

Varsity, Frosh Track Artists To Hold Meet

Thirteen Events Included For Afternoon; Meet at 2

Eleven Lettermen To Enter Competition on Paths With New Men

Cocher Bill Hayward will have his first chance to observe how his varsity and frosh trackmen are coming around this afternoon at 2 o'clock when both yearling and regular cinder men will hold regular track and field tryouts.

Thirteen events are included in the list. Seven track events, including everything but the two-mile run, and six field events, com-

prise the program. Although Hayward expects no exceptional marks at this time of the season, the meet will afford him a chance to see what sort of teams Oregon will have this year. The meet will be held rain or shine, he announced. Eleven lettermen will participate today. Around these men the nucleus of this spring's varsity squad will be built. Varsity lettermen are Paul Bale and Virgil Scheiber, sprints; Ralph Hill, Len Steele, milers, plus Russ Eddy and Bob Hall, cross-country lettermen; Bob Robinson, pole-vaulter; Hubert Allen, jumper; Hal Everts, high jumper; Ed Moeller, discus; and Al Edwards, javelin.

Ralph Hill Enters Mile

Six varsity and five yearling men are entered in the 100-yard dash: Bale, Mars, Scheiber, Price, Allen, Starr, Blew, Ballard, Schweiker, Pennington, and Siegrist.

In the mile ten men are entered. Included are Hill, Tinnerstedt, Steele, Eddy, Hall, Beckett, Hunter, Edwards, Anderson, Gray, and Nunn.

Paul Bale and Virg Scheiber head the 220 men, with Mars, Starr, Siegrist, and Howlett entered. In the quarter-mile there will be Dolloff, Newman, Arnt, Rollwage, Holman and Ballard.

Three men are entered, in the half mile: Hill, Long, and Morgan. Entries in the 120 high hurdles are Allen, Siegmund, McCoy, Hesse, and Blew. Holman, Allen and Mars are in the 220 low hurdles.

Weight Men Busy

In the first of the field events, the pole-vault, are Robinson, Stoddard, Voegtly, Daniels, and Heuser.

Stadelman, Hall, Jesse, Moeller, and Hakanson are the shot-putters. Only three men are entered in the high jump: Palmer, Everts, and Daniels.

Al Edwards, varsity letterman, heads the javelin throwers. Others are Palmer and Larson. Ed Moeller, who at one time held the world's record in the discus, will work with Zane, Kendall, and Hakanson.

Broad jump entries include Allen, Pennington, and Burr.

Additional entries may be made at the field this afternoon, Hayward announced.

PLEDGING ANNOUNCEMENT

Alpha Omicron Pi announces the pledging of Marian Vinson, of San Diego, and Mary Owensby, of Burlingame, California.

Spears Shows Correct Form For Tackling

Stuffed Canvas Dummy Gets Terrific Drubbing In Workout

Men Practice Goal Kicking And Proper Blocking Fundamentals

By MACK HALL

"Keep your head up, and your tail down; lunge ahead, taking off with the foot that is forward—spread your feet and raise your arms, to maintain balance." This is the formula for the proper manner in which a Spears' football man takes down a ball-carrying opponent. The coach-doctor spent the greater part of yesterday's practice session on tackling fundamentals.

To start things off, the chief coach gave a forceful demonstration of the correct tackling methods, using Schulz and Bacharach as the victims. Then the entire squad took turns at diving savagely into the canvas-stuffed tackling-dummy. The coach pointed out the faults of each attempt, laying emphasis on the necessity of taking off with the forward foot, getting a shoulder lunge with a "follow through."

Leverage Is Necessary

Spears then paired his men off and ordered them to practice tackling each other. He demonstrated the necessity of leverage, showing how, by locking the hands just above the opponent's knees and lunging forward with a shoulder in the pit of his stomach, he is driven irresistibly to the ground. The men worked at this for nearly an hour, showing spectators the source of Doc Spears' hard tackling teams.

Goal Kicking Practiced

Other work done by the squad yesterday afternoon was on blocking, and practicing the try-for-point kick after a touchdown. Two goal posts have been erected for this purpose on the field which is just east of McArthur court.

A cold, drizzling rain added a zest to the action of the players and sent the faithful managers to hunt warmth and comfort in the bulky warm-up sweaters.

PHILOGRAMS

SPOT DOPE ON SPORT NEWS

By Phil Cogswell

Last Relays—

It has been announced that the high school relay carnival, sponsored yearly by the University, will be discontinued after the one this year which will be held a week from today. The high schools of the state will have in the future only one big track meet, and it will be held each year alternatingly between Corvallis and here.

The graduate managers of Oregon and O. S. C. agreed to this plan of running the prep meets before the Federal Survey report came out, and they should be given credit for falling in line with it ahead of time. At least they have done so half way. Complete harmony with the survey recommendations could only be reached, of course, by cutting the meets out altogether.

Future Prospects—

However, it seems unfortunate that because of the cost or for other reasons, high school track must be discouraged even to the extent of the abolishment of the relays.

Bill Hayward has issued a statement that his frosh trackmen this spring are the most inferior that he has ever seen here at Oregon. And coupled with this remark comes almost unanimous warnings from high school coaches for those interested in the relay meet not to expect any new records this year as their material this year is below average.

