

Junior Shine Squad Ready, Rain Or Shine

Advance Ticket Sales Get Underway in Houses

Proprietors of Campus Booteries Offer Use of Shops if Usual Oregon Mist Prevails

Advance ticket sales for the annual Junior Shine day are progressing satisfactorily, it was stated last night by Glen Hieber, in charge of the sales in the men's shops.

Although praying for sunshine on their day of lowliness, the shine squad is prepared should rain interfere next Wednesday. The proprietors of the campus shine shops have agreed to cooperate by donating their shops and brushes to the cause, and taking a day's vacation, if the weather will not permit the operation of the open-air shiners.

In compliance with the custom, 13th street curbs between Kincaid and University streets will be sprinkled with elevated benches, each manned by two juniors. Co-ed ticket-sellers dressed in riding habits will define the passing students.

Men's living organization representatives for the advance ticket sales include: Reynolds Allen, Norval Hamilton, Ed Schweiker, Jim Gornely, John Casey, Chick Burrow, Howard Bobbitt, Charles Dodge, Charles Kleingegger, Henry Mann, Al McKelligen, Bob Sleeter, Dave Eyre, Ed Schlessler, Jim Ferguson, John Kendall, Louis Van Nice, Dick Near, John Pennington, Tom Tongue, and Ike Donlin.

Wesley Club To Hear Ristow Speak Sunday

"The Social Message of Christianity" will be the subject of a talk to be given by Rev. C. F. Ristow, pastor of the First Methodist Episcopal church, at the 6:30 meeting of the Wesley club Sunday evening. The worship service preceding Mr. Ristow's talk will be in charge of Howard Ohmart.

The social half-hour will begin at 6 o'clock, followed by election of officers at 6:30. The election will be in charge of Don Saunders, president.

The series of discussions on "Love and Marriage" that the University class has been carrying on will be continued at 9:45 Sunday morning. Violet Adams will be in charge of this meeting.

Compact, Books And Pen Among Lost at U. Depot

THERE are ten books at the lost and found department at the U. of O. depot. Here is a list of the books and the names found therein: "Literature and Life," Jack Simons; "Writing and Thinking," G. McGonigle; Bashiell's "Psychology," Glenn Bechtold; "Economic Doctrine," Kenneth Wilson; "Complete French Grammar," Adalia Everts; "Teachers' Class Book," Murray Fowler; "Reporting for Beginners," Ruth Brehm; "Principals of Economics," Jim Manning; "Outline of Physics," George Niemi; and "The Rise of American Civilization," a very good looking book, has no name at all. Among other things turned in this week are a yellow fountain pen and Houbigant compact.

NO NEED OF SCRIP, SAYS EXECUTIVES OF CO-OP

(Continued from Page One)

remainder of the three-day holiday to transact "necessary" business. The bankers decided to follow the policy of limiting withdrawals for necessities of day-to-day business and personal requirements. Yesterday it was possible to withdraw sums up to the amount of \$20. Eugene banks had no need to take advantage of the holiday, since they are reported as being in unusually good condition with loans at a minimum and cash and quick assets on hand.

Students after the first flurry of excitement viewed the "holiday" with calm, as did business men. Various credit plans were being worked out by merchants for use in cases where cash was not available, but the opening of the banks made this unnecessary.

At the post office the postal savings department reported a normal day with no unusual demands, even though the postal may also be pressed by "holidays" because postal funds, like commercial funds, are deposited daily with the banks.

STUDENTS ARE PENNILESS, AS BANKS CLOSE

(Continued from Page One)

bers. For once the bill collecting brotherhood has been nonplussed—tied up assets offer a perfect excuse to the more troublesome. Last night found conditions liquidating with the cigarette corner practically broken. Many places opened up charge accounts or accepted small out of town checks for small purchases.

University Co-ed Will Attend F.R.'s Inaugural Rites

One of the youngest, if not the youngest, inaugural delegates to be present March 4 for the ceremony that will make Franklin D. Roosevelt president of the United States is Miss Barbara Fraights, co-ed from the University of Oregon, who will officially represent the Young Democrats organization of Oregon. Miss Fraights will celebrate her 19th birthday on the eve of the inauguration, March 3. She made the trip to Washington with her father, J. E. Fraights of Portland, a close friend of Congressman-elect Walter M. Pierce, and her mother, who represents the Oregon League of Democratic Women.

