

Educators To Gather Here At Conference

April 13, 14 Selected as Dates For Meeting; Sheldon in Charge

Authorities on Collegiate Public School Work Will Lecture

With three nationally known authorities on the program and available for conferences, and representatives from every institution of higher education in the Northwest certain to be here, the first annual higher education conference here, April 13 and 14, is expected to be one of the most successful and interesting sessions in this field ever held in the West, it is stated by Dr. H. D. Sheldon, dean of the school of education, chairman of arrangements.

The conference will bring William J. Cooper, United States commissioner of education at Washington, D. C.; Dr. Ben Wood, director of the bureau of collegiate educational research at Columbia, and Dr. George Frederick Zook, president of the University of Akron, as well as leading educators from the West.

Cooper Is Authority

Dr. Cooper, who before becoming commissioner of education two years ago was superintendent of public instruction for California, is regarded as an outstanding authority on both collegiate and public school work. He has served as district superintendent of schools, as city superintendent in San Diego, and has also had several years of teaching experience. He has lectured extensively and has taught at several colleges and universities. He will speak on "Recent Movements in College Education" at the conference here, and is expected to contribute valuable information, since he is in close touch with developments in this field.

Junior Colleges Up

Dr. Zook will bring to the conference valuable knowledge of the junior college movement, on which he is an authority, in addition to his analytical understanding of many other phases of higher education. Before becoming president of the University of Akron in 1925 he was chief of the division of higher education in the United States bureau of education, and while connected with this office conducted surveys of state universities of Arkansas, Oklahoma, Oregon, Kansas, North Carolina, Arizona, and also made a study of educational conditions in Massachusetts.

3 for \$1

ALSO WE HAVE Colored Glasses and shades to protect your eyes.

UNIVERSITY PHARMACY

11th and Alder

His understanding of the field based on practical experience as well as research studies, Dr. Ben Wood is expected to bring several valuable contributions to the session. He is especially known for his work in measurement methods and testing, and is the author of several books and articles on these subjects. He has held his present place at Columbia since 1925, and in addition has been associate director of the Carnegie Foundation's study of the relations of secondary and higher education in Pennsylvania and since 1930 director of the cooperative test service under the auspices of the American council on education.

Ruth Chatterton, outstanding woman star in talking pictures, scores again in the McDonald's current feature, "Unfaithful," closing its run today. The story is a remarkably absorbing drama of the disillusioned wife of a public hero. It was written by John Van Druten, and "Young Woodley" won him fame and a first prize on the New York stage. Supporting Miss Chatterton is suave Paul Lukas, Paul Cavanagh, and Juliette Compton. It is the best picture for today.

Office Story at Hellig "Behind Office Doors," is the title of an amusing comedy playing at the Hellig today. In its cast are Robert Ames and Mary Astor. Both do the best work in their career. They are best remembered as support to Ann Harding in "Holiday." The story tells the love of a private secretary for an egoistic traveling salesman. Her interest in him causes increased success in the company for which they work until he is finally named president. As usual, however, he doesn't realize her wifely qualities until several affairs of the heart with other women have passed into limbo.

French Farce at Colonial An hilarious, frothy bit of comedy is "Those Three French Girls," which opens today at the Colonial. A fine cast includes Fifi Dorsay, Yola D'Avril, and Sandra Ravel, as the three girls, with Cliff Edwards, Reginald Denny, and George Grossmith as the love bait. The story is not imposing, serving as a means of drawing out some delightfully spontaneous comedy between the girls and "Americans in Paris." The dialogue was written by that dean of quip makers, P. G. Wodehouse.

Double Bill at State The regular Tuesday double bill at the State theatre includes Ann Harding in "Her Private Affair," and Robert Montgomery in "Sins of the Children."

Briefs Some of the best pictures of the current season are to be shown in Eugene theatres within the week. Most important is the Faculty Clubs' cinema masterpiece, "Passion of Joan of Arc," filmed in France. Charlie Chaplin's "City Lights," front page news on its release, will occupy the Colonial screen Sunday for the entire week.

Office Story at Hellig "Behind Office Doors," is the title of an amusing comedy playing at the Hellig today. In its cast are Robert Ames and Mary Astor. Both do the best work in their career. They are best remembered as support to Ann Harding in "Holiday." The story tells the love of a private secretary for an egoistic traveling salesman. Her interest in him causes increased success in the company for which they work until he is finally named president. As usual, however, he doesn't realize her wifely qualities until several affairs of the heart with other women have passed into limbo.

Spontaneity, Professional Technique Shown in Concert

A capacity crowd filled the music auditorium Sunday afternoon to hear the first division of the University Polyphonic choir give a performance as finished and artistic as any it has presented in the two years of its existence. Rossini's "Stabat Mater" is far from being musical child's play, but Arthur Boardman's flawless directing, an unusually fine group of student soloists, and uniformly excellent performance on the part of the 40-voice mixed choir fused in a harmonious whole to give the concert professional technique and non-professional freshness and spontaneity.

