

# Radio Waves Carry Tunes Of Symphony

### Remote Control Used For Emerald Hour Over KORE

### Drama Department to Give Play Wednesday Night

Extension Division - Emerald Broadcasts Next Week  
Tuesday - Dr. Warren D. Smith, head of the geology department, will talk on "Will the Pacific Always Be Pacific?"  
Wednesday - Play presented by the drama department under the direction of Mrs. Seybolt.

Playing in concert at the music building auditorium last night, the University of Oregon little symphony orchestra was heard by remote control over station KORE on a regular program sponsored by the extension division and the Oregon Daily Emerald.

The orchestra, under the direction of Edward Best, was composed of twenty musicians from the regular symphony orchestra. Their program included "Naughty Marietta," (Herbert); "Intermezzo from Cavalleria Rusticana," (Mascagni); and selections from "The Chocolate Soldier," (Strauss).

### Dennis Sings Solo

"Where My Caravan Has Rested," a vocal solo by Jack Dennis, and "Cinzonetta," a violin solo played by Esther Wicks were the other numbers on the music program.

Musicians in the little symphony orchestra are: Kenneth Brown, Esther Wicks, Carolyn Cooper, Beulah Wynd, first violins; Estelle Johnson, Roma Gross, Bertha Alm, and Helen Althaus, second violins; Martha Patterson and Clarence Veal, viola; Roberta Spicer and Miriam Stafford, cello; Corrine Combs, bass; Maxine Moore, flute; Vernon Wisearson, oboe; Marcus Woods, clarinet; William Seivers, trumpet; Elliot Wright, trombone; Martin Geary, drums; and Maude Engstrom, piano.

### Smith to Talk

Tuesday night the extension division program will feature a talk by Dr. Warren D. Smith, head of the geology department, on "Will the Pacific Always Be Pacific?"

Wednesday night Mrs. Otilie Seybolt will supervise a play that the drama department will give over the air. Friday night's broadcast has not yet been arranged.

With the cooperation of the extension division with the Emerald in broadcasting over KORE, programs really indicative and authoritative of the university will be arranged. Talks by professors, music, and drama will be on the air every Tuesday, Wednesday, and Friday nights from 8 to 8:30 for the rest of the term.

## Oregon's Trio of Home Runs Defeats Vandals

(Continued from Page One)

out 10 men. Dave Epps, who has led the Oregon sluggers for two years, remained on the bench. He batted for Kramer Barnes, who played left field, in the ninth inning.

The box score:

OREGON		IDAHO	
AB	R H PO A E	AB	R H PO A E
Robie, ss	3 1 0 5 2 1	Groeling, m	2 1 1 0 0 0
Barnes, lf	2 1 1 1 1 0	Priece, c	2 0 0 3 0 0
Edwards, m	4 2 2 1 0 0	Cheyne, ss	3 1 2 4 5 0

Score by innings:

R H E  
Oregon, 0 0 2 1 2 4 0 0 x-10 7 2  
Idaho, 2 0 0 0 0 0 0 0-2 5 0

Summary:

Winning pitcher MacDonald, losing pitcher Lawrence; hit by pitcher by Lindsey, Ridings and MacDonald; Struck out by Lawrence 1, Lindsey 2, MacDonald 10; bases on balls off Lawrence 2, Lindsey 3, MacDonald 4; stolen base, McMillan; 3 base hit, Edwards; home run, Edwards, Gould, MacDonald; 2 base hit, Cheyne; sacrifice, Priece, Robie, Nelson; double plays, Johnson to Robie to Nelson; wild pitch, MacDonald; passed ball, Priece 2, Ridings 2; time, 2:15; umpire, Tyler Christian.

## U. of O. Movie Stars Enjoy Air Ride

Four members of the cast of the University of Oregon campus movie were invited to ride over Eugene in one of the planes of the Hobi Airways last week. Being accustomed to posing before the camera, they paused a moment to be "shot" before taking to the air. They are, left to right, Verne Elliott, Phyllis Van Kimmell, Dorothy Burke and Bill Ovarstreet.

## Airplane Made Prize In Eaglerock Awards

COLORADO SPRINGS, Colo.—(Special)—As a result of an unusual amount of collegiate interest in the Alexander Eaglerock awards for 1929, both an Eaglerock airplane and an aeronautical scholarship will be awarded this year.

The scholarship has been established in the Daniel Guggenheim School of Aeronautics at New York university. Four short papers on aeronautics, written as briskly and containing as many practical ideas as possible, are required of the competing students.

Prof. Alexander Klemm, head of the Guggenheim school, is chairman of the committee to select the successful candidate for the scholarship and a second committee, composed of prominent Colorado educators, aeronautical engineers and pilots of the Alexander Aircraft company, are to make the Eaglerock awards June 1.

## Group Attends Meeting

Professor and Mrs. W. D. Smith, Professor A. E. Caswell and Professor E. D. McAllister recently attended the meeting of Sigma Xi club, a scientific society, at Corvallis.

At the meeting Dr. Nathan Fasten, had of the department of zoology at O. S. C., spoke on "Popularizing Evolution." Professor F. G. Baender, head of the department of mechanical engineering, also gave a talk on "Lubricating Oils."

## Coxswain of Crew Hard Job Avers Prof. E. H. Ford

(Continued from Page One)

four miles must be covered without letting up. Men have been known to faint in the boat at the finish of a race."

## Card Crew Obsolete

Stanford university does not now have a crew. The main reason for discontinuing the sport was that the nearest place suitable for practice was more than five miles from the campus.

