## The Student And Professor

GONE, perhaps forever, is the bold, bad student who once used his fists to repay a professor for a failing grade. Enters, in his place, the scholar who offers his own blood to save a professor's life.

The fact that eleven Ohio State students cared enough for an Ohio State professor to sacrifice their own blood to relieve his illness was given considerable publicity a week ago. A few, however, may have failed to see the change in attitude evident between student and instructor.

Not so many years ago one of the most successful men in the community near a small Ohio town was boasting of physical triumphs over professors in at least three colleges. The same sort of assertions must have been made by others. Severe accusations against the colleges have been made. Critics have hinted that students needed civilizing. Here is a change for the better that

they will recognize if they are honest.—Ohio State Lantern.

## Studying or Die Crusading Idea

THE Daily Nebraskan, campus journal at the University of Nebraska, is doing a little crusading in the great cause of higher education. This newspaper, apparently realizing and deploring the lamentable fact that some students are wont to forget that their attendance at the university is primarily for academic reasons, has hit upon a novel scheme to guide the laggards and socially-minded members of the student citizenry back into the fold.

The Nebraskan is conducting a study limerick contest, filling it "Simple Study Slogans." Here's one, for an example: "Caking circles banned it; Instructors all demand it." With a few of these inspiring rhymes pasted in their copybooks to ward off temptation, we'll be mightily surprised if those Nebraska fellows don't study their darned heads off.—University of Washington Daily.

## Artists' Recital Pleases Musicians are Praised

By A. G.

We heard two real artists give a recital last night: Jane Thacher, pianist; and Madame Rose McGrew, dramatic soprano. Jane Thacher's program was composed entirely of modern music, and it was exquisitely done with a dash and great deal of imagination. Many in the audience were heard to say that for the first time modern music had been so interpreted to them that they got something out of it. One member of the audience was so pleased with the first two Gardner numbers, "Difting" and "Beyond the Mist," that at the close of the program he stood and requested them to be played again. The "Poeme" of Schriabine was a general favorite, and for a musical composition it was perhaps the loveliest. After Mrs. Thacher's fourth number, the "Bourree" of Paolo Gallico, Madame McGrew sang a most remarkable ensemble of French and German numbers that were most enthusiastically received. The first two numbers: "J'ai Pleure en Reve" (Georges Hue), and "Ariettes Oublies" (Debussy) were lovely in their sadness and no flaw can ever be picked with Madame for not feeling the things she sings. She had made them a part of herself before she presented them. The "Die Bekehrte" (Max Stange) was lighter and full of smiles, but it was the last number of the group that thrilled—the "Hat Dich Die Liebe Berührt" of Josef Marx. It was dramatic and powerful and the tones were clear.

Two numbers from Manuel de Falla—"Ritual Fire Dance" from the Ballet "Love Magic" and "Cubana" together with Rhene-Baton's "Spinners of Brittany" played by Jane Thacher, concluded the program. Mrs. Thacher certainly presented an excellent program technically, interpretatively, and imaginatively! For encores Mrs. Thacher played Frank Bridge's "The Dew Fairy" and Friedman's "Elle Danse," and Madame's encore was a charming lullaby.

## U. of O. Deans Go Up In the Air

The deans at the University of Oregon had an opportunity to keep a lookout on the whole campus at once recently when they were given airplane rides by Hobi Airways, Inc., at Eugene. They are, from left to right: Miss Alice McKinnon, secretary to Hugh Biggs, dean of men; Mrs. William A. Fowler and her husband, who is professor of business administration; Dean Biggs and Miss Hazel Prutsman, dean of women.

## O. S. C. Symphony Receives Praise In Recent Concert

Guest Conductor, Jacques Gerschikowitch Wins Big Applause

By ALICE GORMAN

Sunday afternoon Margaret MacManus brought the symphony orchestra of Oregon State college over here to play a return concert for us in the auditorium of the music building with Jacques Gerschikowitch as guest conductor. It was certainly a treat to hear our neighbor's college orchestra play for us, and in the words of Dean Landsbury, dean of Oregon's school of music, Margaret MacManus is a woman to be highly praised for the splendid things she has accomplished with the orchestra and for the fine spirit and interest she has shown in musical exchanges between Oregon State and our university.

Jacques Gerschikowitch certainly won the most enthusiastic appreciation and applause of the well filled auditorium. He is a man with an intense and active interest in the development of orchestra music, especially among young people. The intimate and thorough knowledge that Mr. Gerschikowitch has of this subject was shown in the Tchaikowski number "At the Church" which Mr. Gerschikowitch wrote the arrangement for. It proved to be the most popular number on the program. Mr. Gerschikowitch has been in the west now for four years. We hope to hear him again.