Rossini's forte was opera, and when he turned to the composition of sacred music he carried over into his arias an operatic spirit and freshness, which is as unusual as it is effective. "Stabat Mater" has a definite rhythm patterns woven through the impressiveness of the work as a whole, which require very careful handling if they are not to seem frivolously out of place in a text which treats of the lamentations of Mary under the cross of Jesus. Boardman and his singers were equally well aware of this danger, and kept the dignity of the work intact.

Agnes Petzold, Margaret Simms, William McNabb, and Ralph Engberg sang individually as soloists and collectively as a quartet which had a large share in the score. As a quartet they were capable and as soloists were much more than satisfactory. The highlight of the program was the duet sung by Miss Petzold, first soprano, and Miss Simms, second soprano. This duet, "Quis est Homo," is considered to be one of the finest selections from all Rossini's works, and was sung at his funeral by two of his operatic pupils.

George Barron, basso, showed depth and evenness of voice in a difficult recitative for bass and chorus. Throughout the score the bass and baritone section was called on for more than its share of the choral parts, and distinctiveness and perfect unanimity. The sustained and intricate finale offered the best display of precise choral work. All sections followed Boardman's dynamic conducting closely, and the closing chorale was marked by precision of attack and close adherence to the staccato tempo.

Harold Ayres, pianist, and Winifred Tyson, organist, were accompanists. They added much to the beauty of the program with almost flawless execution of the organ and piano duets which come as introductions and interludes for every voice passage.

WHAT SHOW TONIGHT?

Colonial—"Those Three French Girls," Fifi Dorsay, Cliff Edwards.

Hellig—"Behind Office Doors," Robert Ames. Last day. McDonald—"Unfaithful," Ruth Chatterton and Paul Lukas. Last day.

At the McDonald in a few days, is to appear "Rango," an immensely successful story of jungle life.

Prize of \$50 Offered to Advertising Students

Members of the class in advertising problems are now offered an opportunity to win the \$50 prize given by the Botsford-Constantine agency in Portland for the best solution of an advertising problem, it was announced yesterday by W. F. G. Thacher, professor in advertising.

Women's Dean To Talk Before Girl's League

Hazel P. Schwering, dean of women, is to talk to the girls' league of the Eugene high school today during the one o'clock hour. Mrs. Schwering will discuss the freshman year of the girl in the University and problems which are connected with it.

Summer Cruisers To See Two Scenic Spots

(Continued from Page One) ests to the visitor. Numerous curio shops in Honolulu and Hilo present jewelry and enameled ware bearing the Hawaiian coat of arms. Grass hula-skirts, poi-pounders, shells, implements and weapons, lava specimens, as well as ukuleles and Hawaiian guitars are popular souvenirs.

Students will find in Hawaii two English and four Japanese daily newspapers as well as a number of Hawaiian, Portuguese, Chinese, Japanese, Korean, and Filipino weeklies and semi-weeklies.

Native dress, language, traditions, foods, and celebrations will all prove unique and interesting to the Oregon cruise students.

In addition to the many recreational and scenic advantages offered by the Hawaiian islands, the University of Hawaii is cooperating with the University of Oregon in providing a complete and excellent study program for the visiting students.

REPORT OF REBELLION TOLD BY MISS LAKE

(Continued from Page One) the time since she graduated. She handles general assignments and is also in charge of the church page of the paper.

That journalism is attracting a great many women is shown in figures obtained from the University statistician's office for winter term. At that time 106 men were registered in the school of journalism, and 89 women were enrolled. Of the total of 195 students in the school, nearly half were women.

The University school of journalism is considered one of the best in the country. It offers a four year course with a B. A. degree for majors. News writing, reporting, specialized press, short story, typography, publishing and printing, editing, advertising, shop management are among the subjects given by the school.

Merlin Blais Fills New Radio Post On Emerald Hour

Position of News Editor Is Latest Addition to Air Staff

Radio news editor, a newly created position on the Emerald editorial broadcasting staff, will be filled by Merlin Blais, junior in journalism, it is announced by Ralph David, who is radio director.

The new appointee will act as David's general assistant in putting on the daily editorial broadcast which goes on the air at 4:45. In addition he will take care of the news side of the program and any publicity necessary, while David will continue to arrange the presentation of editorial material, and the procuring of speakers.

The policy of signing up speakers from the faculty, developed last term, will be continued for the remainder of the year, and a number of authoritative lectures on a variety of subjects are being lined up.

Golf Will Be Offered To All Faculty Women

Golf has been added to the list of activities offered by the physical education department to the feminine members of the faculty, to faculty wives, and to administrative members, with the first meeting held on Wednesday at 5 o'clock, according to an announcement by Miss Gertrude Grogan, department secretary.

There will be no fee charged for the course, but women turning out will be required to furnish their own golf balls and clubs. The first meeting will be held at the women's gym, where Miss Ernestine Troemel will take charge of the instruction.

WHEEL TRAIN DIAGRAM

Wheel train diagram, showing how the four operating planes of the ordinary watch are reduced to three in the Ultra-VerThin and two in the Ultra-VerThin. Thus, thinness is secured without loss in accuracy or durability of parts.

A new standard in watch making!

In the famous Ultra-VerThin movement Gruen craftsmen originated a new principle in watch construction. By a scientific rearrangement of wheels the old bulky type of watch is now made most thin.
