Cal to Be Out of Job; Lindy and Mate Pull Smash-up in Mexico
By ART SCHOENI

CAL COOLIDGE, the honorary Indian hunter, cowboy, farmer, commander-in-chief president, will doff his figurative robes of office Monday and let Herbert Hoover, another member of the House of Taeturn, slip his arms in the constricting sleeves.

Three hundred invitations will be sent, free of charge through the mails, requesting the presence of the 300 addressees at the inauguration ceremonies at Washington, D. C.

After six years filled with cruiser bills, Boulder dam bills, flood relief problems, not to mention farm relief and large tax reductions, Coolidge is ready to hand over the presidential reins and occupy his time with writing.

Hearst's Cosmopolitan is reported to have been the successful bidder for Coolidge manuscripts after March 4.

JUST A FEW of the problems starting into Hoover's round face as he becomes the thirty-first president of the United States include:

1. Farm relief.
2. Flood control.
3. Freedom of the seas and a possible naval parley with Great Britain.
4. Disposal of the Muscle Shoals power plant.
5. Consolidation of railroads.
6. Reapportionment of House of Representatives to suit shifts of population.
7. Prohibition enforcement and the proposed appropriations.

THE YOUNG man who flies like a homing pigeon, with a sort of compass inside his head, "Lucky" Lindbergh—Col. Charles A. Lindbergh if you please—swooped down out of the Mexico City with his fiancée, his plane minus one wheel, and experienced his first piece of major bad luck. He smashed up his plane, dislocated his shoulder, and scared more than hurt his newly-acquired object of affection, Miss Morrow.

Lindy's skill in handling the crippled ship kept the accident from being tragedy when it taxied down to land.

"The Lone Eagle" is a member of the Caterpillar club, having made four forced jumps in a parachute from a disabled plane. He is the only man who has done this and lived to tell the tale. Whether he is still lucky or is unlucky is a teaser.

TO PAY or not to pay is no longer the question. The problem is how is Germany going to pay her reparations debts?

The latest proposal being taken up at the council of experts and diplomats at Paris is that a bond

issue of some sort should be floated and the bits of paper sold all over the world.

Billion barons are in favor of selling three-quarters of them to European concerns and one-quarter to Creditor Uncle Sam. The suggested size of the bond was quoted at a billion dollars, at which rate it would take 30 or 35 years for amortization.

TABLOID BITS from the choice stories of the day: Ohio flood losses to total million. . . . When Sharkey got a decision over Stribling, Promoter Jack Dempsey smiled on \$380,000 gate receipts. . . . In spite of its gang wars, Chicago will keep the most of its city government, including Mayor Thompson. . . . Victor talking machine corporation and Radio Corporation of America merge. . . . Pope now lives in "Vatican City" instead of Rome. . . . Marshal Ferdinand Foch, France's war hero, lies on his death bed, with slight hope for recovery. . . . Says German press: Reparations take funds away from our railroads' upkeep, the tracks deteriorate, and disastrous train wrecks follow.

If you cut the brain of the man you admire most in this world into 15,000 pieces and study each one with a microscope, could you learn the secret of his greatness? Russians think it may be possible. So they have taken the brain of their saint, Nicolai Lenin, and pulverized it into approximately 15,000 pieces.

Because of the red leader's variety of ideas and agility in solving complicated problems scientists believe he had great development of pyramidal cells and are out to study what brain structure Lenin possessed.

Hoop Coaches to Discuss Officials
(Continued from Page One)

the northwest where as many as 30 free throws were made. Most of these were for almost unnoticeable infraction of the rules.

The Oregon-Washington game at Eugene was the most flagrant case of over officiating seen this season. Gordon Ridings was banished late in the first half, and it took a long consultation on the part of the officials to determine whether Ridings had charged or his opponent had blocked.

The coaches have had enough, and now they probably will subordinate the referee.

What They Say

Tabloid Bits Taken From News of the Day

TALKIES DOOM STAGE
IN FIVE years the silent movie and the legitimate stage drama will be forced out of business by the talking movie. I am going to revive "The Birth of the Nation," "Intolerance," and "Hearts of the World," and turn them into sound pictures and put them in circulation again.—David Wark Griffith, picture director, in Chicago Daily News.

BOOTLEGGING UPLIFTING?
BOOTLEGGING has had a wonderful effect toward polishing the bootlegger. The sudden acquisition of wealth in this class has brought with it a desire for social graces. Bootlegging, despite much evidence to the contrary, has a definite effect on cultural uplift because he is now interested in good books on the order of college professors and bank presidents.—Joseph Kreloff, Chicago bookseller, in the Chicago Daily News.

Smoker "J" Awaiting Loved One

Jamesburg, N. J., December 2, 1927

Jest a-sittin', smokin' Edgeworth
An' a-thinkin', dear of you;
An' a candle's burnin' brightly,
An' it says your love is true.
For the days are long, of waitin',
An' the nights are longer still,
An' sometimes (always smokin')
I pick up this old quill—
An' try to write some poetry
To tell you of my love.
As poetry it ain't much good,
But—holy days above—
It's jest the best I can, an' so
You'll find me, when I'm through.
Jest a-sittin', smokin' Edgeworth,
An' a-thinkin', dear, of you.

J. L. Clymer to Speak At Secretaries' Meet

John L. Clymer, secretary of the Retail Merchants association of San Francisco, has wired his acceptance of an invitation to the chamber of commerce secretaries conference to be held at the University of Oregon during spring vacation, announced Dean David E. Faville, of the school of business administration.

Clymer is prominent on the coast for his studies on the problems confronting the retail trades at the present time, the dean stated.

Complete plans for the short-

course for chamber of commerce secretaries will be announced next Monday, according to Dean Faville.

Power, Virility Subject of Talk by Dr. S. Gilman
(Continued from Page One)

Francisco from here to deliver a series of lectures.

Dr. James H. Gilman, dean of the school of literature, science and the arts, introduced the speaker at the assembly. Juanita Oskins, music student, played a violin selection, and Rev. A. H. Saunders of the

Presbyterian church gave the invocation. The meeting was presided over by Dean John Straub.

Clean Milk Is Not Always "Safe" Milk

And furthermore not all milk bacteria are essentially harmful, but the greater safety lies in the exclusion of dangerous micro-organisms by effective pasturization.

Pasturized milk is not boiled milk. It means that the milk has been brought to a temperature of 142 degrees and kept there for 30 minutes. Such bacteria as cause diphtheria are killed at 131 degrees, sore throat at 134 degrees, typhoid at 137 degrees, and tuberculosis at 139 degrees. Thus pasturization insures the safety of milk through the destroying of dangerous bacteria that contaminates milk.
