

Team Selected To Face Aggies On Cinder Path

24 Men Oppose Beaver Squad on Hayward Field Saturday

Indicators and Announcers Will Aid Spectators

The varsity men who will compete with O. S. C. on Hayward field Saturday afternoon were selected yesterday by Coach Bill Hayward. Twenty-four men will be allowed on each team.

From all indications, this track meet will be more interesting from the point of view of the casual spectator than any other dual meet ever held here. Bill Hayward and his assistants have taken care to assure such a thing. A tower has been put up on the north end of the field to serve as a support for a set of loud speakers. Bob Mantz, an ex-varsity man, and Spike Leslie, freshman coach, will be announcers.

Large indicators that can be seen from all stands have been constructed to keep the spectators posted on the heights and distances of the field events. Announcers will call out names of all participants, and will give the lane for each man in the races.

"Showmanship" Watchword

Only bonafide officials will be allowed on the field. In the past, crowds of more or less privileged persons were permitted to swarm about, obstructing the view from the stands. Showmanship will be the watchword on Hayward field this season.

At least two varsity men, Bill Prendergast and Ralph Hill, will know that they have been through something when the meet is over, if they take part in all of the events that have been assigned to them.

Prendergast will run in the 100-yard dash, the 220-yard dash, the 440-yard dash, and a 440-yard lap in the mile relay. Ralph Hill will compete in the half-mile run, the mile run and also a lap in the mile relay.

Ed Moeller, of course, will be on hand to try to stretch the world's discus record. He will also put the shot, and do a turn at high jumping.

Oregon Chances Seen

Oregon has a chance for a shut-out or two, particularly in the shot, discus, high hurdles, and possibly one of the sprints. Nothing is safe, however, because records show that the O. S. C. men have been picking up rapidly since the first of the season. It is almost a certainty that Oregon must expect one or more bad upsets, according to Hayward.

100-yard dash — Tyrell Lowry, Bill Prendergast, and Bert Tuttle.
 Mile run — Pat Beal, Ed Jensen, and Ralph Hill.
 880-yard dash — Ernest McKittrick, Ed Thorstenberg, and Ralph Hill.
 220-yard low hurdles — Ed Siegmund, Lowry, and Harold Kelley.
 Two-mile run — Clarence Hill, Ed Jensen, Pat Beal, and Bill Winters. (Three men to enter.)
 Pole vault — Bobby Robinson, and Don Maultby.
 440-yard dash — C. McKennon, Prendergast, and Clark Price.
 High jump — Bob Everts, Bill Crawford, and Ed Moeller.
 Broad jump — Orville Bredthauer, Johnny Kier, and Lowry.
 Shot put — Ed Moeller, Homer Dickson, and Marion Hall.
 Discus — Ed Moeller, Hildreth, George Stager, Homer Dickson, and Marion Hall. (Three men to enter.)

Senior P. E. Women Plan Farewell Picnic

Senior members of the women's physical education department and Martha Hill, Louise Hodges, and Emma Waterman, members of the faculty who will leave the university at the end of the year, will be honored at a picnic to be given by Florence Allen, head of the physical education department.

The group will leave the Gerlinger building at 5 o'clock this afternoon in cars. Their destination has not been disclosed, but swimming and cooking supper will furnish part of the evening's fun.

About 20 students and eight members of the faculty will be present.

Old London Magazine Received by Library

Two bound volumes of "The Athenaeum," a magazine of literary and miscellaneous information, for July to December of 1808, and for January to June of 1809, respectively, were secured by the library recently.

The magazine, which was published in London, contains sections devoted to extracts from rare and curious books, original poetry, literary and miscellaneous information, lists of new publications, reports dealing with commerce, agriculture, and world happenings, prices, and correspondence.

Library Orders Edition Printed by John Nash

A special edition printed by John Henry Nash, publisher of San Francisco, California, entitled the "Comedy of Dante's 'Alighieri'" has been ordered recently by the library for the Pauline Potter Homer collection.

