UPPERCLASSMEN will be the envy of freshmen and sophomores this weekend when the annual Junior-Senior dance will be held at the Campa Shoppe. The event will be informal, and the lucky coeds who are fortunate enough to attend will be dressed in their best. The bright colors of their frocks will add to the charming atmosphere created by the decorations. Fraternity and sorority dances continue to thrill the hearts of the fair young maidens of the campus.

Miss Rankin to Be Honored

Movie Seminar

Motion pictures these days reach so many people, and so many persons of highly exact education, that they cannot afford to take any chances in matters of historical fact. Even the style of hangings on the walls, and the common everyday habits of the people of the past must be done faultlessly, or the producers are deluged with letters and telegrams telling them what great misrepresenters they are.

Since movie producers don't like letters and telegrams which call them misrepresenters, no expense is spared in securing the finest authorities available in order to allow no mistake to pass into the finished product.

"The Private Life of Henry VIII" is no exception. Throughout this production there is a great attention to detail in matters of furnishings and clothing, as well as manners of the court and habits of speech.

Without knowing anything about history, we feel perfectly safe in saying that this show is done according to the best historical knowledge of the time.

It certainly is a very painless way to get one's history. Take it from one who never got book history.

And it's a great picture.

The Jungle!

Story of "White Woman" is mostly about Horace Prin, the king of the river, as he has dubbed himself. Charles Laughton, of

course, cannot go entirely unnoticed, even when our latest love, Carole Lombard, is supposed to be the main character.

Laughton can be so mean—so low-down and sensual that one is seized with the desire to push him to the alligators. He treats that lovely girl so badly that you feel that he needs a good dose of berling erl.

Kent Taylor is a newcomer, and quite likeable. Charles Bickford makes a good fugitive gangster who fears nothing and no one, not even the king of the river.

Ed Wynn's nonsense doesn't come as fast and furiously on the screen as on the stage or radio. Just good clean fun.

Correction

The Gentleman in the Showers informs me that it wasn't Harry Green in "Sweepings" with Lionel Barrymore. It was Gregory Rattoff. Well, Rattoff took the show from Barrymore, then. Veddly Soddy.

Committee Plans Library Exhibits

Exhibits systematically planned and changed every two weeks have been provided for by the library staff through a committee composed of Mrs. Helen M. Everett, reserve librarian; Miss Bernice Rise, circulation librarian; and Miss Ella Carrick, assistant cataloger.

Various staff members will take charge of each exhibit, and the showcases on both the main floor and the third floor will carry out the same idea.

Displays have been planned to show travel books from several countries, as well as to carry out seasonal motifs.

The first of the new series of exhibits is to come out on Friday this week.

Willcox Creates Code of By-Laws For Art Students

W. R. B. Willcox, professor of architecture, is the originator of a code of by-laws which is always in view in that department and is applicable to anyone of any department—"Coin of the Realm."

The coin of this little realm in the department is consideration for one another. The more of it put into circulation, the more profitably can business be carried on. It comes in three denominations: Consideration for everybody's time, property and nerves—your own included.

Time: there is only so much of it. Another's loss of it by one's own thoughtless interference is total,—it can never be restored,—and there's your own!

Have a Will

Property: Nobody has too much for his own use. If one borrows, let him repay in full. As one values his own, let him value no less that of another.

Have a Care!

Nerves: One's own noise does not bother him so much, but it raises hob with everybody else.

Have a Heart!

English Staff Meets

A staff meeting of the English department was held Monday afternoon at 3:30 o'clock in Villard hall to consider catalog changes and the introduction of new courses. The chief question under discussion was the introduction of a course in public speaking as a part of the English norm for teachers. Dean Boyer, head of the English department, presided at the meeting.

Students in Need Of Odd Jobs Says Employment Head

"Business may be bad everywhere else but mine certainly has been thriving," stated Miss Janet M. Smith, of the University employment agency.

According to Miss Smith, odd jobs seem very scarce lately and there have been few calls for help wanted but the same number of students still need work and very badly, too. Miss Smith urges all town people to call the employment agency when they need any one for odd jobs such as raking lawns, fixing radios, washing windows, waxing floors and others.

"Many students are willing to do any kind of work in order to stay in school and such students deserve all the help we can give them, and through me you can help them to earn enough money to at least eat regularly, for innumerable students have a room and must depend on odd jobs for food," said Miss Smith in conclusion.

On Medical Staff

According to recent information received by the alumni office Fredrick B. Joy, who received his B.A. degree from the University in 1929 and his M.D. degree from the Oregon medical school in Portland in 1931, is camp surgeon at the Wolf Creek C.C.C. camp near Roseburg.