Miss Fraights is a member of the freshman class. She is majoring in physical education and lives in Hendricks hall.

Marketing Class Seeing Portland

Dr. N. H. Comish, professor of business administration, left Eugene yesterday with some 40 students in his marketing and merchandising to visit Portland industrial and retail firms.

The party is scheduled to visit Swift and company's plant this morning, Jantzen Knitting mills and Sperry Flour mills this afternoon, and Meier and Frank company Saturday morning.

Talks on marketing and merchandising will be given to the students at each plant and firm visited by some member of the organization. B. C. Darnall, sales manager of Swift and company, will tell the students how Swift markets its products; J. A. Zehntbauer, president of Jantzen's, will talk on Jantzen's marketing policies and methods, and J. P. Harworth, of Sperry mills, will discuss marketing problems of the flour trade. W. E. Kremen, of Meier and Frank, will describe the methods of stock control used in that store.

The students, most of whom are making the trip in private autos, will return to the campus at their leisure, Saturday afternoon or Sunday.

Southern Pacific Cuts Eugene-Portland Rates

Drastic reductions in one-way and round-trip train fares to about one cent per mile between Southern Pacific stations from Eugene to Portland were announced yesterday by A. J. Gillette, Eugene agent of the Southern Pacific company.

The new fares will be on sale daily until May 31 and will be good in coaches and chair cars on the four trains each way daily between Eugene and Portland. The new one-way fare to Portland will be \$1.25 and the round trip \$2.50, Gillette said.

Road Ahead Program Features Phi Mu Trio

The Phi Mu trio, consisting of the Misses Mary Lott, Margaret Osburn and Lucy Wendell, Rolla Reedy, senior in education, and Wallace Campbell, graduate student in sociology, will be featured on the Road Ahead program to be broadcast over KORE at 2:30 Sunday afternoon.

The trio will sing three numbers, the titles of which have not yet been decided.

Reedy and Campbell will discuss the "Future of Prosperity."

Reorganized Geology Club Holds First Meet

The Condon club, which was formerly a professional student club in geology before the geology department was transferred to Oregon State, has been reorganized, with members being students in geology or geography.

The members of the newly organized club, which received its name from Dr. Condon, the first Oregon geologist, held their first meeting Wednesday night in Gerlinger hall, as a purely social affair.

CLASSIFIED

PETITE SHOP — Dressmaking, hemstitching, alterations, etc. 573 E. 13th. Phone 3208.

TYPING—Accurate and efficient. Corrections made in grammar and spelling. Phone Elinor Henry at 1005J.

CAMPUS BARBER SHOP—For a neat haircut. Across from Sigma Chi.

LOST

LOST — Gold oblong compact, Tues. night, Villard assembly. Finder call Helen Stinger, 772.

TRI-DELT PIN — Phone 478-J. Reward.

FOR RENT

ROOM AND BOARD — In the finest house on the campus. \$5.50 per week. 715 E. 13th. Phone 1825-W.

Two Instructors Will Give Program

Presenting a concert of cello and piano music, Lora Teshner Ware, cellist, and Aurora Potter Underwood, pianist, both members of the University music faculty, will appear together Monday at 8:15 in the school of music auditorium. This is the first program of its type this year.

The last group of numbers to be played by Mrs. Ware is of particular interest because of its modern numbers by Bridge and Chasins. The quintet which presented a program in Gerlinger last term during final examination week played a "Quintet" by the former composer. The other numbers of this group include "Kei Nidrei" by Bruch and "Vito" by Popper.

Mrs. Underwood will contribute as a solo four numbers, "Waltz," "Etude," "Nocturne," and "Scherzo" by Chopin. Besides the solos, Mrs. Underwood and Mrs. Ware also play two joint numbers; namely, "Sonata, Op. 5, No. 2," by Beethoven and "Sonata, Op. 38" by Brahms.

ASUO MEETING NULL AND VOID; ONLY 277 THERE

(Continued from Page One)

would be held early next term. Provided a quorum is present at that time, and the session is called in accordance with constitutional provisions, the amendments will be voted upon at the same time as the regular A. S. U. O. elections for new student officers.