The edition will be made in four folio volumes, and it will be printed on special water marked paper made

by the Van Gelders of Amsterdam. The books are being bound by the Hubel and Denck binders of Leipzig. The binding will be of classic vellum tooled in simple gold lines.

The translation, which is by Melville Best Anderson, is considered one of the finest printed in English. The first volume is devoted to a series of introductory essays, in which vivid and colorful records of the Florence of Dante's time have been given.

The second volume is composed of "The Inferno," the third of "The Purgatorio," and the fourth of "The Paradiso."

The volumes will be printed with out ornament except for type. The type used will be Cloister oldstyle in a lightface.

Two hundred and fifty copies are being printed, two hundred and thirty of which are for sale.

Last League Tea to be Given Outdoors Today

Iced tea—really iced—will be served this afternoon between three and five o'clock on the lawns between Hendricks and Susan Campbell halls when Women's league holds its last tea of this year.

It will be the year's only out-of-door affair and an unusually large attendance is expected, particularly as it is the last one which the 1928-29 tea committee, headed by Florence McNeerney, will handle.

Eleanor Poorman will be in charge of entertainment and Marjorie Chester of food.

Thespian, freshman women's honorary, will be hostess for the afternoon.

Operating Costs Of Ore. Plumbers Research Subject

Professor O. K. Burrell Writes Bulletin for Business Bureau

"A Study of the Operating Costs of Master Plumbers in Oregon, 1928," is the title of a research just completed by O. K. Burrell, assistant professor of business administration, for the bureau of business research. This bulletin presents the results of a study of the operating costs of master plumbers and met with the approval of the State Association of Master Plumbers.

The purpose of this study is to provide plumbers with authentic information on typical expense margins, and profits in the plumbing business in Oregon and to throw as much light as possible on the problems of the industry. It is meant also to afford the individual plumber a means of analyzing and checking up his own business. Professor Burrell was assisted in the compilation of this research by Harry Van Dine, who is on the Emerald staff.

Mr. Burrell also gave a speech based on this research to the Oregon state convention of master plumbers last Saturday afternoon at the Multnomah hotel in Portland. At this convention the National association of Master Plumbers expressed themselves as interested in the project.

Several magazines of nation-wide circulation are running features on

the survey in their June issues. These magazines are "Domestic Engineering," "Plumber's Trade Journal," and "Western Plumbing and Heating Journal."

Old New York Posts Received at Library

A pile of yellowed, ancient looking newspapers which proved to be issues of the New York Evening Post for the year January 3, 1821 to January 26, 1822, were received at the main library yesterday.

These papers were bought in New York by the library and they will be sent to the bindery soon to be placed in a more stable form. During the binding process, they will be covered with a transparent Japanese rice paper to keep them from further deterioration.

A number of the "Oregon City Argus" for August 10, 1861, was also received by the library. This number helps complete files already owned by the library.

Provision Made For New Books By Faculty Fund

Five Thousand Dollar Gift To Aid Getting Volumes For Research Work

Five thousand dollars from the faculty gift campaign has recently been made available for the purchase of books for the university library, it was announced yesterday by M. H. Douglass, librarian.

At the time the original subscriptions were made, the members of the faculty voted to have their fund, unless otherwise specified, used for the purchase of research

books for the library.

The greatest part of this amount will be used in buying periodical sets, completing old sets, and adding sets of scientific journals, publications of learned society's, and other sets of importance, which cannot easily be secured from current funds.

Each department in the university has submitted a list of preferences and the library is fulfilling these as much as possible. It is difficult though, Mr. Douglass explained, for the library to secure the desired sets as they are often out of print; and it is necessary to purchase them from second hand book stores and other similar sources.

Orders amounting to about \$2000 have already been placed, and it is believed that the rest of the gift will be spent during the summer.
