TALKIE TOPICS

"Viking" Film Is Thrilling Arctic Scenes

Two principals of "The Viking," now appearing at the Colonial, are shown in one of its dramatic scenes.

Colonial—"The Viking," starring Charles Starrett and Louise Huntington. Starts today.

Hellig—"I Like Your Nerve," with Douglas Fairbanks Jr. and Loretta Young. Showing till Saturday.

McDonald—"The Brat," with Sally O'Neil.

State—"Bachelor Apartment" and "Arizona." Last time today.

New Films at Theatres

"The Viking," which opens its four-day run at the Colonial today, is an authentic tale of the far North. It is the first talkie ever to be filmed in the arctic. Although the cast is largely composed of real sealers, the leads are taken by Charles Starrett, Louise Huntington, Arthur Vinton, and Captain Bob Bartlett. Sir Wilfred Grenfell gives a talking prologue. "The Viking" depicts the struggles and hardships of the annual seal hunts which are fast becoming a thing of the past. The actual explosion of the camera ship "The Viking," which killed the youthful producer, Varick Frissell and 25 others, brings the picture to a thrilling climax.

If you suffer from bashfulness and the inferiority complex, do not fail to see Douglas Fairbanks Jr. in "I Like Your Nerve." This is the second starring film for Doug Jr., who does some most astonishing things to win a fair lady—otherwise Loretta Young. "I Like Your Nerve" is a rollicking, romantic drama with a South American setting. The cast also includes Claude Allister, Andre Cheron, Henry Kolken and others. See "I Like Your Nerve" today, at the Hellig.

"Monkey Business," starring the four Marx Brothers, has met with such success that the McDonald is holding it over another day. If you have not yet seen this hilarious film, we advise you to do so today. Tomorrow "The Brat," starring Sally O'Neil, is coming.

The double bill feature at the State theatre, composed of "Bachelor Apartment" and "Arizona," shows for the last time today. "The Flood," starring Monte Blue, is coming for Thursday only.

VISIBLE INK SUPPLY BIGGER INK CAPACITY

YES SIR, you can tell how many words are left in a Conklin Nozac by merely looking at the visible ink section. And because there is no rubber sac in the barrel, the Nozac provides a new, immensely greater ink capacity—35% more than other pens of the same size. You will run out of ideas long before "the pen that winds like a watch" runs out of ink. Here is the pen of modern times—the sub-machine gun of the orthographical bandit. All-opaque barrel if so desired. Step right into any really up-to-date supply store and look the Nozac over. You'll be wearing one when you leave. Priced in conformity with the times at \$6 and \$10, pencils to match \$3.50 and \$5.00. Other snappy Conklins in new shapes and ultra-modish colors \$2.75 to \$8. Pencils \$1.00 to \$4.50.

The Nozac filling device is a remarkable new invention never before employed in the fountain pen industry and obtainable only in the Conklin Nozac. To fill or empty the pen simply turn the knurled end of the barrel—like you wind a watch. Leak-proof, smooth, easy action.