Prescott Asks Question

Al McKelligen read the amendments at yesterday's null and void gathering. The only student to raise a question from the floor was Julian Prescott, who challenged the amendment regarding the candidacy of transfer students for offices. Hail replied by saying that transfers would be eligible if their term hours tally with requirements.

No definite date has yet been set for the third attempt to read the amendments. It probably will be at the nominating assembly next quarter.

Dr. Wright Completes Book On Language Mathematics

It took seven years of research and the tabulation and calculation of verb ratios in more than 580,000 lines of Spanish texts, but the result was an accomplishment unprecedented in its field, in history — the perfecting of a system by which may be authenticated the date and authorship of the old, prized, Spanish manuscripts.

The man who accomplished this colossal task is Dr. Leavitt O. Wright, professor of Romance languages at the University of Oregon; his findings and his newly perfected system were recently published in a book, "The -Ra Verb Form in Spain," which contains the complete history of the -ra verb from classic and vulgar Latin through 20 centuries of evolution.

Dr. Wright has prepared in his new science of language mathematics, graphs "which trace the path of the -ra verb in Spain. He has made tables which show the relationship of various periods of Spanish history and literature to the ratio of the verbs. By counting the -ra verbs, and sometimes those ending in -se, and comparing with his table he is able to bring forth strong evidence of a manuscript's date or authorship.

Professor Dmitri Ivanovitch, an eminent Polish philologist, in reviewing the book in the February issue of "La Nueva Democracia," commented: "Although the book is weighty in nature, it is as interesting as a thrilling novel of adventure, due to the fact that the contents, without distorting facts, are treated in a way that is both interesting and captivating."

"Another merit of the book," wrote Dr. Ivanovitch, "is the extensive table of reference which it contains, and to which one may have recourse to test the doctrines propounded by famous grammarians."

The Polish professor also proposed that Dr. Wright carry on further research to shed light on corresponding uses in Spanish

America and the language spoken in the mother country.

The study suggested by Professor Ivanovitch was completed by Perry D. Woods of Linfield college, McMinnville, Oregon, who wrote his doctoral dissertation on "Ra Verb Form in Spanish American Speech," and received his Ph.D. degree at the University of Oregon in September, 1932. This study has not been published, but Dr. Wright and Professor Woods are preparing a summary of it for eventual publication.

Dr. Wright's book was also favorably reviewed by Dr. W. J. Entwistle in the December issue of "Medium Aevum," published at Oxford.

Some of Dr. Wright's other recent literary accomplishments include "Things to Omit From an Elementary Spanish Grammar," in the February and March issues of the "Hispania"; "A Comprehensive or Comprehensive Elementary Grammar?", in the February publication of the "Oregon Foreign Language Journal."

Two of his articles accepted for publication within the last few days are "Grammatical Slips in the New Spanish Constitution?", which is to appear in the March number of the "Modern Language Forum," and "The Apodosis Function of the -SE Verb Form," to be published in the June issue of "Hispanic Review."

Oregon Graduate Pays Week-End Visit Here

Miss Mary Caniparoli, who received her B.A. from the University in mathematics in 1931 and her M.A. in economics in 1932, and who is now teaching mathematics and other subjects in Scappoose high school, was in Eugene last week-end, visiting her brother, Dr. S. D. Caniparoli, assistant University physician.

Emerald Of the Air

Fred Peterson and his Rhythm club boys from the Campa Shoppe will present a half-hour of red-hot, popular syncopation on the Emerald-of-the-Air program over KORE from 12:15 to 12:45. This musical treat will be a regular Friday feature, with occasional specials by Bill Seivers and Will Thibault.

Bruce Hamby's sports talk will henceforth be heard at 12:15 on Saturdays.

Harry Stone To Speak in Series

The fourth in a series of lectures on popular international problems, sponsored by the International house will be delivered by Harry Stone, prominent Y. M. C. A. worker of Portland, on March 7, at Condon hall.

Mr. Stone has recently returned from Europe where he made an extensive visit to Russia. For 25 years Mr. Stone served as secretary of the Portland Y. M. C. A. during which time he worked with thousands of boys including many different nationalities.

