been a case of breaking-in an entirely new team. I really believe that Oregon is going to make a great showing this year."

MANY VACCINATIONS GIVEN TO STUDENTS

Dr. F. N. Miller, director of the University health service, states that the smallpox epidemic reported in the vicinity of Eugene has not yet touched the campus. There are no cases among University members.
 The call offered by the health service to vaccinate students free of charge has been responded to. Forty-eight vaccinations were made Tuesday and about 70 yesterday.
 As yet, only one living organization, which had a large number of students wishing to be vaccinated, had members of the health service call at the house and perform the vaccinations there.

Webfoot Quintet Works Hard for Cougar Fray

Pullman Team To Play Here Friday Night

Return of Chastain Puts Webfoot Stock on Higher Level

Reinhart Will Start His Regular Lineup

In preparation with the opening of the conference season with Washington State tomorrow night the Webfoot basketball squad put in a thorough practice period last evening. Billy Reinhart is working the boys overtime in an effort to come through with a victory over the Cougars.
 A large part of Bill Reinhart yesterday's workout consisted of scrimmage and the perfecting of a fast passing attack that Oregon will rely on to pierce the Cougar defensive. Although the Oregon team has plenty of speed, the coordination and timing of their short, swift passes has been bad in pre-conference games. Whether they can develop an accurate attack in time for the game Friday night is the big question.

Chastain Back

The return to school of Mervyn Chastain, two-year letterman, has strengthened Webfoot basketball hopes considerably. Handicapped by an injured shoulder last year, Chastain remained one of the fastest men on the team. He is showing his old speed again this year and his shoulder has not been bothering him although he still wears a brace.

Starting Lineup Given

Dolph and Calkins, forwards; Jean Eberhart, center; Olinger and Horner, guards, have been starting and will probably get the call again with Hughes and Chastain certain of seeing plenty of action.
 The final practice will be held this afternoon, after which Reinhart will select his starting lineup for tomorrow night.

LACROSSE GIVES WAY TO HOCKEY

At the W. A. A. council meeting held Tuesday evening lacrosse practice was voted to continue, but only two days a week, Tuesdays and Thursdays. The purpose of this was to give more time to those who are trying out for the hockey team that will play the all-American team coming later this month.
 It was also decided to recommend that the constitution be amended to again allow girls to earn 500 points a year as previously. This past term the sports were operated so girls could only go out for one sport. Announcement was also made that no girl who has not made a 3.5 average last term can go out for a sport this term.
 A program will be put on for the benefit of the high school students to give them an idea of the work of W. A. A. in the field of sport.

 face of a mountain about 1,200 feet high. The epic represents a life-size portrait of southern officers of the Civil war, though only the figure of General Lee has been completed. "Some of the boys tried to bring away the whole mountain," the professor said, laughing, "for they purchased

Campus Officials Confirm Rumors

Tangled Situation Cleared By Complete Statements

By JACK BURKE

"I enjoyed my visit to St. Augustine, however, more than any other place of our trip to Miami," he said in concluding.
 DR. BOWEN VISITS—3
 Swimming on Christmas day was the experience of Dr. Ray P. Bowen, head of the romance language department, who recently returned from southern California, where he spent the Christmas vacation. Dr. Bowen visited with Murray Fowler, formerly of the English department here, and spent Christmas at Santa Barbara.
 The only other signs of Christmas in California, that were noticed by Dr. Bowen, were the palm trees lighted with electric lights, and used as Christmas trees, although the store windows contained all the usual decorations of the holiday season.
 While in California, Dr. Bowen visited Dr. Arnold Rowbotham, who was an instructor in the romance language department here last year, and who is now at the University of California, and saw Mrs. Datson Davis, director of dormitories here for many years.

ENGLISH TEACHER ATTENDS MEETING

While on his return trip from Miami, Florida, where he accompanied the team for the game, Professor H. C. Howe, of the English department, stopped at San Francisco to attend the convention of the Pacific Coast Intercollegiate Athletic association which was held there Dec. 16, 17, 18, at the Cliff hotel. Professor Howe has been a representative from Oregon to the conference since 1915 when it was founded.
 A revision of the rule book for intercollegiate sports was made at the conference.

The Ambler

YESTERDAY WE SAW:
 FRED NORTON practicing a radio speech... ELIZABETH HAHNER feeling at home in the snow... THE PIONEER with a hat brim full of white snow flakes... JACK MORRISON practicing a hot vocal solo for the Junior Vaudeville... PETE PROCTOR wondering why is snow... DEAN BIGGS ducking a water soaker... EVERYBODY wishing for three feet of the white crystals.

Keen Interest In Oregon Rifle Team Predicted

40 Marksmen Reporting On R.O.T.C. Indoor Target Range
 The manly art of self defense in the form of rifle practice is the subject of greater interest this quarter than for some years, according to Lieutenant Herbert of the R. O. T. C., who expects a turnout of nearly forty men on the rifle range.
 The greater interest he attributes to the recognition given the rifle team last year by the associated students in the form of pins for the members of the team by the R. O. T. C. Another factor that created interest was the recommendation last quarter by

Eat While You Wait

Those busses have a way of going by just a half a minute before you arrive on the corner. And those twenty or thirty minutes before the next one comes along are about the hardest possible way to waste time. Just drop in at the Peter Pan and have a bite to eat. It will help pass the time nicely and relieve that four o'clock hungry feeling.

Peter Pan Cafe

...and a Telephone man brought them together

In the Bell System research and development are not confined to engineering laboratory. These methods are applied also to the commercial side of the business, to make telephone service more and more useful.
 An example is the classified telephone directory, with its convenient listings by trade and profession, for quick and easy reference.
 Or take this other use of the classified directory. Telephone men analyzed advertising and merchandising. They saw that prospective purchasers of advertised products often did not know where to buy them. They developed a plan for listing these dealers under their brand name in local "Where to Buy It" directories—a genuine service to buyer and seller alike.
