The Republican administration, under Herbert Hoover's leadership, has established the Reconstruction Finance corporation, which has brought protection to millions of depositors in a permanent manner.

With such a sound program of rebuilding the business and the prosperity of the nation, and with such strong leadership and devotion to the best interests of the American people, the present is no time to completely change governmental administration—and undo all that has been done, and start all over again our climb to happy prosperity!

Ten Dances in Social Spotlight Over Week-End

Palms, shaded lights, and soft music will prevail at the Kappa Sigma pledge dance tonight. Dave Lehman is completing arrangements for the dance. Patrons and patronesses will be Mrs. Willis W. Pittman, Mrs. J. D. S. Wade, Dr. and Mrs. Schwering, and Mr. and Mrs. Dave Graham.

A "general roughhouse" is promised guests of Theta Chi Saturday night, according to Chic Burroughs and Bob Ferguson. It will be termed a Barn dance, with camp clothes or old clothes in order. Patrons and patronesses will be Colonel and Mrs. Barker, Mr. and Mrs. Cutler, and Mr. and Mrs. McGrath.

Prohibition can't be repealed until November, but the saloon is back, with bottles and more bottles on display at the Phi Kappa Psi house tonight when they will entertain with a saloon dance. Don Thompson and Jim Ringrose are in charge of the dance.

The cry of "Tallyho" will meet the guests assembled at the Alpha Omicron Pi pledge dance Saturday night, for the motif is that of hunting with foxes and hounds and scarlet-coated huntsmen. Patrons and patronesses will be Mr. and Mrs. Wayne Morse, Mr. and Mrs. John Stark Evans, and Mrs. Lucy Abrams.

Crisp, scarlet-hued leaves and big yellow pumpkins will transform the Pi Beta Phi chapter house into an autumn scene Saturday night when the fall pledge dance will be held. Patrons and patronesses for the affair will be Mr. and Mrs. J. H. Jameson, Mrs. Anne Landsbury Beck, Mr. and Mrs. C. P. Tillman, and Miss Beatrice Milligan.

FEAT. The second general reason is that a government, such as ours, run (or ruined) under the party system of government, must have two parties of equal strength. Only thus can responsibility in government be enforced. If the Democrats had as many votes as the Republicans, the Tea Pot Dome scandal under Harding, and the "Saint" Andrew Mellon capitalist dictatorship under Coolidge and Hoover would be summarily punished. Hence, abstractly, in the interest of good government, you should lend your support to the weaker of the two major parties. Even an unbiased Republican could agree to that.

Regardless of these two considerations, however, a comparison of Hoover and Roosevelt, and of the platforms on which they are running, drives us inevitably to one conclusion. The Republican party's theory of government, as advocated by Hoover and his predecessors, is to MAKE THE RICH RICHER, the theory being that some of the benefits will trickle down to the poor. While Roosevelt is not an out and out liberal, he is progressive enough to win the favor of the liberal New Republic magazine.

On the prohibition question, Hoover is an apostate dry, an opportunist who has shifted his side as the electorate shifts. He has been condemned by every national dry association, and is not trusted by the wets. Roosevelt is a sincere wet, who is opposed to the saloon, and favors local option with federal safeguards against smuggling. Even the dries trust his sincerity more than Hoover's opportunism.

The determining factor in the election this fall will undoubtedly be the economic issue. Which party is best able to carry us out of the depression? The Republican attempt to pretend that we are already out is rather pitiful, considering the increase in unemployment—which President Green of the American Federation of Labor estimates has increased by two million from May to August, 1932.

