

The Emerald SCORE BOARD

By Jack Burke

ENGLISHMAN SAYS MACHINES BEAT LIPTON—

We are disappointed in the English. We used to think they were such good sports and we find the following statement by the Associated Press, attributed to Captain Ted Heard, who commanded Sir Thomas Lipton's Challenger in this year's yacht races:

"We were beaten by mechanical devices which made the Enterprise the faster boat."

We can't see where they get the idea and hate to think that the some thousand people who at the suggestion of Will Rogers contributed to a fund to buy that "sportsman" Lipton, a cup will get gyped.

HITZ IN SECOND PLACE FOR SCORING—

Johnny Kitzmiller's 43 points scored this season place him first on the coast and second in the country. This is not second in a list of selected players throughout the country but is in a list of all the big conferences throughout the country.

J. Murphy of Fordham, which by the way, has won 12 games straight not having suffered any reverses last year, leads the field with 9 touchdowns or 54 points.

It is interesting to note that in the whole territory east of the Mississippi only 2 field goals have been scored. Also interesting is the total of Ellert of Syracuse whose whole 11 points were scored in try-for-point after touchdowns.

CAP McEWAN WINS ANOTHER—

Taking the Holy Cross-Providence game as an indication Cap McEwan is doing well back East. The McEwan coached Crusaders took the measure of the Friars to the tune of 27 to 0.

Offensively speaking the team is as good as the score indicates and as the Friars were not allowed a single first down the outfit is all right defensively.

Passes featured the Holy Cross attack as did the Oregon play when Cap was here so to all intentions the system in use there is about the same. The game was reported as a display of offensive power on the part of the Crusaders as one touchdown came after a sustained drive of 50 yards.

TWO GOOD GAMES ON SCHEDULE TODAY—

As far as we can determine there are but two games of any significance this week-end considering only the Pacific Coast conference.

First, of course, is the Cougar-Trojan epic at Pullman. As to this one, much as we would like to see the Washington State team win we believe that the Southern eleven is two touchdowns better than the Northerners. Maybe Hoisingberry's men were above their heads last Saturday and can do it again but we would hate to bet on it.

As to the California-St. Marys game we can't see how the Bears can beat the Gaels. That is one of the real games in the South and the California stadium is a sellout already. No matter who wins by what score it is always one of the hardest fought games of the year.

Revised Campus Phone Book Coming Out Soon

The first real campus telephone directory will be off the press the first of the week, according to R. C. Hall, superintendent of the University press.

The proofs are out for correction; and as soon as they are returned the directory will be printed. There will be 400 copies, enough for student and faculty use only.

Last year's directory was small, and is now definitely obsolete as a result of the installation of the dial system on the campus, according to Mr. Hall.

HERE TODAY, BACK NEXT YEAR—MAYBE

(Continued from Page One) Anderson, no longer brightens the gloom.

The bicycle-riding prof with the deceivably mild expression—Walter Barnes—is gone this year though he will return to the campus next fall. And Dr. Wilmoth Osborne, who somewhat awed frosh women in the weekly personal hygiene lectures is missing, but she, too, will return next year.

And last but not least, the campus is quieter with the absence of the bombastic Dr. John Mez, political science prof, who, Allah be

Sport Managers Of Girls's Hockey To Be Appointed

Girls Not Knowing Game May Attend Practices And Learn It

Class managers for women's intramural hockey will be chosen Monday evening with the regular period for the sport. Many of the girls who were interested in hockey started playing last week, but regular practice didn't begin until last Monday.

"There is still time for girls who don't know how to play, to come out for hockey and learn before the teams are chosen," Miss Mary Wilburn, senior in physical education, who is in charge of the activity announced. Miss Janet Woodruff of the faculty is the adviser.

Teams will be chosen earlier this year, in order to give the girls a better chance to work up team play, Miss Wilburn said. Whether it rains or shines the girls are out on the field five days a week from 4 till 5 o'clock. In order to be eligible for the team a member is required to practice three days a week.

There are 11 girls on a hockey team, with those making the first team winning 100 W. A. A. points, counting toward a letter. The second team members receive 75 points and each of the third team group receive 50 points.

Last year considerable interest was added to hockey, when the United States hockey team visited the campus and gave a hockey demonstration. A squad of hockey players was chosen from the Oregon girls and they participated with the U. S. hockey team at Corvallis, because of the weather preventing play on the local field.

praised, will return next term and once again give the campus all sorts of auditory entertainment ranging from funny stories and "econ" lectures to fiddling on a big viol.

President Hall Finishes Tour of Cities in State

Dr. Arnold Bennett Hall, president of the University, will return today from a tour of various cities in the state where he visited and addressed the mothers' and dads' clubs. The tour was made at the request of both organizations, and Dr. Hall was accompanied by officials of the University and heads of the clubs.

