MOVING FINGER

(Continued from Page One) the committee. The influence of secret politics should be lessened, it seems agreed. But if the president is going to decide whether or not the question is to be brought before the judicial trio, then he is surely going to decide whether or not they will sustain his opinion.

If he thinks they will not, then a rather great temptation is placed before him not to bring this matter before them at all. And if he brings only those matters before the judiciary in which he thinks they will concur—what then is the advantage of having a judiciary at all? The only advantage would be that the president could point in those cases to the judiciary and say, "They did it." Though what could he say if he

Bossing To Speak To High Schools Of Pacific Coast

Plans To Spend Ten Days Lecturing and Confering

A ten-day trip through towns along the coast is being planned by Dr. Nelson L. Bossing, associate professor in education.

Dr. Bossing will leave Eugene on Wednesday, February 19. His itinerary includes stops at high schools as far south as Roseburg. From that city he will continue to the coast.

At some of the schools he plans to speak before student body assemblies, while at others he will merely hold conferences with students and teachers.

During his absence Dr. Bossing intends to spend one week-end at Bandon, where he will experience his first deep-sea fishing trip, if the weather is favorable.

The schedule for Dr. Bossing's tour includes Yoncalla on Wednesday; Oakland and Sutherlin, Thursday; Roseburg, Friday.

On the following Monday he will continue his trip to Bandon and Riverton; Coquille on Tuesday; and North Bend, Friday. Dr. Bossing will return to Eugene after completing his program at North Bend.

refused to bring a question before them?

To take away the sole power from the president should not mean that everyone would be given the right to air petty grievances before the judiciary. A petition signed by a small number of students might be required in case the president refused to refer the matter.

All matters should be referred to the president for review. Many of the problems would be settled without ever reaching the judiciary, and those solutions would be generally accepted—or the president might himself remedy the conditions.

When it comes down to the "big" things in campus matters the decision should not rest on the president's favor.
