Hail to California!

YOUNG Chinese student, Ming Hua Wei, has been attending the University of California. He entered the southern university as an honors student and was engaged in a research for his master's thesis. It was entitled "The History of Communism in China." Professors at the university are quoted as saying that his paper was a valuable contribution to historical

Last November, Wei's studies were interrupted when the United States government stepped in and arrested him for "criminal syndicalism." The young student was ordered to be deported.

When an alien is so classed as an undesirable, the deportation law does not require that he must return to his own country, but can go to any land. However, the government will only pay for a return to his native land. Young Wei is financially unable to undertake such an expense.

It is common knowledge that Wei faces possible execution should he be forced to return to China. Authorities in China are known to have termed his researches in the field of Chinese communism as dangerous.

Failing to see the crime in an honest educational research, California students are thronging whole-heartedly to the support of the endangered scholar. They refuse to permit their fellow student to face death for such an insenate charge. Efforts are being made among the students to create an emergency fund of \$250. The sum will permit Wei to travel to Germany, where he will be enabled to continue his studies free from danger.

We laud the spirit of the University of California student body for refusing to permit their fellow student to suffer for an act which was committed in an effort to increase the sum total of knowledge available to scholars.

We, too, feel that interference with the pursuit of knowledge and an education should not be countenanced. Education should be considered as a freely moving force. A force which is working for the betterment of mankind. Such a force should be given free rein

We are tempted to question, discreetly, the criminality involved in a quiet educational research. We do not consider Wei's al and injurious to the welfare of the people. On the contrary we hold that such efforts to increase existent knowledge are highly beneficial and worthy of a more prudent and thoughtful treatment.

We wish to extend a vigorous commendation to the students of the University of California for the stand they have taken in supporting the spirit of education. We await with interest the results of their campaign for funds.

We reiterate-All hail to California!

Water Bag!

TT is with doubtful enthusiasm that we greet the return of spring to our sprightly and robust campus.

We will cheerfully grant that the sun once more beams forth in all its pristine glory; that robins are again chirping gaily from trees but newly adorned in light green foliage; and that the mill-race is once more astonishingly popular. But, . . . WHOOPS! LOOK OUT! WA-A-A-TER BAG!

There, it's out! Now you know why we dislike spring!

A car goes putt-putting slowly down the main drag. A brilliant colored object describes a flashing arc through the air. Pedestrians on the sidewalk scatter madly like frightened chickens. There is a vicious squashy "plop" and a fountain of water cascades into the air. . . . Just another water bag valiantly attempting to deliver its message of good cheer.

Permit us to warn you against these many pints of water that go forth cunningly encased in vari-colored rubber balloons. They're gonna getcha if you don't look out!

Beware of the three most important danger zones: The law building, the Sigma Chi domicile, and the men's new dorm. At the danger of repeating ourselves . . . beware! They're gonna getcha if you don't look out!

A Genuine Loss!

THE sudden decision of Miss Jeannette Calkins to resign from the secretaryship of the alumni association comes as a hard blow to the University. As the result of eight years of service, Miss Calkins not only established an enviable name for herself among university alumni executives all over the country, but edited a highly successful alumni magazine as well. The readableness and popularity of "Old Oregon" were largely due to Miss Margaret Boyer, assistant to Miss Calkins, as managing editor and circulation manager. The announcement that Miss Boyer is resigning too makes the loss to the University doubly

Miss Calkins graduated from the University in 1918 and joined the alumni office in 1923. Miss Boyer became her assistant in 1926.

We deeply regret the circumstances that necessitate Miss Calkins and Miss Boyer leaving. We feel sure, however, that the whole campus joins us in wishing them continued success in the future.

Corridor

By V. H. Hall

Last night Ernest G. Moll, Louis Myers, and S. Stephenson Smith met to judge the essays which Roy Sheedy, Literary Editor Joe Saslavsky, Sports Editor Ralph Mason, Day Editor Bob Patterson, Night Editor chosen as the most convincing, and in McKennon's hands will be placed the volume of complete works of William Shakespeare. First honorable mention was awarded Ingram Kjosness and second honorable mention was given to Charles Jones.
