

The Emerald SCORE BOARD By Jack Burke

WE BORROW FROM THE O. S. C. BAROMETER We feel that in doing what we are about to do we have sunk pretty low, but then when you write a column such as this every day, you run out of ideas and start using quotations. But really this one is hot.

This is the Oregon State Barometer's or rather Joe Warren, the sports editor of that paper's idea of the Washington-Oregon game.

In the first place, Oregon State had better hold their peace until they play Oregon and, in the second place, although we aren't detracting one whit of credit from Kitzmiller, it is obviously foolish to say that he won the game for us.

The quotation: "Oregon and Washington, in the most ballyhooed game of the season, put on a slow show at Portland, Saturday. The Webfoots, consisting of Kitzmiller, took their first conference victory from the Huskies and for the time being (the emphasis is ours) the Ducks are as far up the win column as Washington State."

PEST WELCH IS A CHARACTER With the annual Frosh-Washington Babe game not far off it might be appropriate to elucidate a bit on the new Babe coach, Pest Welch, late all-American fullback from Purdue.

A Texan of 6 feet 3 inches in height and packing 205 pounds, Welch was considered last year an almost unanimous choice for the honor he gained and when Jimmy Phelan wanted a freshman coach at Washington, the Pest was his first thought.

A new system of handling the freshmen has been inaugurated under Welch with the men being limited to two games. Perhaps that is a policy being followed here, but we hardly think so as there were more games last year than two and perhaps there will be more.

COULD WE PLAY ICE HOCKEY HERE? With winter not far off we begin to wonder about something, California and U. S. C. started ice hockey teams last year and it is the boast of California that it never gets below freezing in that fair state. So if they can do this down there, why can't we, with it being as cold as it will be here not long from now?

We realize that there are many items of importance to be considered before such a program is even contemplated, but they might be surmounted and it doesn't seem too far off to talk about.

Considering the fact that in Eastern schools the intramural and intercollegiate sports schedules include sports that we never even heard about it is not out of the way to suggest an addition now and then.

FIVE MEN CARRY NAME OF "JOHN" A fact about the Washington game that had thus far escaped us has been noted—that at one time in the game all the backfield men on the Oregon team bore the given name "John."

This was made possible by the inclusion of John Kitzmiller, John Londahl, John Donohue, and John Erdley, with John Rushlow in reserve.

All these men aided the cause and brought glory to themselves in this game and if we ever raise a family the first one is going to be named John.

Freshmen Selected To Study Homer and Freud CHICAGO. — Twenty selected University of Chicago freshmen, half co-eds and half men, will begin a two-year study this year of 200 classics of literature, ranging from Homer to Freud. They will be taught by President Robert M. Hutchins and Dr. Mortimer Adler, associate professor of philosophy.

The first ten authors selected, for study during the first quarter this year, are Homer, the Bible, Aeschylus, Sophocles, Euripides, Herodotus, Thucydides, Aristophanes, Plato, and Aristotle. Considerable latitude will be allowed the students in the books by these authors which they wish to select.

Three hundred and seventy-eight students at the New Jersey College for Women who worked during the past summer, earned a total of \$44,550. The average length of employment was eight and a half weeks.

Oregon State Rook Eleven to Present Strong Lineup for Friday's Game

Dick Newman Has Ex-Prep Stars Playing

Pre-season Encounters Are Won From Chemawa, Ashland Normal

Only One Defeat in Five Years Suffered by Oregon Frosh

According to the meager reports received from Corvallis concerning the Oregon State Rook eleven, Coach Dick Newman has a team comparable in strength and cosmopolitan makeup to the Oregon yearlings. Ex-prep school stars from all parts of the country have been gathered, including several sent from the East by Howard Maple.

Pre-Season Games Favor Rooks The Rooks appear to have an advantage over the yearlings in the number of pre-season games. Early in the season they met the Chemawa Indians, defeating them 44-0. Last week they trounced the Ashland Normal school, 14-0.

