A Welcome for the Ambassadors

THREE young men who have carried the good names of the University, the state, and the Pacific Northwest to many audiences on a 35.000-mile tour of the Pacific Basin will come home Friday. It should be a gala day on the campus, when the student body welcomes back three of its members who for seven months have been acting as good-will ambassadors to far-away

Completion of the Pacific Basin good-will tour, coupled with the round-the-world debate trip made some five years ago by three other undergraduates, Walter Hempstead, Avery Thompson, and Benoit McCroskey, puts Oregon unquestionably on top in forensics, and marks the University as a leader in furthering better international student relations.

From all sources nothing but praise of the fine appearance made by the three Oregon seniors has come back to the campus. Every city visited on the Pacific Basin tour has turned out with a royal welcome for the men, and San Francisco, Astoria, and Portland have lately added to the receptions. The campus' celebration on the return of Robert Miller, Roger Pfaff and David Wilson will surely be warm, demonstrative and sincere. The fact that other young men placed in their fortunate position might have done as well should not enter and cloud the question. The value of the tour to the University, the state and the entire West is beyond measurement. We owe an expression of appreciation to our returning good-will ambassadors.

"Hitch Your Wagon"

PROMINENT banker of the state once declared: "Most young men and women do not bite off big enough jobs for themselves. Their ambitions are not up to their capabili-

Young people do not set really high goals for themselves, this same man asserted. Long before passing the period of greatest activity and usefulness they have realized their ambition. Having satisfied themselves, they spend some of their best years making little progress, stagnated. Perhaps they "get somewhere," but they do not get as far in that "somewhere" as they are capable of doing.

With the training which a University education gives to the intelligent, thinking student there is even less reason for these inadequate goals. The mental habits and stimulation which accrue from a higher education make plain the goals which are possible of achievement, and these are potentially within the grasp of the great majority of University students.

With the glow of the New Year not yet past, we can reflect without being accused of sentimentalism on the old wise saving. "Hitch your wagon to a star." Few have gone backward when they took that adage seriously.

In All Fairness

HE Emerald policy will be a fearless one, ever seeking to be fair, just, and helpful."

We made the above statement in our first issue of fall term, and in line with it we brought to the attention of the campus later in the term the facts of the so-called Mathews incident.

Now, in all fairness, we have something else to say. When the last Emerald for fall term had come off the press, Ralph David, associate editor, said that he, too, was not a full-time student in the University and so not eligible to have held his position. He was, though, taking extension classes at night, and thought that since he was appointed last spring term when he was a regularly registered student could hold his position. He is back in school this term as a full-time student and will

continue in his past position. While the two cases seem analogous at first thought, the facts behind them are different. We hope that these two incidents will prevent similar situations from arising later in student body affairs.

Just what is this lure in the Lure of Music class anyway?

Students in 8 o'clocks yesterday morning seemed to catch up on plenty of lost sleep.

Oh, the joy of getting back to the campus after a vacation!

The dollar is back to a 100-cent purchasing power as compared with its 60-odd cent strength in October, 1929.

That's great, if you have the dollar.

New Year's resolutions? Ed and Co-ed say they didn't make any this year. It's the depression.

Today's crushing remark to a pledge: "Did you make your

The Truth!

"All of Us Overlook Good Things Part of the Time, and a Lot of Us Overlook Them All of the Time."

A successful Eugene merchant called this to our attention the other day when we were talking to him about advertising.

"Many of those who read current advertising in the papers are apt to jeer at phrases such as

Lowest Prices in 15 Years A New Low in ValueS

The funny part of it is the fact that such statements are

"Never in the history of our business have prices been so lo wand quality so high. My advice is -- - buy now and save money later!"

And that is what we say, too. Current advertising of the Oregon Daily Emerald gives you tips on real values and where to buy. The Emerald is read by 3000 moderns whose buying power is over two million dollars a year.
