-Charles Anderson Dana, New York Sun

FOR AULD LANG SYNE

TO THOSE who knew a frail little man who de-I voted six years of the best part of his life to the University of Oregon, the administration building, with its stately ionic columns and stolid impressiveness, always will be reminiscent of Dr. Arnold Bennett Hall. It was there that this loftybrowed scholar planned and dreamed of a great University which would some day take its place among the foremost educational institutions of

More often than not, the light in his office burned far into the small hours of the morning as he struggled with the difficult task that was his. From the edge of the campus the high-paned windows of his study shone forth like beacons in the darkness. They symbolized the torch of learning and flashed a message that there was a brilliant mind at the throttle of the University.

Idealist and thinker that he was, Arnold Bennett Hall came to clashes with numerous people. The materialistic attitude of many with whom he worked was irksome to him. Being practical at traditional football game. the expense of educational efficiency was not pleasant to Dr. Hall. Powerful persons in the state disagreed with his plans and ideas, and eventually he resigned as president of the University.

So he came and went-a brilliant man, with scholarly ideals and high aspirations. Many were opposed to him, countless others hardly knew what he looked like. But, above everything else, he was a friend of the University of Oregon, as staunch and loyal a supporter as this school ever had. It hurt him to the core when he saw the University turned into a punching-bag for political and financial desires.

When the present system of higher education was put into operation, Dr. Hall was left out in the cold, so to speak. He was retained as president of the University, but subsequent events, including the placing of the nefarious Zorn-Macpherson measure on the ballot, so discouraged him that he Williams colleges. tendered his resignation to the board. That body granted him a leave of absence until January 1,

Up to that time he technically holds the position he occupied for six years.

"Harvard, Yale, Oregon, Dartmouth." - that would have been sweet music to the ears of Arnold school would be recognized as one of the nation's then goes the other way."-Lady Rhondda. cultural and educational centers. He was untiring in his efforts to establish noteworthy research proeastern foundations met with gratifying success.

Dr. Hall lauded the state board for its distribution of courses under the present system; and his endorsement was as fine a compliment as the board without and to depart. John Morley. ever received. He deplored that the Zorn-Macpherson bill should ever reach the ballot and watched in anguish as selfish interests sought to destroy the

University.

institution he had worked so hard and long to im-A continent now lies between Arnold Bennett Hall and the University of Oregon. He fills a highlyresponsible post at Washington, D. C. His work here is a closed chapter in his life, but, because he loved Oregon and its University, it is not difficult to picture him watching with interest the destinies of the school he once guided. To Dr. Kerr, a worthy successor, he undoubtedly joins us in extending

Higher education in this commonwealth is certain to advance, and it is only fitting that we pause to pay a slight tribute to a man who strove and sought for progress for six years - Dr. Arnold Bennett Hall.

THANK YOU, AARON AND PHIL!

TO THOSE philanthropic Portlanders, Mr. Aaron Frank and Mr. Philip Jackson, we extend thanks for the water-wagons they will present to the Oregon and Oregon State football teams this afternoon. Their generous act is appreciated by the students of the University, and the Emerald gladly takes this opportunity to tell them so.

WELCOME GRADS

"WELCOME grads" will radiate from every corner of the campus this week-end as alumni from all over the state stream into Eugene for their 1932 Homecoming.

Homecoming this year has a deeper significance than ever before. Not only is it the usual glad reunion of old classmates, but it is a last giant rally to save the University from the clutches of the Zorn-Macpherson juggling bill. Every loyal alum will be "Back to Fight for Oregon" with the same pep and will to win that they used to put into their football rallies. True, we are playing a football game with our most famous rival, Oregon State. But we are also running the last lap of the greatest race the University of Oregon has ever run—the race for self-preservation and continuance in its present location and identity.

So we say, "Welcome grads! We're glad to have you back to fight for Oregon!'

DR. EINSTEIN SIGNS A CONTRACT

DR. ALBERT EINSTEIN will teach in the United States. He has recently signed a contract to become one of the leaders of the newly formed Institute for Advanced Study. He has been offered luxurious freedom for study and recreation, and all the money he cares to have.

Dr. Einstein, a little German-Jew, and probably the greatest mathematical and philosophical thinker of the age, was the son of an obscure Jewish merchant. But he grew up to think, and as he thought, the wisdom and incandescent brilliance of his reflections and calculations was brought to the light of scientific observers.

His fame spread little by little. Academic, rather than poetic, he was acclaimed in the field of science rather in that of philosophy, in which he undoubtedly is no amateur. He thought for himself, and out of that brain which defied the code of centuries sprang an entirely new idea of the cosmic material- township is pretty well torn up ism of things, an idea so dazzling that it is claimed to make way for improvement and that there are but a handful of men who clearly expansion. Even if you're an old comprehend its theory.

Acclaimed by the leaders, the mob have taken up the cry of his praises. The very mention of his name brings the connotation of immense wisdom, withal immersed in a great yet obscure mass of technicalities. Not in life is Albert Einstein obscure way.