The only competition the yearlings have met so far this year is Albany college. While a large score was piled up, the playing was ragged. The last three weeks of practice, however, have found a great improvement. Coach Callison has been working his men three hours every afternoon in an effort to get them in tip-top shape for the fray next Friday night at Bell field.

One Game Lost in Five Years Records show that the Frosh have only lost one game in the last five years. In the 19 games played since 1910, the Frosh have won ten, tied three, and lost six. Last year the two-game series came out even. Callison's squad lost the first encounter at Medford by the close score of 7 to 6. He had his revenge in the second fray, however, when his men trounced the Rooks 31 to 19.

Included in the States' roster are a number of outstanding players from Portland. Don Anderson, Vic Curtin, Fred Volz, Tony Biancone, and Alex Berlow were city all-stars. Other men who have been included in pre-season line-ups are: Sense and Porfilly, tackles; Danforth, center; Kenna, guard; and Harnes, Crawford, Cowisckas, Adams, and Joslin, backs.

Next Friday's game will be played at Bell field at Corvallis and will begin at 8 p. m.

Horseshoe Match Play Starts Soon

Tennis, Golf and Handball Tilts Dragging

The first horseshoe tournament on the local campus is scheduled to start next week, according to Earl Bouchey, director. The delayed equipment that has held up the tourney for the better part of two weeks has arrived and when the pits west of Dean Bovard's office are completed, 32 tossers will compete for the title.

The free lance tourneys in tennis, golf, and handball are dragging, and Mr. Bouchey again requests that the first round doubles matches in tennis and handball be played immediately. No handball singles have been played, while the progress in the tennis singles and doubles and the handball doubles have remained the same for the past week.

Some slight activity, however, has been recorded in golf. Bill Ott won his first round match over Cliff Potter, 4 up and 3 to go, while Henry Jayne reached the third round by winning a close duel from Billy Keenan, 1 up.

NINE BULLETINS OUT FOR BUSINESS MEN

(Continued from Page One) From North Central United States to Trans-Pacific Markets. Both Mr. Hawkins and Mr. Fowler declare that a fast mail and passenger service between Portland and the Orient will give the port of Portland an opportunity to gain the front rank as a shipment point for commodities moving to and from trans-Pacific markets, as well as aiding Portland and Oregon in many other ways. This view is being taken by more and more shipping men. Dean Faville declares, and for this reason every aid is being accorded the university experts in gathering facts for the series of studies.

of products originating in the Columbia country, softwood logs and lumber, wood products, wheat and flour, cereals, hides, paper, scrap iron and canned foodstuffs, will be added a vast variety of American manufactures originating in Eastern United States that will be routed direct to market through Oregon's busy port," one of the booklets predicts. "The movement will come of itself, once services and rates are brought into competitive position with those available through other port cities on the Atlantic, Gulf and Pacific seaboards. It will come sooner and in greater volume if Portland shipping interests energetically acquaint Eastern shippers and their overseas customers with the Port of Portland."

Any of the bulletins in the series may be obtained from the school of business administration at Eugene, or from the University extension here in the Oregon building.

Faculty Members Hold 195 Degrees

Sixty-three Have Highest Honor Granted

Advanced college and university degrees, which includes degrees of master of arts or master of sciences or higher, are held by 195 of the 218 faculty members of the University who are ranked as instructors, assistant or associate professors, professors, deans and administrative officers, a survey of the faculty here shows. Those degrees are in addition to the regular bachelor of arts or sciences conferred upon graduation.

The coveted degree of doctor of philosophy, the highest academic degree conferred for scholarship, is held by 63 of the faculty members, or more than one-fourth of the total. Many faculty members, especially those in the medical school, have advanced medical degrees, while a number have won advanced degrees in law, such as doctor of jurisprudence. Honorary degrees, awarded as a recognition of outstanding contributions, have been conferred upon a number of prominent faculty members also.