When Mr. Ford was at Stanford, the crews would take a train to Redwood City, five miles out of Palo Alto, and would go on foot about a mile from there to the boat-house, where the shells were kept. The practice course was through the quiet water of the sloughs along the shore of San Francisco bay near Redwood. During the training periods, the crews would sometimes take trips of fifteen to twenty miles in length, returning to the boat-

## OPPORTUNITY FOR SUMMER EMPLOYMENT

This summer a group of men will be selected from the University of Oregon to represent the largest publishing house in the world.

A weekly salary of \$24, plus liberal bonuses and cash scholarship for those who qualify. A post-graduate course in selling and opportunity for travel with transportation expenses paid.

For particulars get in touch with

Evenings, 7-9, Hotel Osburn

house so weak and tired that some of the men found it difficult to cover the mile to catch the train for home.

### Racing Technical Sport

Crew racing is one of the most technical sports. Mr. Ford outlined some of the essentials. In the first place, the shell itself is so narrow and sits so low in the water, that when the oarsmen are seated in it, it will capsize unless the oars are kept flat on the surface of the water. It is only when the boat is under way and has attained considerable momentum that it will remain upright in the water. Even then, if the oars should get out of rhythm, the boat is likely to wobble and swamp. That is one of the reasons why one of the most essential qualities a member of crew must possess is ability to work smoothly.

## Ford Dubbed "Husky"

Whenever a Stanford man had the distinction of piloting a boat in a race, varsity or freshman, he acquired the sobriquet of "Husky." Such was the name that Mr. Ford carried throughout his college career.

The race between California and Stanford freshmen in which Mr. Ford participated was won by Stanford by three lengths.

The job of steering a shell requires much technical knowledge. Many races are won and lost through the steersman. He must allow for tides and currents, and must see that the course is covered by the shortest and safest route.

## Journalism Honorary Issues Yearly Paper

The 1929 issue of the Handshake, annual publication of Theta Sigma Phi, national journalistic fraternity for women, was distributed to active members yesterday, and will be mailed to about a hundred alums.

## Members of Daly Club Vote Upon New Constitution

### Plans for Pins Adopted; Monthly Meetings to Be Held in Future

At a recent meeting of the Oregon Daly club, an organization of students on the campus who are receiving the benefits of the Bernard Daly Educational fund, plans for closer relationship between members were discussed and a new constitution voted in to take the place of the obsolete one which was formerly used.

It was decided at this meeting to hold regular luncheons at the first of every month at which some speaker from the campus would address the group. A pin, significant of the organization, was also adopted.

There are now twenty-eight students at the University of Oregon on the Bernard Daly fund. This sends yearly, an average of sixteen students who graduate from any Lake county high school after having spent all four years in that county. The fund has now reached nearly a million dollars and allows each student \$600 yearly toward an education in any Oregon institution of higher learning. The money was left by Mr. Bernard Daly, pioneer of Lake county, and whose only requirement was that those who benefited by it were the "most deserving."

The students are selected by a board composed of authorities of both the high schools of Lake county and the higher institutions of the state.

## Mrs. Dan Clark Better

Mrs. Dan E. Clark, wife of Dr. Dan E. Clark of the extension division, is recovering from a major operation, which was performed last week. She is at the Pacific Christian hospital.

## Comptroller Sick

L. H. Johnson, comptroller, Thursday was removed to the Pacific Christian hospital where he will undergo treatment for a few days. Johnson is not seriously ill but after an examination at the hospital it was decided that he should remain there for a time.

## SUMMER SCHOOL

For 12 weeks, beginning Monday, June 3, classes in shorthand, bookkeeping, typing, etc., will be conducted by our regular corps of teachers. Ask about it.

## Eugene Business College

## Sorority Head

Miss Harriet Duer, president of Chi Delta sorority which has recently been granted a charter by Beta Phi Alpha, woman's national social fraternity.

## Book Portrays Wives Of Henry the Eighth

"Henry the Eighth" by Francis Hackett is a recent interesting addition to the seven-day books in the main library.

The book, which is a biography of the famous king, is a splendidly arranged volume. A full-page picture of Henry the Eighth, a reproduction of the painting after Holbein in the royal gallery at Windsor Castle, is in the front of the book. Besides telling in detail the life of the monarch, the volume devotes a chapter to each of his wives. Each of these chapters is preceded by a full page picture of the lady discussed.

## Mrs. O. Seybolt in North

Mrs. Otilie Seybolt, head of the department of drama, left yesterday to spend the week-end in Portland where she will attend to business connected with the department and the commencement play.

# Who wants to live on blubber?

One of the scientific results of Stefansson's explorations in the "liveable Arctic" was establishment of the fact that it is quite possible to live in health upon an exclusive diet of blubber.

The blubber seems to acquire a creamy, nutty flavor. Very agreeable, according to this intrepid investigator! After living upon it for some time the craving for a varied diet passes completely away. To this astonishing simplicity may all your tastes be reduced. But it would be retrogression of a most serious sort for humanity to revert to such simplicity.

In the Arctic, where Eskimos live in a vast wasteland, there is no progress. Progress depends upon ideas—fresh impulses—the stimulus of changing desires. Our modern progress has been stimulated to the greatest degree by means of advertisements. Daily advertisements awake new desires; and desires, capable of fulfilment, tend to diversify life, enrich it, and add considerably to its joyousness.

*Advertisements tell you of the varied things that enrich life*
