A Tribute to Mrs. Gerlinger

TF THIS edition of the Emerald could be dedicated to any one sort of joke of popular elections? ing of horrible deeds and could find also there. person, it would be dedicated to Mrs. Irene H. Gerlinger, is decided by a few politicians who vengeful rascals and moved on. who for 12 years has been a member of the board of regents may or may not know best. It is, of the university, the donor of the Gerlinger cup, and the vicepresident of the Alumni Holding company, and who, more than the thick of it gets a vivid impres- myself to the front room to peruse any other one person connected with the university, has been sion of a feudal custom slightly out the columns of the Morning Emer- Mrs. V. D. Scobert, Mr. and Mrs. Pierre Thomas will be Martine; instrumental in bringing beauty into the lives of the students of place. -and beauty is a thing to be most desired in the life of a man.

Mrs. Gerlinger's work is well known; her indefatigable energy in soliciting funds for the Campbell Memorial fine arts building, which will become an art center for the entire state; in soliciting for the Doernbecher Memorial hospital, and in soliciting for the Woman's building. -

More meaningful than these things, however, is the taste and the wisdom, the patience and the loving care which has gone into the planning of these buildings after they have been bought and paid for.

Every line in the Woman's building is a straight line, a good line. It is a solid building and belongs to a pioneer state. The furnishings of Alumni hall are way beyond the ordinary standards of anything we know in absolute simplicity and unity of arrangement.

Hendricks hall and Susan Campbell hall, both of which were furnished under the direction of Mrs. Gerlinger, are famous the United States over for their good taste-and the place a girl lives in, its beauty or its bareness, will influence her whole life.

The Doernbecher hospital, which has treated over 3,000 children in two years and nearly 4,000 clinic patients is the work of Mrs. Gerlinger. This is a thing of mercy-and it makes the lives of children beautiful, straight and whole.

So, it is for the intangible things: the patience, the nobility, the depth of vision, the charity, the generosity, rather than for the executive ability, the entirely practical things, that we thank Mrs. Gerlinger.

Her work and her life have become a symbol of loveliness.

I looked upon him with a cold eye.

"' 'And who is this luckless per-

son?' I asked as we came upon one

known as the 'GREEN LID'."

Say Hello

TRESHMEN are in back of Oregon traditions and want to boost those that are worth while to the skies.

No intelligent person, however, accepts a tradition and perpetuates it merely because it was a custom before he was wearing short skirts or rompers. The freshmen are showing intelligence in their attitude toward the library steps, but the 'hello" tradition, which seems to have been lost in the hurlyburly of paddles and paddle-wielders, was one of the distine-

tive and personality invoking traits of the university. The freshmen want to revive the tradition. We say 'HELLO'' to you. Please smile and say hello to us.

THE staff which edited this paper wishes to thank the Emerald, and Mr. George Turnbull, freshman newswriting adviser, for this chance to express freshman ideas and having the responsibility of really doing all the work.

Dear Editor:

Frosh Viewpoint on Steps

"WHEN I was a child, I played as a child; I thought as a

child. But when I became a man, I put away childish things.'

Corporal punishment is a remnant of childhood, and yet every Friday morning freshman men are subjected to a paddling.

What good does this chastisement do the frosh who has already been much chastised in his living organization? None, evidently, or the punishment would in time get less and less until at the end of the term it would be almost nil.

Moreover, the use of force is always a tacit admission of the failure of personality and character. If it is necessary with men who are old enough to go out into life and take up the world's work, as most of the freshmen are, it shows the inefficiency and invalidity of the tradition.

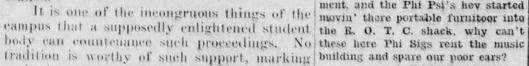

Therefore, we are opposed to the library steps procedure because: 1. It is not a manly thing; it is not a dignified thing. 2. It is not accomplishing its purpose. 3. It shows the foolishness of the tradition it is trying to maintain. 4. It is an evidence of weakness in upperclassmen-for which weakness we think less of them.

Time to Stop Library Steps

A NOTHER atavistic session known as "enforcement of traditions" took place on the library steps yesterday. We sincerely doubt that the strenuous efforts of the paddlers had any

wholesome effect in strengthening respect for the Order of the "O," the Oregon Knights, or the weak-kneed traditions which were cited by those organizations as an excuse for their inexcusable action. Even more sincerely do we doubt that one member of the paddling squad had any thought of traditions as his stave des listed under the physical ed departcended.

as it does some of the outstanding students Dear Batch: of the university as only slightly above kindergarten intelligence. In protest the Emerald will publish this editorial following every recurrence of "enforcement" until that antiquated and futile practice is discontinued.

Aerial wiew of San Francisco

A Novelty in '71-A Necessity Today

ACCORDING to old records the first passenger elevator in San Francisco was installed in a photographer's gallery on Montgomery Street in 1871.

Time has wrought great changes since then, and the San Francisco of today is a great city with many tall buildings in which Vertical Transportation is a necessity instead of a novelty.

From coast to coast, American cities are constantly growing; populations increase each year, and buildings mount higher and higher. The Otis organization, which pioneered the way with the world's first safe elevator, is today meeting the needs of the present and planning to anticipate the requirements of the future.

OTIS ELEVATOR COMPAN