In addition to the 218 regular faculty members of the rank of instructor and above, the University has on its teaching staff nine teaching fellows, 54 graduate assistants, seven research assistants and five research fellows assisting with the Oregon crime survey.

National distinction has been achieved by many members of the faculty, who have won recognition through their work in research, publication of text books and other volumes, or contributions in other ways.

Phi Gamma Delta And Kappa Sigma Win Swim Meet

Excellent Swimmers Vie In Thrilling Polo Matches

In the first round matches of the intramural swimming and water polo tournament yesterday, Phi Gamma Delta swamped Friendly Hall 34 to 9 in swimming and 8 to 0 in the polo game, while Kappa Sigma romped over Phi Kappa Psi 20 to 7 in swimming and edged out a 2-to-1 victory in the polo match.

The results of the Fiji-Friendly Hall swimming matches were as follows:

- 1. 80-yard free style—Miller, Fiji, first; Fay, Fiji, second; Kelliner, Friendly, third. Time: 48.
2. 40-yard back stroke—Spain, Fiji, first; Stevenson, Fiji, second; Howell, Friendly, third. Time: 26 2-5.
3. 40-yard breast stroke—Hughes, Fiji, first; Stevenson, Fiji, second; Roberts, Friendly, third. Time: 31 1-5.
4. 120-yard medley relay—Fiji, first; Friendly, second. Time: 1:26 1-5.
5. Under water swim—Diven, Fiji, and Babson, Fiji, tie for first; Weitz, Friendly, second. Distance: 142.5 feet.

Miller was high point man in the polo game with four points. Spain and Fay garnered two apiece. The Fijis held the upper hand throughout.

The results of the Kappa Sigma Phi Kappa Psi swimming matches were as follows:

- 1. 80-yard free style—Carlson, Kappa Sig, first; Rhine, Kappa Sig, second. Time: 55 2-5.
2. 40-yard back stroke—Eberhard, Kappa Sig, first; Raley, Phi Psi, second; Allen, Phi Psi, third. Time: 30 4-5.
3. 40-yard breast—Kotchick, Kappa Sig, first; Raley, Phi Psi, second. Time: 35 2-5.
4. 120-yard medley relay—Kappa Sigma won on forfeit.
5. Under water swim—Kappa Sigma won on forfeit.

The polo match was a thriller. Kappa Sigma pulled through with a 2-to-1 victory. All scoring was made in the first half. It was either team's game until the whistle. Kotchick and Eberhard each scored for Kappa Sigma while Felter tallied for Phi Kappa Psi.

In today's first round matches the Wild Cats meet Theta Chi in both swimming and polo at 4:45 p. m.

LUMBER INDUSTRY OF OREGON TO INCREASE

(Continued from Page One) nificant ever issued by the business

research bureau here, is crammed with facts and figures on pulp and paper industry, fruit and vegetable canning, furniture and other manufacturing, and other industries. The state is as much dependent upon the lumber industry as ever, for in 1927 nearly 60 per cent of the workers in the state were employed directly, while a large proportion of the remainder were indirectly dependent upon lumber for their employment, the survey shows.

The present depression in lumber is not because the consuming world is turning away from Oregon lumber, but because lumber prices have not been maintained at a profitable level, says Professor Burrell. The purchasing power that was liberated by the lumber industry was \$30,000,000 less in 1927 than it was in 1923, although the production was fully as large, figures show. That this decreased purchasing power was a distinct loss to Oregon business is unquestionable, and the necessity for co-operation among lumber producers of the Pacific Northwest in order to adjust lumber production to market needs is indicated in the report.

Paper and Pulp Increases

The development of the pulp and paper industry in Oregon and the Pacific Northwest has been rapid since 1923, and is likely to continue. The physical volume of paper and pulp production in Oregon doubled from 1923 to 1927, though through use of machinery and efficiency in production this was accomplished with almost no expansion of wage earners employed. The fruit and vegetable canning industry has made enormous strides in Oregon, until this is now the second industry in the state on the basis of number of wage earners and fifth on the basis of value added in manufacture. Most of the production is sold outside of the state, which brings a more favorable balance in trade.