and beliefs of the two men is complete justification of the strong swing of the voters toward Roosevelt this year. But there is an even stronger reason why Roosevelt should be put in the White House. Even the Oregonian has stated that economic recovery will be delayed unless there is absolute accord between congress and the president. And such is indeed a fact. But it is also a fact that the 71st congress is bound to be Democratic. The Democrats gained control of the house two years ago, and every prediction is that they will greatly increase their lead there on November 8. Since congress last adjourned, the death of two Republican senators, and the appointment of Democrats to their places gives the Democrats control of the senate. The present line-up is: Democrats, 48; Republicans, 47; Farm Labor, 1. But the Democratic strength is really greater than that, for LaFollette, Hiram Johnson, and Norris have all promised to support Roosevelt, thus giving him a strength of 51 to 44 for the Republicans, and the November elections are confidently expected to increase that lead. Maine has already gone Democratic, and New Jersey and Colorado are practically certain to elect Democratic senators. The trend of numerous straw votes, including that of the Literary Digest, indicates that the Democrats will win many more senate seats this fall. And no Republican prophet is bold enough to foresee Republican control of the next congress. Therefore, according, even, to the Morning Oregonian's Republican eye, the country must elect a Democratic president if it wishes to see a harmonious program to end the depression adopted. To expect the Democratic congress to abandon its own views and passively accept those of Hoover is to ask it to abandon its own party and become Republican. Although the Democratic house did sacrifice its own program to accept that of Hoover during the last session, it has been too disillusioned with the results to do so again.

I have not considered the claims of the Communists or Socialists, because this is essentially a contest between Republicans and Democrats. Either Hoover or Roosevelt will occupy the White House next March. Regarding the facts which this article is all too short to develop, the only conclusion is: while you are voting 317 X No, also vote, FRANKLIN D. ROOSEVELT, YES.

NORMAN THOMAS (Continued from Page One) we are living in the end of an epoch. Not merely the economic collapse in the present decade but the general psychological attitude of the people show signs of the decadence of our times. Our standards have been shaken, hope has turned to pessimism, and the whole country is sick of the racking steering which is not confined to illegal practices but is natural to a society whose motto has been, "My son, get rich—honestly if possible." And now that riches disappear, and we are told that men starve because they have produced too much, the lethargy of our leadership indicates how deep-seated is the paralysis of our national will. If newspaper headlines are at all indicative, then drift in the U. S. is toward disaster not real prosperity, to war not peace, and to outright dictatorship or fascism, not democracy.

MOVIE NOTES

By BOB GUILD COLONIAL — "Red - Headed Woman." McDONALD — "Movie Crazy." REX — "Washington Masquerade."

There are a couple of highly moot questions to be decided tonight and tomorrow at the Colonial—First, are red-headed women different? And second, when is a blonde not a blonde? Jean Harlow settles them both by dying her hair, crossing her legs again, and turning on the high power for the benefit of Chester Morris. Not that he minds.

Nor does the audience, for Miss Harlow is quite a dish in her latest, playing the woman who gets what she wants—devil take the hindmost and bother the consequence.

Why should a thinking man vote the Socialist ticket in 1932? There are three or four good reasons why such a man should vote no other ticket than the Socialist.

(1) It is a party with ideas, ideals, and a program. Consider the following extracts from the party platform; it is evident that they are intelligent and forward looking, based on a recognition of the need to remedy certain conditions as they exist.

Colonial Theatre Contributes Sum To Fight Grab Bill

Every Tenth Ticket Given To Further Oppose Consolidation

Not only has the Colonial theatre contributed a substantial sum to fight the "school grab bill," but an additional method of giving to the fund was evolved this week by Glen Godfrey, promotion manager. In discussing the plan, Godfrey explained that Wednesday and Thursday the Colonial turned over every 10th ticket sold to its patrons to the fund and gave the patron a receipt showing that he had contributed the price of his ticket to the fund. This will allow the "Vote No" fund approximately 10 per cent of the gross income for the two nights.

To further help in getting contributions from other sources, the Colonial will give to each contributor who donates \$2 or more to the fund a free pass to any show being played at the theatre. Passes have been left at little Deady and already donors are taking advantage of the offer, Godfrey said.

ous reason for voting Socialist is the candidate for president, Norman Mattson Thomas. Upon being graduated from Princeton in 1904, he spent some time in settlement work in New York and was assistant pastor of the Brick Presbyterian church on Fifth avenue, graduating from Union Theological seminary. In 1918, after deciding that he could lend no support to war on ethical and Socialist grounds, Thomas founded "The World Tomorrow" and served four years as its first editor, one year as associate editor of the Nation, and is now a contributing editor of the latter publication. He joined with Harry Laidler in establishing the League for Industrial Democracy and the two now serve as executive directors of