If these be true summaries, they don't bode much for the future of

Improving Meets—

There is a campaign going on at various places to make track more popular from the angle of the spectator. Races, especially relays, if they are run off quickly are thrilling enough to watch, but it is said that the average on-looker never knows when the field events start and stop.

The field, it is declared, is all cluttered up with athletes which are warming up. This causes nothing but confusion to the spectator. The suggestions for improvement are: have the warming up done outside the field and have the contestants appear only when they are to perform. In the field events this will lessen danger. Also stage the events so they will be more spectacular and hurry the meets up so that they will not run over two hours.

Swimming Captains—

Jack Hewitt calls attention to an error in reports which read that Steve Fletcher and Mac Miller were elected as captains of the swimming team for next year. They were elected as honorary captains for their work during the past season.

The swimming team will elect its captains next year at the end of the 1932 season for reason that the positions are honorary and can be awarded better at the end rather than at the beginning of seasons.

Clifford Beckett Is New Alpha Kappa Psi Head

Clifford Beckett, junior in business administration, will represent the local chapter of Alpha Kappa Psi at the national convention to be held at Asheville in July.

Alpha Kappa Psi, which is the national professional commerce group, met Thursday night for the election of officers. Beckett was elected president, which automatically makes him delegate to the convention. Other officers elected were: Ira Brown, vice-president; Kenneth Potts, treasurer; John King, secretary; and Richard Keasey, ritualist.

Sophomores and juniors in business administration pledged to the fraternity are: Delbert Kimberling, Leslie Houston, Carl Gerlinger, Bob Near, Edgar Smith and John Whitehouse.

Students Stage Mad Dash To Enter School

Yesterday witnessed a mad scramble in the graduate office as graduate students rushed in at the last moment to complete registration. Three o'clock was the deadline, and there were only a few who failed to call at the office.

Those graduate students who have not completed registration are requested to do so as soon as possible. A fine of \$3 for the first day late and 25 cents for each subsequent day will be imposed.

SCIENTISTS AND HODGE AGREE ABOUT SKULL

(Continued from Page One)

now in China studying the specimens. Professor Smith described the discoveries as unique in the whole history of anthropology.

"Still another scientist to agree with me is Dr. Davidson Black, working with the Rockefeller Foundation hospital at Peiping. Dr. Black believes the second 'Peiping skull' to be about 40,000 years old, which would make it older than the Neanderthal man," Dr. Hodge concluded.

Doctor Hodge is greatly interested in the Peiping skulls because of the relation they may have on the origin of the North American Indian. The Indian shows Chinese characteristics, and through these discoveries he believes we may settle definitely upon whether our Indians are descended from the Chinese or from some other race.

Honorary Plans For Carnival and Dance on April 25

Installation of New Officers Is Accomplished at Banquet

At the third charter day banquet of Phi Epsilon Kappa, men's national physical education honorary, on Thursday evening at the College Side Inn an installation of officers for the coming year was made and plans were formulated for a carnival and dance on April 25. Martin H. Trieb, district deputy of Phi Epsilon Kappa, spoke at the banquet.

According to partially outlined plans the carnival will consist of tumbling, bar stunts, tap dancing, wrestling, and boxing events and will be free to everyone. Immediately after the carnival a dance will be held, for which there will be a slight charge. The dance will be strictly informal and can be a date or no-date affair. All co-eds are invited to attend the carnival as well as the dance. The complete program will be held in the men's gym.

Orville Bailey, football letterman and Sigma Delta Psi qualifier, will guide the destinies of the honorary for the next year, replacing Jean Eberhart as president. Cliff Horner, Tom Johnson, and Fred Sears were chosen to fill the positions of vice-president, secretary-treasurer, and guide, respectively, the retiring officers being Roy Hughes, Frank Smith, and Bob Knox.

EDUCATION EXPERTS TO HAVE MEETING HERE

(Continued from Page One)

which may be accomplished through student criticism will be discussed by Dr. W. R. Wilson, of the University of Washington, who has made a wide study of this subject. Other speakers of the morning will include A. B. Stillman, University of Oregon; Kenneth Shumaker, University of Oregon; Dr. C. C. Upshall, Bellingham State Teachers college; and Dr. Nelson L. Bossing, University of Oregon.

Teaching Will Be Topic

Following discussion which will be led by J. S. Landers, president of Monmouth normal, and H. E. Inlow, La Grande normal, Dr. Ben Wood, of Columbia university, will describe some interesting new experiments in testing among college students.

What can be done to improve college teaching is the topic of the day for the concluding session Tuesday afternoon, at which C. A. Howard, state superintendent, will preside. Systems in use in a number of leading Pacific institutions will be described by Dr. C. W. Stone, Washington State college; Dean J. F. Messenger, University of Idaho; Dr. W. R. Wilson, University of Washington; Dean J. F. Jewell, Oregon State college; and Dr. Arnold Bennett Hall. Other speakers during the afternoon will include Ralph W. Leighton, Mrs. Lorene T. Olson, and Wayne Morse, all of the University of Oregon. Dr. Zook, Prof. L. O. Macafee, Albany college, and Dean F. M. Erickson, Willamette university, will lead the discussion, which is expected to bring out

many enlightening facts. An illustrated lecture by Dr. Ben Wood, Columbia university, on the subject of study charts used in Pennsylvania, will conclude the meeting.

Such interest is already being shown in the conference as to make it one of the most successful of this kind ever held, it is predicted by Dr. H. D. Sheldon, dean
