

Commerce Secretaries' Course Full

Program for This Year's Session Best Yet, Says Dean David E. Faville

Saturday Noon, March 23, To See Closing Meeting

Commencing Tuesday afternoon, March 19, and running until Saturday noon, March 23, the ninth annual short course for chamber of commerce secretaries...

Many prominent men are included in the program, which is the most complete, and one of the best programs yet arranged for the annual conference...

Flippin to Speak

Tuesday afternoon, 2 to 4 o'clock, Tom Flippin, secretary of the Eugene chamber of commerce...

George Godfrey, publicity director for the University of Oregon, will open the conference on the second day. Wednesday at 9 o'clock he will address the assembly on publicity...

Freight Tariffs to be Talked

"The Construction and Application of Freight Tariffs" will be the subject of an address at 11 o'clock by the Portland traffic manager...

At noon the conference will assemble at a forum luncheon. Professor Victor P. Morris of the economics department will speak on "Geography and Its Bearing on Community Development."

On Wednesday, Thursday and Friday at 2 o'clock, Christy Thomas, manager of the Seattle chamber of commerce, will lead discussion on...

Chamber Secretaries to Gather

Plans are complete for the annual short course for Oregon chamber of commerce secretaries to be held at the University of Oregon, March 19 to 23. On the left is Ted Baker, Medford secretary, president of the association...

Aspiring Actors To Receive Film Proof Saturday

Committee Will Distribute Screen Tests at Villard; Ticket Will Be Needed

Now that the big screen test showing is over and all the movie aspirants have gone home, most of them with a let-down feeling and a few with a more or less exalted hope in the back of their minds...

Five feet of film will be given to each person who tried out, so that he may keep it and see it again if he wishes. The strips of film will be given away Saturday afternoon from 3 to 5 in Villard hall...

"It is very necessary," said Marjorie Chester, who is in charge of the distribution of the film, "that everyone bring his screen test ticket in order to get his film. If the ticket has been lost it will be possible to get the film, but it may necessitate quite a bit of red tape."

The girls who are to assist Miss Chester in the distribution of the films are: Ina Tremblay, Eleanor Touhey, Virginia Grone, Mary Lou Bodine, Harriet Kane, Gwendolyn Foss, Iva Curtis, and Mary Kennedy.

Newest Guild Hall Play Promises To Be Interesting

Sophisticated Co-eds Show Surprising Skill Taking Little Children's Roles

By P. V. K.

"Snow White and the Seven Dwarfs" promises to be one of the most charming productions that has yet come from the realms of the university drama department.

They were rehearsing yesterday on the little stage in the Ad building, under the coaching of their director, Constance Roth. Perhaps it is a little early to predict a success—the play will be given the first weekend of spring term at the Rex theatre—but the actors have shown most admirable technique. It is not an easy thing for university women to assume again the mannerisms of little girls, the tenor of their voices, their movements and expressions.

"Snow White Convincing" Yet this has been done with a surprising degree of authenticity. The little friends of Princess Snow White are convincing in their parts. They talk excitedly, spontaneously, enthusiastically. Their gestures are the gestures of little girls. They put their arms around each other, hug each other when delighted over something, just as one has seen little girls do on a school-ground or at a party.

The magic of the wicked Queen

League Has Successful Year So Far

History Compiled, Teas Held, 'Little Sisters' Cared for on Campus

Auction on Library Steps To Open Spring Term

With the closing of winter term the executive council of the Women's league of the university is looking back on practically six months of varied and extensive activity. The year of 1928-29 has so far been one of great success, according to Edith Dodge, league president.

The president told of the big sister work which has proceeded in a very systematic and satisfactory manner this year. Helen Peters, head of the big sister committee, is now gathering in written reports from the big sister captains which will show how each little sister has been cared for. This work will continue next term also.

The foreign scholar who is brought here each year by the Woman's league is helped along by such activities as the Christmas College ball in Portland during the holidays and the Dime Crawl given once each term on the campus. Teddy Swafford is in charge of the foreign scholar fund.

The regular league teas have continued throughout winter term. There was also a formal tea honoring Hazel Prutman, dean of women. "Attendance at the teas has been larger this year than ever before, I believe," Edith Dodge said. The league's annual mass meeting was held February 28 with Katherine Rogers Adams, dean of women at Mills college, as the featured speaker. Dean Adams is a well-known figure in A. A. U. W. work. She was entertained with a formal banquet before her return to California.

A history of the organization has been compiled by Gracia Haggerty, a thing which has heretofore not been attempted. A scrap book of all the printed news of the league is also being kept by Dorothy Kirk which will show by newspaper stories the importance of the activities of the organization.

Envelopes Sold The sale of grade envelopes—the proceeds of which will go to furnishing a room in the new infirmary—has been sponsored by the league under the direction of Joan Patterson.

