject will be introduced by A. Harvey Wright, junior in pre-law, in a five minute talk.

Old Oregon Plans Stories of Grads And Descendants

To study the same courses which their fathers and mothers studied, sometimes under the same professors, is the interesting experience of a number of students at the University of Oregon, whose fathers and mothers attended school here.

An attempt has been made to conduct a personal interview with all these students, and although they have cooperated well, there are several who have not yet been reached. Because it is especially desired that this story be complete, those who have not yet been interviewed are asked to come to room 204 of the Journalism building at any time from 1 to 5 o'clock this afternoon.

Some families are represented by two members, and several houses have a large representation, while others evidently have no students whose parents went to school here.

A picture of the sons and daughters of former Oregon students, which will accompany the article, is to be taken this morning at 11 o'clock on the south steps of the Administration building, and all who are eligible are asked to be there promptly at that hour.

Varied Species of Birds Inhabit Local Campus During Winter Months

Students are not the only animals which inhabit the University of Oregon campus. Squirrels, birds, gophers and professors are also present in considerable number, particularly birds and professors.

Not to wander any farther from the story, R. R. Huestis, associate professor of animal biology, was approached yesterday, and asked to tell all he knew about the members of the feathered species which inhabit the campus during the winter.

This inquiry was provoked by the observation of a number of bluebirds around the old library building during the recent snowy weather.

But Professor Huestis knew better.

University to Add Airplane Training Work

Local Airway Company To Cooperate With Oregon on Projects

Preparatory Study Before Flying to Be Featured

A list of courses and tentative curricula to be made available for students interested in aeronautics was approved by the University of Oregon faculty yesterday and is regarded as an experimental step into a field which henceforth will be of growing importance.

Only one new course, that being in commercial aviation, is necessary in connection with the work approved yesterday, all others being already taught at the university.

Under the plan, as announced by Dr. Warren D. Smith, head of the committee, three types of courses are proposed. The first is a short course, to be conducted in connection with a short course in actual flying to be given by the Hobi Airways, Inc., who have leased the Eugene municipal airport.

The second is a two-year course which would on completion earn a junior certificate. The third is a four-year course, with the bachelor of science degree, leading up to special scientific training in graduate years.

Prof. C. Harvey Hicks, member of the mathematics staff and an authority on aeronautics, was recommended as technical adviser for those who continue the study for four years.

The courses, as approved by the faculty yesterday, will be given under the direction of the school of business administration. They include such work as unified mathematics, physics, practical astronomy, meteorology, thermodynamics, manufacturing, personnel management, traffic management, and so on.

The advisory committee consists of Earl Simmons, Eugene, regarded as one of the persons most responsible for the advancement of aviation in Oregon; Leonard Delano, president of the university Aero club; M. E. Wright, editor and publisher of Pacific Airport News, Portland; George Love, head of the Aircraft Builders, Inc.; Herman Hobi, head of the Hobi Airways company; Major G. L. Eckerson, Hobi company; William G. Boeing.
