**On the Chin**

IT'S all over now. Oregon has had her face slapped and can do nothing but turn the other cheek. The Webfoots must get along without Joe Lillard, negro halfback, for the rest of the season and for all time. Faculty athletic representatives from the ten member schools in the Pacific Coast conference, meeting in special session in Portland Thursday night, "lowered the boom" on Lillard.

He played semi-professional baseball under an assumed name, did Lillard. But what about star athletes in every other school on the coast? They have played just as much semi-pro ball, too. The conference's "gentlemen's agreement" countenanced this, however, and will continue to do so in the future. Oregon was "on the spot" for a beating, and got one.

The whole Lillard case is one that the Oregon student body will be long in forgetting. No formal protests, just snoopy investigations. No action on other schools at the same time, but sudden discrimination against Oregon. One Jonathan A. Butler, commissioned to make a year's investigation for the conference, took matters into his own hands and gave out his findings a year ahead of time.

We never will see any justice in "Czar" Butler's action.

**Hypocrisy in World Affairs**

BY a vote of 13 to 1, the League of Nations council voted Thursday to allow the United States to participate in the discussion of measures to bring peace between Japan and China in Manchuria. The lone dissenting nation was Japan, objecting on the judicial grounds that America, a non-member of the league, had no right to participate in the peace parley.

The outcome of the difficulties of China and Japan in Manchuria is of interest to the entire world. War between these two nations could conceivably plunge the whole world into another disastrous conflict. As one of the leaders in world affairs, the United States should be able to do much to promote peace between the disagreeing nations, and a representative in the council will unquestionably wield much influence.

But there is some justice in the contention of Japan that America should not be represented. The United States has never been a member of the League of Nations or the permanent court for international justice, better known as the world court. Reservations laid down by the United States senate before entry is possible in either one have been such as to make them impossible of acceptance by member nations. The attitude of the United States has been that she wanted nothing of international entanglements, and that arbitration of her own affairs should be at her own discretion.

Events have shown that membership of the United States, as a world power, is essential to the success of the League of Nations and the world court. The new development is only further testimony of this fact. No matter how the United States may seek to maintain a hands-off policy in affairs of Europe and the Far East, she cannot hope to succeed. International cooperation is necessary for the maintenance of peace and prosperity. It is to the interest of the United States to take an active part in peace conferences of the importance of the one meeting in Geneva at the present time.

Perhaps no step could be more important towards the establishment of world peace than the entrance of this country into the League of Nations and the world court. Certainly no other thing can remove the stamp of hypocrisy from the Kellogg-Briand pact for the outlawry of war.

**WITH OTHER EDITORS**

**"UNDER AN ASSUMED NAME"**  
Joe Lillard, Oregon's colored halfback, is not to be allowed to play football or any other game in the Pacific Intercollegiate conference any more. HE HAS PLAYED UNDER AN ASSUMED NAME!

Presumably the crime consisted of Lillard's touring with a semi-professional colored baseball team last summer, driving their bus, filling in for some youth who did not feel up to the game. Lillard has never made any secret of these deeds. The University of Oregon has never tried to cover up the situation. It is the same sort of thing that scores of coast college

athletes have done summer after summer—though not with colored teams.

The action has been taken after a dramatic session at Portland. After the first five hours, the meeting voted to take no action in the situation, presumably because the expulsion of Mr. Lillard might open up a lot of dynamite for all concerned. The president of the association tendered his resignation which, however, his loyal colleagues could not find the heart to accept. The meeting adjourned, because in order to get real business done, it is often necessary for meetings to adjourn. When the meeting reconvened, there were enough votes to put one

player under the ban. It was Lillard.  
Thus the governing body of a great collegiate association. One day before most of the important games of the season. Without any statement as to who preferred the charges. Without any statement as to the specific nature of the charges. With full knowledge that no matter what he may have done, Lillard's conduct has probably been no more "professional," essentially, than that of most of the star players on every team in the conference.

The meeting lacked the "what-it-takes" to put any life in the anti-professional ruling which has been nullified by common consent under the notorious "gentleman's agreement." It has no program for essential reforms beyond a system of systematic snooping. It has merely demonstrated that when it wants to, the system can "get" a particular team or a particular player.

The methods of the University of Oregon athletic management are no better nor any worse than those of the competitor schools. The Oregon management frankly does "what must be done" to meet the competition. The faculty leaders dream just as fine dreams of athletic purity as are dreamed elsewhere, and they are just as helpless as other faculties against the pressure for winning teams which extends from freshman to board members.

We will be disappointed if Oregon "squels." We will be disappointed if the team under Dr. Spears does not go ahead with or without Lillard and give valiant account of itself.

Standing on the sidelines, we have the right to make a frank comment (especially since we are on record previously). Intercollegiate annals are pretty black but they have never offered a more flagrant example of hypocrisy and utter cowardice. Between a colored boy who has played baseball "under an assumed name" and those who pretend to uphold virtue under the "assumed name" of sportsmen, the colored boy is our choice.—Eugene Register-Guard.

**Enrollment Drop Of 232 for Year Is Final Report**

ENROLLMENT at the University of Oregon has fallen off 232 students from the total of fall term last year. The final registration figures, released yesterday by Dr. Earl M. Pallett, registrar, show a total of 2863 resident students, as compared with 3095 enrolled at the close of registration a year ago.

These are the first enrollment figures released since the fourth day of registration this term, 103 students having entered the University in the interval, Dr. Pallett reported.

place of Lieutenant Carlton F. Bond, who was scheduled to address the class but was unable to do so because of illness.

Capt. E. V. Pettis spoke to the class on "Relationship of the Government to Commercial Aviation," tracing the history of government interest in aviation from the time of the war to the present. He explained the government experiments at McCook field and the methods of licensing planes and pilots used by the United States government. Captain Pettis also explained some of the later technical developments in aviation, including the visual radio signals and particularly the diagonal signal for airport landing. He explained the requirements for transport pilots' licenses and those for commercial, industrial and private pilots.

**Eugene Red Cross Will Give First Aid Course**

Class Will Meet on Mondays and Tuesdays

What would you do if your roommate cut an artery and was bleeding to death? If you don't know a remedy for that, a good method of saving the life of your roommate or anyone else under a similar condition, by applying a little first aid treatment, will be taught to all students, men and women, in a new class which has just been organized by the Eugene Red Cross.

This class, under the instruction of J. B. Patterson, chairman of the first aid committee of the Red Cross, will be taught twice a week from 7:30 to 9 o'clock for the next five weeks at the telephone office building. The classes will meet on Mondays and Thursdays, beginning next Monday night, and will include 15 hours of work, three hours a week.

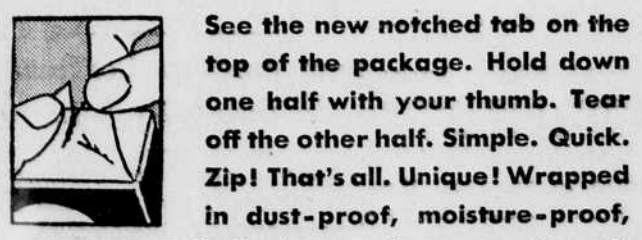

The course has no fees attached, and at the completion a first aid certificate will be awarded to those passing the requirements. Any students interested are asked to call the Eugene Red Cross office for any further information.
