1-3—Man and His Environment, both sections. Psychology Laboratory, all sections.
3-5—First and Second Year Spanish, all sections. Third Year Spanish Literature, all sections.

Thursday, March 14
8-10—Ten o'clock classes meeting Monday, Wednesday, Friday, or any two of these days, and four and five hour classes at ten.
10-12—Ten o'clock classes meeting Tuesday, Thursday, Saturday, or any two of these days.
1-3—Three o'clock classes meeting Tuesday, Thursday.
3-5—Constructive Accounting, all sections.

Friday, March 15
8-10—Eleven o'clock classes meeting Monday, Wednesday, Friday, or any two of these days, and four hour classes at eleven.
10-12—Eleven o'clock classes meeting Tuesday, Saturday.
1-3—Two o'clock classes meeting Monday, Wednesday, Friday, or any two of these days, and four and five hour classes at two.
3-5—Two o'clock classes meeting Tuesday, Thursday.

Saturday, March 16
8-10—One o'clock classes meeting Monday, Wednesday, Friday, or any two of these days, and four and five hour classes at one.
10-12—One o'clock classes meeting Tuesday, Thursday, Saturday, or any two of these days.
1-3—Three o'clock classes meeting Monday, Wednesday, Friday, or any two of these days, and four and five hour classes at three.

Examinations are held in the regular classrooms unless otherwise arranged by the instructor. Classes not arranged above take irregular status, and are scheduled by the instructor in consultation with the secretary of the schedule committee, Miss Stephenson. Telephone 793.

Y. W. C. A. Groups Plan Conference For April 12-14

The Oregon Cabinet Training Conference, which is held annually by the Y. W. C. A. organization of the state, is to take place April 12, 13 and 14, according to Miss Dorothy Thomas, secretary of the local Y. W. The place has not yet been selected.

The purpose of the conference is to instruct the new cabinet workers in the meaning underlying Y. W. C. A. activities and to show how the work is conducted.

All cabinet members may attend this conference and usually there is a big delegation sent from Oregon. Last year 20 university women went to the conference which was held at Corvallis.

Miss Marcia Seiber, traveling secretary from the Seabeck division, is to be one of the leaders at the meet.

Martha Fisher, Y. W. C. A. president at O. S. C., is chairman of the conference.

Plans of Religious Education School to Be Worked Out Soon

Further plans for the school of religious education, now being organized by representatives from various religious groups, the university and interested Oregonians, will be made at a meeting here Monday, March 18, Dean H. D. Sheldon announced yesterday. Directors met for the first time last month in Portland, Dean John P. Bovard being chairman. Dean Sheldon is acting as temporary chairman and will preside at the directorial meeting.

Old Oregon Goes to Press on Saturday

Miss Jeannette Calkins, editor of Old Oregon, stated yesterday that the Old Oregon March number would probably go to press Saturday.

She is very anxious to have some good jokes submitted for the Lemon Punch page of humor. She is offering a prize of one silver dollar for the best joke turned in to the Old Oregon office.

Cigarette Smokers on Campus Consume 100-Mile Fag; Tobacco Cost Would Run Car 104 Times Over Globe

Benefiel Could Purchase Thousands of Baseballs

(By A. L. S.)

How would you like to smoke a cigarette 100 miles long? Few of the smokers on the campus would tackle the job, confident in their ability to consume cigarettes.

But mathematically figured out, the 3,000 students on the campus puffed away 99.1 miles of cigarettes last year, provided that they are a true cross-section of the nation.

Figures of the internal revenue bureau show that 105,915,165,014 cigarettes were sold last year. There are approximately 120,000,000 people in the United States, of which Oregon's 3,000 students are one 40,000th.

That means that men, smoked in their rooms, on the law school curb or in restaurants 2,647,879 cigarettes.

Each cigarette being two and three-fourths inches long, if laid end to end they would reach nearly 100 miles.