He is a dynamic speaker and has a wealth of illustrative stories. In his talk he will tell some of his experiences in Europe, especially in the light of the building up of good will between countries. Students are urged to keep this talk in mind as it will have important bearing on modern international problems.

Walks To Be Changed

Work on replacing the board sidewalks around University high with gravel walks will be started as soon as the weather clears up. The board sidewalks are too slippery in the winter was the reason given by Mr. Donald Lewis, superintendent of buildings and grounds.

Banquet of Young Democrats To Be Tomorrow Night

Vic Meyers, William Gosslyn and Mayor Willis Mahoney Will Speak

The biggest four-bits worth of the year — that's the Inauguration banquet of the Young Democratic league of Lane county at the Osburn hotel at 6:30 tomorrow night, according to Nathan Berkham, president of the Lane county league and a graduate student in economics, who is to be toastmaster.

"One-bit apiece pays to hear Vic Meyers of Washington and three of the most prominent Democrats of Oregon," he explained, "and a good meal is thrown in for good measure!" Attendance, he said, is not limited to Democrats.

Carl Donough, state Democratic chairman; William L. Gosslyn, president of the Young Democratic league of Oregon; and Mayor Willis Mahoney of Klamath Falls are the three other major attractions to be introduced by Berkham.

At the banquet Elise Schroeder, a graduate of the school of journalism, will be inducted formally into the office of national committeewoman of the Oregon Young Democratic league.

Nearly one hundred reservations have already been made. Tickets go on sale this morning at McMoran and Washburne at 50 cents each, and may also be obtained at the Co-op. S. Eugene Allen, sophomore in business administration, is ticket chairman.

Gordon Ridings Holds

Gordon Ridings, former well known University of Oregon basketball star, who received his M. A. in physical education from Columbia university last June, is now coaching at Seth Low Junior college in Brooklyn, New York, and playing basketball in the New York Athletic association, which is one of the most prominent athletic societies in the country.

ILLUSION:

The Oriental girl reclines on a sheet of plate glass supported by two slaves. The magician waves a white sheet in front of the pretty maiden... pronounces a few magic words... Presto! She has disappeared in thin air.

EXPLANATION:

"Disappearing" acts are among the most popular in the repertoire of the magician. Dogs, horses, girls, whole rooms disappear—whisked into wings, dropped through trapdoors, hidden by mirrors. But this "disappearance" is a bit different. One of the "slaves" is a hollow dummy. When the magician holds up the sheet the lithe little lady disappears completely—into the convenient figure of the dummy.

CAMELS

IT'S FUN TO BE FOOLED ...IT'S MORE FUN TO KNOW

There is also a trick of cigarette advertising, whereby a few magic words are used to create the illusion of "Coolness."

EXPLANATION: Coolness is determined by the speed of burning. Fresh cigarettes, retaining their full moisture, burn more slowly... smoke cooler. Parched, dry cigarettes burn fast. They taste hot. This makes the method of wrapping very important.

Improperly wrapped cigarettes begin to dry out as soon as packed.

Camels are cooler because they come in the famous Humidor Pack of welded, three-ply, MOISTURE-PROOF cellophane... and because they contain better tobaccos.

A cigarette that is fresh, full of natural moisture, and blended from choice, ripe tobaccos tastes cooler than one that is harsh and acrid. For coolness, choose a fresh cigarette, made from costlier tobaccos.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Try Camels... give your taste a chance to sense the difference. You'll appreciate it!

NO TRICKS
..JUST COSTLIER
TOBACCOS
IN A MATCHLESS BLEND

Coal... silk stockings... meat —and the telephone

Keenly aware of the problems of business, large and small, Bell System commercial men are constantly devising special telephone plans to custom-fit service to the user's needs.

For example, a plan they worked out for a coal distributor helped him to contact 50% more dealers. A manufacturer, using a telephone selling plan, sold 700 dozen pairs of hosiery through one Long Distance call. A great meat packer handles complex sales and distribution problems efficiently with the aid of planned Long Distance and private wire services.

Systematic telephone plans are helping many users to build business—cut costs—handle collections—unify nationwide organizations—increase profits. And Bell System men are seeking still other ways to make the telephone more useful.
