

New York Alums Forward Greetings

Former U. of O. Students Congratulate Dr. Hall

Word of the fifth anniversary of President Hall's service to Oregon filtered clear back to New York, and Allen Eaton, '02, one of the finest friends the University has anywhere, gathered together a group of Oregon alumni in that city, and they enthusiastically drew up a message of congratulation to forward. The message is signed by 52 alumni and former students of New York, all of whom are vitally interested in the University and in Dr. Hall's work here.

The statement follows, with the names of the alumni.

International House, New York City.

Learning that May 21, 1931, will mark the fifth anniversary of the administration of Dr. Arnold Bennett Hall as president of the University of Oregon, we former students of Oregon assembled at the International House, New York City, May 7, 1931, join in congratulations to the University and to President Hall for his splendid achievements of the past five years and hereby pledge him our united loyalty for the future.

Agent of Firm Interviews Applicants for Jobs On Sales Force

Opportunities to obtain a position for the summer which continues paying after the student returns to school, are being offered Oregon students by Emmet F. Hagerty as agency bureau representative from the International Telephone and Telegraph company of New York and the Postal Telegraph office in San Francisco.

Tours Coast
Mr. Hagerty is touring the schools of the coast interviewing applicants. The position is on the company's sales force and the student works on a commission basis in his home town under the direct supervision of the local office. But two years out of college himself, Mr. Hagerty declared that this is an excellent opportunity for any aggressive university student. Men interested may obtain appointments with Mr. Hagerty through the dean of men's office any time today. Seven applicants were interviewed yesterday.

SPANISH POSTERS HERE RECALL HISTORY TALES

(Continued from Page One)
the historical battle in which the Moors were first defeated by the Spanish. The Spaniards rolled stones down upon the heads of the Moors as they tried to get through a narrow pass in the mountains, as was done in the battle of the Greeks and Persians at Thermopelae.

Salamanca, the beautiful renaissance city with a notable university, Avila, romantic and historic, an entirely walled town; and Alcala de Henares, which claims Cervantes as her native son, brings to the poster of Madrid.

In a suburb of Madrid is the Palace of Moncloa, now a museum of paintings, but once the headquarters of Napoleon's general. Miss Thompson told the story of two brave soldiers at that time who attempted to fight the French guard in order to prevent the removal of the little Spanish princess to France. They were killed, but their action stirred the Spanish people who rose and finally drove out the French invaders.

The poster of Orpesa shows an old castle. Orpesa means "gold weight." Miss Thompson told how the city received this name. When the city was under the domination of the Moors, it was required that the inhabitants send six or eight Spanish girls to the Moorish ruler's harem. This so humiliated the citizens that they managed to get the tribute changed. Thereafter they paid the weight of each girl in gold instead of the girl herself.

A picture of Morocco is the last of the posters. Here one can see the intense blue sky, the white roads, and the narrow Moorish streets like those which the Moors have left in southern Spain.

"Many people either think Spain is all blue sky, orange blossoms, and sunshine, or that it is a dry hot desert," said Miss Thompson. How wrong such impressions are the posters show.

Anyone who wishes can go to room 105 to see these posters. If Miss Thompson is in and has the time, the visitor may hear about the little town of Guisando, which means "cooking" but where travelers can buy no food, or about the place where they have a primitive stone figure which may be a bull or a pig, according to ones own interpretation, and perhaps she will show you her collection of kodak pictures of Spain and also of Morocco, where the people, very unlike we Americans, hurriedly cover their faces whenever they see a camera.

WHAT SHOW TONIGHT?

Hazam Foresees Possible Trouble In Islamic World

"The eastern world's fear and superstition of western civilization has brought about, along with our lack of knowledge of this great mass of people, a situation of possible trouble," John G. Hazam, associate professor of history, said in a talk on "Islam in the Modern World," over station KORE yesterday afternoon during the regular Emerald editorial hour. The programs are sponsored by the Emerald and the Oregon Pharmacy.

"The problem of the Islamic countries is one of the most vital factors in European economic and peace policies," the speaker pointed out. "There is a population of 250 million people who are adherents to the Islamic religion, and these people are one of the greatest problems in determining European national policy.

"The terms Mohammedan and Mohammedanism should never be used, as they are of European origin; the true names are Islam, which is the name of the religion which Mohammed represented as a prophet, and Muslim, which applies to the adherents of this religion."

A Clever Feat

Would be to fit your feet with some of Buster Brown's nevest. Sports shoes, dress shoes, sandals, everything that is novel in footwear, arriving Saturday. Don't miss it! At Buster Brown's Shoe Store, on Willamette street, on Saturday. During these last weeks of rushing about you will need at least one pair of these smart spring shoes.

Stop a Minute!

The real pause that refreshes (apologies to Coca-Cola) is a delicious luncheon or dinner. Try the Green Lantern Tavern, across from the College Side on Thirteenth, where you will find marvelous food, including real spring dishes, coupled with a soothing atmosphere and good service. Your honorary luncheon, as well as a twosome, will be a success here.

For Clever Co-eds

If you are clever and graduating, you will want to look over graduation gifts yourself! Then you can make suggestions to Mother and Dad as to what you want them to give you. Wrist watches in standard makes and new styles make an ideal gift. Laraway's Jewelry Store, right on Willamette, invites you grads to come in, select your watch, then bring in "the folks" to approve your choice.

Lohengrin Reminds Us

That June brides are coming! For that best friend who is planning her marriage soon you will want the loveliest in wedding gifts. Come into the Oriental Art Shop, in the Eugene hotel building, and let Mrs. Wheeler help you select a gift from her exquisite pewter pieces and exquisite Chinese linens. This is the time, too, to decide on gifts for the graduates. Jewelry and pottery from the Oriental will be appropriate.

Seen on the campus in a smart brown-and-white outfit this week—Catherine McEntee. A white flannel suit with a stunning brown-and-white blouse, brown-and-white Spectator pumps and white doekins made up the ensemble.

Say It--

With flowers is an old proverb, but still good advice. When you are sending your best girl a dainty corsage for the dance tomorrow night, remember the University Florists, and she will surely remember you. You'll find the University Florists on Thirteenth street happy to serve you. And you can be certain, too, that She will be happy with her corsage.

IF IRMA LOGAN WILL CALL AT THE FOX McDONALD THEATRE BOX-OFFICE BEFORE SUNDAY NIGHT, SHE WILL RECEIVE TWO PASSES!