Continuing, comma, we find that 2,647,879 fags make 133,939 packages. At 15 cents per pack, taking it for granted that few of the smokers bought high-priced ones, students spent \$20,090.85 for tobacco rolled in white paper.

Are you paying attention? Jack Benefiel could buy 13,393 baseballs for Reinhart's ball players with this tobacco money.

If you owned a car you could buy 100,454 gallons of gas at 20 cents a gal. If you got 25 miles out of a gallon a person could travel around the world 104 times on the cigarette money, figuratively speaking.

Each student spent \$6.66 for cigarettes last year, it can be shown by dividing 3,000 students into \$20,090, or if the girl friend likes shows you could take her 40,180 times and

Would You Like to See a Movie Lasting 10 Years

And all that on the money spent, figured per capita in the university, on cigarettes, in one year.

The figures for the nation were so large that they have attracted unusual attention and experts have been asked to give their opinions on the remarkable growth in the use of cigarettes.

They say the important factor is the improved taste of the cigarettes through the use of milder and better tobacco and mechanical features which remove undesirable elements in the cigarette.

Mining Fellowships Now Open to Holders Of Science Degrees

Four research fellowships for the year 1929-30 in the school of mines, University of Alabama, are being offered by that institution to all graduate students who have their M.S. degrees or who will become candidates for them September 1, 1929, when these fellowships,

valued at \$675 per year of nine months, begin.

These fellowships are open to graduates of universities and engineering schools who have had proper qualifications to undertake research investigation.

Those graduates who are interested should see Dean Relice for information in regard to applying for the scholarships. Applications for them are due not later than June 1, 1929.

Coe College Band Plays at Inaugural

CEDAR RAPIDS, Iowa.—(IP)—The Coe college band participated in the inaugural ceremonies for President Herbert Hoover Monday. The students and officials of the college raised \$2,500 to send the undergraduate musicians to Wash-

ington, where they were led in march by Floyd Barber, drum major of the University of Iowa band.

LEHIGH TO PRODUCE MOVIE
BETHLEHEM, Pa.—(IP)—Members of the Mustard and Cheese club, Lehigh university dramatic organization, are planning to produce a university moving picture, to be shown before alumni clubs.

Sermons to Hear

Clay E. Palmer is preaching a Lenten series of sermons Sunday mornings at the Congregational Church on fundamental questions that thinking people everywhere are asking about God. These sermons are actually fusing real science and real religion. Two sermons of the series have already been preached, and, we think, so important that we are justified in calling the attention of the students and faculty to the remaining four.

The men whose names appear below, in an interview expressed themselves as follows:

Dr. Warren D. Smith, Geology

Reverend Palmer speaks and understands the language of the modern scientist. Those, who, through ignorance of science, have feared the findings of modern science, will have their fears dispelled by listening to this able preacher. I expect to hear as many of this series as I can.

Dean Chas. E. Carpenter, Law

Reverend Palmer is doing that which is so much needed and is so rarely done for the modern student. This young prophet of modernism interprets the best philosophic and scientific thought of today in a way to vitalize religion. His fearless, uncompromising and fertile search for truth may help you to solve your own problems and give you a new freedom. His deep religious convictions may aid you to deepen your religious life and give you a God, at the same time you preserve your intellectual honesty and self respect.

Dr. Howard Taylor, Psychology

If you like to think, but are fed up with the "blah" that often passes for religion, you would probably enjoy the intellectual breadth of these sermons, their sincerity and challenge to clear thinking.

Dr. Roger J. Williams, Chemistry

I have heard eloquent sermons from Harry Emerson Fosdick of New York and Charles Gilkey of Chicago, but none that were intellectually more satisfying than Mr. Palmer's discussion of the topic, "What is God?" Mr. Palmer's scientific broadmindedness and insight into intellectual problems is indeed rare and students are fortunate who have a chance to hear him.

- March 10—What is God's Will?
- March 17—God and World's Pain.
- March 24—God and Prayer.
- March 31—God and Immortality.