In general the rate of increase in the physical volume of production in eight of the state's largest industries for which reliable data were available seems to be as rapid as the development in the same industry in either California or Washington. These industries include lumber and timber products, furniture, paper and pulp, woolen manufacturing, fish canning, fruit and vegetable canning, flour milling and dairy products.

A glider club, membership of which will be limited to about 24 undergraduates, has been formed on the campus of Carleton college at Northfield, Minn.

Fish Named for Professor HAVANA. — A strange fish which was sucked up through his newly invented electric power tube from the bottom of the ocean, has been named after Professor George Claude.

Sigma Delta Chi To Present Cup

Award Given at Oregon Press Conference

Announcement of the contest for the cup awarded by Sigma Delta Chi, national professional journalistic fraternity for men, to the best weekly newspaper in Oregon was made yesterday following a meeting in the Journalism building.

The contest for the cup, instituted last year, is an annual event. The award is made at the Oregon Press conference held on the campus every year during winter term.

Three consecutive issues are examined and the award made from the news on the basis of printing, news content, advertising, value to the community, and practically every phase of journalism.

No paper can win the cup twice in succession. At the expiration of the year during which the successful paper retains the cup, a certificate attesting its having won the cup is given it and the cup awarded to the next winner.

The paper winning the cup last year was the Hillsboro Argus, edited by Mr. and Mrs. Verne McKinney.

Nine Students Confined To Infirmary on Tuesday

Nine students were confined to the infirmary over Tuesday. These students were: Paule Beall, Margaret Ormandy, Rose Smith, Thelma Kem, Wallace Hug, R. W. Schofield, Harold Johnson, Carl Stutsman, and Virgil La Clair.

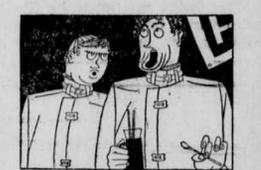

Harold Johnson is suffering from an attack of influenza, but the case is not considered serious by infirmary officials.

University of Mexico Dates Back to 1551

WASHINGTON.—(AP)—Scarcely had the Spaniards conquered Mexico when they began to erect a university, according to an article written in The Pan-American Magazine by C. E. Castaneda.

Permission was received from Charles V in 1551 for the establishment of the Royal and Pon-

Fish Brand Varsity Slickers are roomy, smartly cut, long-wearing. Full-lined for warmth as well as rain protection. Lighter models—the "Topper" and the feather-weight "Kitcoat." Variety of colors. Sold everywhere. Look for the fish on the label. It's your assurance that every cent you pay will be well spent. A. J. Tower Company, 24 Simmons Street, Boston, Massachusetts.

tifical university in Mexico. The university was officially opened two years later with a regular faculty and a small group of students.

For some time there has been a question, the author says, as to whether Peru or Mexico had the first university, but the evidence points in favor of Mexico.

The Mexican institution has remained in operation constantly from the time of its founding to the present day, and many of the leaders of the Mexican government and private life have been its graduates.

Business Administration School Has Big Increase

A 32 per cent increase of enrollment in the school of business administration has been made since 1927, according to figures given out yesterday by Dean Faville. At the present time there are 581 ma-

COLONIAL "HUNTING TIGERS in INDIA"

First run attraction of the authentic Commander Dymott Expedition.

Football with Knute Rockne

jors in the school besides 14 graduate students.

The enrollment of graduate students far exceeds any previous years, said Dean Faville.

There are 455 freshmen taking accounting this year, and the number of girls enrolled is double that of last, Dean Faville stated. The business depression experienced by the country this past year seems largely responsible for the sudden influx of women students, he said. More and more parents are urging their daughters to take practical subjects in business training.

The 165th anniversary of the founding of the school of medicine of the University of Pennsylvania—the oldest on the continent—is being celebrated this year.