The party visited Baker, Pendleton, La Grande, Heppner, Prineville, Bend, Klamath Falls, Ashland, Medford, Grants Pass, and Roseburg.

Will you wear a 'mum to the game?—Adv.

Sending Your Laundry Home Is Bother

for you and your mother.

When there are studies to do, dances to go to, and good times to be had, you should not be bothered with mailing clothes home. Mother, too, will appreciate the extra time.

Famous Jazz Band Gets Start in Old Gym

ANN ARBOR, Mich.—(IP)—Waring's Pennsylvanians got their start at a university, and it wasn't Pennsylvania either.

It came to light here just recently that the famous jazz orchestra was so broke back in 1921 that the members decided to bust up, and would have done so, had not Fred Waring been invited to come up and play at the University of Michigan.

Here's how it happened: One of the boys went to Ann Arbor, where a friend told him that the University of Michigan committee was looking for a small band to play in an old gym for the overflow crowd at the annual Jay Hop. The committee already had two famous bands for the main dance. The orchestra member telegraphed to Fred, Fred

wired the committee and the band assembled.

"That was the greatest night ever," Fred tells the story himself. "We stole the crowd right away from under the Big Names. All our success started in that old gym. And we didn't even have hotel money. A fraternity put us up on condition that we play free for their house party the next night."

From there the band went to a Detroit theater and radio station and after one night they got an eight-week stage contract. They've been going ever since.

Professor Completes Study Of Girls as Class Leaders

NEW YORK—Here's bad news for fat girls—and for thin girls, too.

Dr. George C. Bellingrath of Teachers college, Columbia university, has completed a study in which he discovered that girls who

Charley Horses And Hurts Make Hayward Hustle

Spears To Watch Huskies Play Against Idaho At Seattle

Several varsity gridmen were nursing minor injuries last night. Steve Fletcher and Tiny Marion Hall had a team of charley horses between them; George Currie's back was sprained, and a few ankles were slightly wrenched, according to Colonel Bill Hayward, trainer.

"Taken as a whole, the team is in great physical condition," Bill said. "We're keeping our eye on the men who have anything at all wrong with them."

No scrimmage was held last night. The teams went through an hour of stiff signal drill, and polished up on fundamentals. Londahl and Kitzmiller acted as key men behind the lines.

Spears Goes North

Doctor Spears left the field early in order to catch a train for Seattle, where he will observe Washington in action against Idaho this afternoon. It is not considered probable that the Vandals will make Phelan's Huskies open up and show what they are holding for the Ducks next Saturday. However, if there are any weak spots in the Washington aggregation, the Doctor intends to find them and talk it over with his own team at a meeting which will be held in McArthur court Sunday night.

ere of either extreme cannot ever become leaders of their classes. The leadership doesn't apply to studies, however.

The professor found that it doesn't make any difference what a boy weighs, he can be a leader if other things point that way.

Girls, to be class leaders, must be of moderate height, and must come from prominent and well-to-do families.

Boys who are leaders can come from any sort of family, and can be any size or shape.

Largest Map in World Now Under Construction

WELLESLEY, Mass.—What is to be the largest map in the world, to cost more than two million dollars, is under construction here. It will measure 63 feet from east to west and 46 feet from north to south.

The map was begun about five years ago, and is expected to take 50 years more to complete. When finished it will be a perfect likeness of the country which makes

Oldest Trumpet

Arthur Witcomb, cornet soloist of the United States Marine band, is shown playing possibly the oldest instrument of its kind in existence. It is a slide trumpet, first introduced by the Spartan bard Tyrtacus about 700 B. C. Mr. Witcomb will be featured on his own instrument, the cornet, when the Marine band plays at McArthur court next Tuesday.

up the United States and Canada.

A gallery, 15 feet high, will encircle the map, and viewed from this angle reproduced on the work will appear just about as it would if actually seen from an airplane at a height of 12 miles.

Twins' Minds Run In Identical Channels

JONESBORO, Ark.—(IP)—Two co-eds at the Arkansas State college here, who happen to be twins, recently presented the United States Civil Service department a perplexing problem, which was ironed out only when the co-eds' professors came to their support.

The twins, Letha and Leton Adams, took a civil service examination.

When their papers were graded there came back from Uncle Sam a letter, stating that there was "obvious evidence of copying in the examination papers," and that the twins were barred forever from again taking a civil service examination.

The girls reported the matter to college authorities, who immediately filed a protest with the civil service authorities. Their professors reported that there was not a possible chance that the girls had cheated.

The instructors said that the girls' minds just naturally run in the same channels; that as one thinks, the other thinks. In college examinations, they said, the girls turn in almost identical papers.

Therefore, it was contended, Uncle Sam shouldn't bar the twins just because they think alike.