## College Women Meet In Annual Play Day

About 45 Oregon women attended the annual Oregon-O. S. C. Rally day, which was held Saturday at Corvallis. Mixed teams composed of women from both colleges competed against each other during the day, playing tennis, hockey, baseball, group games, and archery. The meet, which is held alternately at Eugene and Corvallis, is sponsored by the W. A. A. to promote friendship between the two schools.

## Oregon Knight Officers Picked At Recent Meet

Campbell of Utah Chosen Head to Succeed Norblad

Al Campbell of the University of Utah was elected national president of the Intercollegiate Knights at the national convention held on the local campus last week-end.

Walt Norblad, retiring president, presided at the meeting. It was decided that next year's convocation will be held at Logan, Utah, where the University of Utah is located.

William Hendricks of the University of Washington was chosen vice-president; Douglass McCoy, also from Washington, was re-elected secretary-treasurer. George Starlund will remain as advisor of the organization.

A dance given by the local group honored the delegates at the Osburn hotel Saturday night.

## Students Urged to Pay Dispensary Bills Soon

About 250 students owe money to the dispensary. The bills are not large, only about ten cents or a little more. These students are urged to pay before the end of the term so the bills will not have to be added to next term's fees.

## Margaret Creech Here

Miss Margaret D. Creech, assistant director of the school of social work will be on the campus today and possibly Wednesday and will confer with students who are interested in nursing or other phases of social work. Students may get in touch with Miss Creech by calling the extension division, telephone 990.

## One in Infirmary

Marshall Brownell who is suffering from scarlet fever, is the only patient now in the infirmary.

## It Won't Be Long Now

Exams will soon be over and the schoolhouse will be closed for another three months as far as you are concerned. What to do is the question.

If you are earning your way through school, entirely or in part, you will be interested in the Consumers Merchandise Association offer. Earnings of students range from \$400 to \$2,500 during vacation. You can depend upon your personality, push and our assistance to make the eagle scream for you. Write or call for further information.

Gentlemen:  
While in Banff, Alberta, in 1909, I climbed Tunnell Mountain. On top of this mountain there is a cairn of stones where tourists leave their cards with remarks about the scenery, etc. Not having a card with me, I left a tin of Edgeworth's Sliced, scribbled my name and address on a piece of paper, and said, "Have a fill on me."

I have kept up a haphazard correspondence with one of three who wrote me thanking me for the Pipeful of Edgeworth. What makes me write you is that today from Australia I received two slices of Edgeworth with the words, "Have a fill on me," so you see Edgeworth keeps friends friendly.

Yours sincerely,

## Actors in Big Demand Apply to Mrs. Seybolt

It doesn't make any difference whether you are a blond or a brunette, wear size 13 shoes or size 5, whether you have a personal preference of Pi Phi or D. G.'s you can become an actor.

This opportunity is offered through the need of men to take the part of soldiers, populace, and courtiers in the commencement play, "If I Were King" which will be presented June 7.

There isn't any money in it, but do it for love! She will admire you more if you become an actor.

Or if you haven't met her yet, you may during the rehearsals. If you think you can make an actor, you will see that you get them, or if you think you might look gallant wearing a hat with a sweeping plume and a cloak that floats nonchalantly, those also will be supplied.

## E. O. Chatterton Will Interview Prospects

Mr. E. O. Chatterton, of the advertising department of the Morning Oregonian, will be on the campus Tuesday to interview prospects for the advertising staff. He is interested in a man for the radio broadcasting station, KGW, as well as for the local display classified department.

Mr. Chatterton will talk to any student who is interested in the work. The opportunities he offers are not limited, necessarily, to students of advertising. Students who wish may see him by making arrangements with Professor Thacher, whose office is in the Journalism building.

## ELECTRICITY— the modern prospector

**A STOUT heart:** a burro laden with pick, shovel, and the bare necessities of life; and the prospector was ready for the gold rush—Sutter's Mill, the Pike's Peak country, Cripple Creek, Klondyke. A scattered trail of half-worked claims marked his sacrifices.

To-day mining is a business, with electricity replacing wasteful brawn in mine and mill.

The deep mine, with electric lights, hoists and locomotives; the surface mine with huge electric shovels scooping up tons of ore in a single bite; the concentrating mill with batteries of electrically driven machines; the steel mill with its constant electric heat—here are but a few of electricity's contributions to the mineral industries.

So in every industry, electricity increases production and cuts costs. It is the modern prospector, leading the way into wider fields and tapping undeveloped resources—that we may enjoy a finer civilization and a richer, fuller life.

You will find this monogram on powerful motors that drive heavy mining machinery and on tiny motors that drive sewing machines. Both in industry and in the home, it is the mark of an organization that is dedicated to electrical progress.
