

Track Teams Prepare For Two Big Meets

Practice Tilts Display Signs of Strong Squad

'Reds' Win by Score of 104 To 100 from 'Calford Blues'

The frosh and varsity track squads showed themselves to be fast approaching top condition for the two big meets of the season, the one with O. S. C., and the Northwest conference meet, in the practice meet between the "Reds" and the "Calford Blues" Saturday, according to Bill Hayward, track coach.

The "Reds" won the meet by a score of 104 to 100. The team was made up of Tyrrell Lowry, Bill Minsinger, Bert Tuttle, Virgil Scheiber, Ralph Hill, Cliff Beckett, Fred Beehill, Lloyd Ruff, Ralph Fisher, Wilson, Harold Fraundorf, Ed Moeller, George Stager, George Tebetts, Bob Jackson, Ed Thorstenberg, Cad Ellis, Bob Robinson, Bob Everts, Foss, Moran, Clarence Hill, Bill Winter, Vern Coverstone, and Neil Whisman.

The "Calford Blues" were Orville Bredthauer, Bill Prendergast, Paul Bale, Francis Hill, Claire McKennon, Ed Jensen, Pat Beal, Ken Raley, Tom Johnson, Clark Price, Roy Brown, Marion Hall, Graham Covington, Gilbert French, Hal Hildreth, Bill Crawford, Harold Kelley, Dick Jennings, Ernest McKittrick, Don Maultby, Al Browne, Kier, Harry Pith, and Kuykendall. Ed Moeller and Tyrrell Lowry were high men in the scoring. Moeller took first in the shot and discus, and tied for second in the high jump. Lowry won the 220-yard low hurdles, and took seconds in the 100-yard dash and the 220-yard dash.

Clarence Hill showed some of the ability he possessed before he broke his leg in a cross country race last fall. He covered the two-mile distance Saturday in 10:09.1. Ernest McKittrick made a comeback also, when he won the 880 in the time of 2:02.2. McKittrick has been off his stride all season. Last year he was able to cover the half-mile distance in close to 1:57. Tomorrow Bill Hayward will post the names of the men who enter the frosh and varsity meets with O. S. C. this week-end.

Formal Banquet Main Feature of Temenid Meeting

The formal banquet held at Lee-Dukes, May 18, followed by the formal ball given at the Masonic temple, were the culminating features of the Temenid national convention of which the Oregon chapter was hostess.

During the course of the banquet a piano solo was given by Emmabelle Woodworth; a vocal duet by Winona Irving and Amy Hughes.

Bernice Rasor gave

a very fitting close in her talk on "Sweet Peas of Tomorrow."

The national officers were then installed by Bernice Rasor, retiring national president, using the very impressive candle service.

Following the banquet, Bethal chapter of Temenids was hostess of the formal ball given at the Masonic temple. The ballroom was elaborately decorated with palms and huge baskets of sweet peas as well as many bouquets of other spring flowers. Flood lights added colored softness and springtime brilliancy to the room.

HARRY MILLER

In my opinion, Richfield Gasoline and Richlube Motor Oil is the ideal combination for every car. It is a combination that will give greatest efficiency in the operation of the car, both from the standpoint of power, speed and dependability as well as in economy of operation. I have used them exclusively for many years in racing motors and in my own private cars and can conscientiously recommend them to every motorist as the finest products of their kind that are made.

Harry Miller is credited with many of the great improvements in engine design of the past decade...the builder of automobile, hydroplane and aviation motors that hold many of the world's existing records for speed and endurance. His endorsement is the highest recommendation that any motor product can possibly have.

Richfield products are also used and endorsed by many other famous pilots and designers, including Fred Duesenberg, Anthony Fokker, Art Goebel, Allan Loughhead, Harry Hartz, Captain Wilkins and Ralph Snoddy...men whose achievements are internationally recognized.

Richfield really is better! Its qualities...proved in grueling competitive events...are the same qualities you need in your own motor car...power, speed, mileage and dependability.