Senator Bell Stands By His Guns; Heartily Approves Merger Bill

Senator J. B. Bell, who introduced the recent bill passed by the legislature merging the boards of regents of all Oregon's institutions of higher learning, in an interview yesterday declared himself still heartily in favor of the measure. He thinks it will be a decided benefit to higher education in Oregon. "The funds can now be placed where most needed," he said. "A surplus in one institution can be allocated where it will do good."

"I think Judge Potter's viewpoint is that the university will suffer through the merger. But there's no reason to believe that this board would be any more radical or that it would do anything to the detriment of the schools that the single boards would not do."

"My theory is that the much-talked-of abuses of duplication of

courses and the large number of non-resident students will be curtailed and eliminated to a safe margin. I am satisfied that the board named is impartial. "We have been trying for years to arrange a survey of the university and college that could be analyzed together; that is, that were alike enough to be compared. But the two schools could reach no agreement as to the way it should be done. The matter hung in the air and would have hung in the air indefinitely. Even the reports that we did get from the two institutions were hard to analyze because the information in them and the bases of compilation were different. "We found what we considered

Merger Will Work, Believes Dean of Education School

Pointing out that the merger of the boards of regents in Oregon's higher schools, effected at the just-completed legislative session, should tend to develop, without interference from other institutions, the particular field of each school, Dean H. D. Sheldon, when asked what he thought of the plan, expressed the belief that "it will probably work out all right."

"The chance is, in the average individual board of regents plan, that each one goes its own way and absorbs as much as it can of the other institution's field. The new plan should confine each school to its own proper field. "It is greatly to the interest of the state that each type of institution should do its particular work. Of course it depends on its being worked out in a large and statesmanlike way, but I think there is good reason to think it will be," concluded the dean.

Ancient Flapper, 65, Disapproves Co-eds' Smoking Cigarettes

LINCOLN, Neb.—(IP and Daily Nebraskan)—Edna Wallace Hopper, 63-year-old flapper actress, is strong for the younger generation but she does not like to see women smoke.

"Aside from the moral standpoint, which I do not preach, and aside from the health standpoint, which I do not preach, I think that women should give up smoking because it detracts from their charm, beauty and personality," she declared.

Close Contact With Foreign People Vital

Floating Universities Aid in Understanding, Says Mrs. A. L. Beck

Serious-minded Students Should Go on Tours

"Political relationships, particularly with the countries of the Pacific, are the purpose of the floating universities," stated Anne Landsbary Beck, head of the department of public school music at the University of Oregon, when she was asked for her ideas about the student tours. "Visiting the countries, themselves, is conducive to an understanding of those relations. Of course, some subjects will be more desirable than others, to study while on board the ships, such as studying the races, geological conditions, or language of the countries to be visited—those are vital things. "Friendship and understanding are attained through personal visits, and it is important that the students of today, who are the legislators of tomorrow, have an opportunity to cultivate these qualities in connection with other countries and races. You know, of course, that the cause of wars is misunderstanding—particularly racial misunderstanding."

Experience First-hand Mrs. Beck has many carefully founded ideas on the almost entirely new subject of "floating universities," and these ideas are backed by personal contact with former student tours, gained while she was in the Orient. When asked what types of students should be included in the tours, she answered without hesitation:

"Upperclassmen only—serious minded types; who will subordinate pleasure-seeking to the main purpose of the trip, education. They must consider that they are getting far more than they are giving up. It would probably be better to include men students only, because mixing sexes inevitably brings social interests to detract from the educational program. The major interest of the students makes no difference, but they surely must have mature minds, capable of applying themselves wholeheartedly to the purpose of the tour."

Wise Selections Needed Mrs. Beck was very anxious to make sure that she wouldn't be misunderstood on the subject of recreation.

Tuttle to Head South For Teachers' Meets, Roseburg, Coquille

Just as soon as exam week is over, Harold S. Tuttle, professor in education, is "goin' South."

But his exodus will not take him on a vacation trip, as it will many others. Professor Tuttle will speak on Saturday, March 16, at the Douglas county teachers' institute at Roseburg on the subject "Character Education in the Schools." He will address the Coos county institute at Coquille March 23 on "Moral Guidance in the Schools." The instructor plans to spend the rest of the spring vacation in Eugene, devoting his time to his writing and school work.

All other members of the teaching staff at the Education building, among them Dean H. D. Sheldon and Dr. C. L. Huffaker, confessed that they were going to spend their vacation with "their nose in books" and would remain on the campus.

Chinese Student at Ohio State Becomes R.O.T.C. Unit Officer

COLUMBUS, Ohio.—(IP)—The only foreign student at Ohio State university ever to become an R. O. T. C. officer is the distinction held by Mo Chun Li, a junior in the school of commerce.

Li is taking advanced military by special permission outside of his regular curriculum, with the hope that his work if satisfactory, will lead to the securing of a commission with the Chinese nationalist government.
