FROM now until the end of spring term, on Friday and Saturday nights, the little stars peeking from the heavenly dome will shine upon shimmering satins and creamy shoulders. 'Tis the season of formal and informal dances; 'tis the time for fair coeds alluring with carefully waved hair, bright nails, shadowed eyes, winsome smiles and exhaling the scent of "Quelque Fleurs" to make a conquest.

The coming weekend promises to be a merry one with its formal dinners and dances, and if only the weather man will hang a lazy, yellow moon in the sky the night of the Senior ball this initial opening of winter term festivities will have all the thrill and glamour of a sojourn on the Riviera.

Seniors Go Russian

The seniors are going a la Russian—that is the theme of the decorations of the Senior Ball to be given tomorrow night in Gerlinger hall. Couples will dance beneath a billowing canopy with the royal insignia on it, amidst drapes of blue and ochre and wall panels of bright-colored lifelike figures. The orchestra will be placed on tiered rows against a background of Russian mosque scene, with circular steps which will lead to the orchestra and on these the evening's entertainers will perform.

Suspended in the center of the room, overhead, will be a large revolving crystal ball on which colored lights will play, while the couples move gracefully to the strains of a Russian lullaby.

Archie Loveland and his orchestra, dressed in Russian costumes, will furnish the music.

Patrons and patronesses will be Mr. and Mrs. Burt Brown Barker, Dr. and Mrs. James H. Gilbert, Dr. and Mrs. C. L. Schwing, Mrs. Alice B. Macduff, Dean and Mrs. Eric W. Allen, Dean and Mrs. John F. Bob Hunter, president of the Order of the O, which has in the past been charged with the fostering of traditions, declared that organization would make no effort to prevent freshmen from wearing tuxedos, but declared that the freshmen should "fight for the 'immunity' which they now possess."

University students, especially the coeds, have been busy the last two days entertaining some mothers of the Oregon State Mothers' association, and showing to them the real working of student government and student activities. The mothers attended council meetings, committee sessions, as well as teas, dinners and luncheons, and saw how their sons and daughters carry on the student activities of the much talked of and written about University.

Mrs. A. M. Dibble, president of the Oregon Mothers, expressed her pleasure at the state of affairs at the University, and assured the women students that everything is being done by her group for the ultimate good of the University.

Mrs. W. J. Kerr, Dean H. P. Louisa Parry sang three numbers, accompanied by Maxine McDonald at the piano. Marion Vinson entertained with a tap dance and Louise Beers with a tumbling act.

"It has been a great pleasure to visit the campus," she said, "and also enlightening to get first-hand information about student activities, and true conditions on the campus. The students have been gracious and I am looking forward to more such visits."

Mrs. Dibble is vitally interested in the University and has a daughter, Dorothy, attending, and another one who plans to enter the University as soon as she finishes high school.

The Oregon Independent Coeds have been organized for only a few months, and the results of its activities so far have been very encouraging."

Doctors Work Overtime

Since Dr. Hayes is making a food test which will take about two weeks time, Dr. Fred Miller and Dr. Sante Caniparoli are working overtime at the dispensary. They are at the dispensary from 8 to 12 each morning, and from 1 to 4 in the afternoons.

CHANGE IN BANK SYSTEM DECLARED NECESSARY

(Continued from Page One) The banks have a wonderful opportunity here to bridge the gap between industry and idle men who are at the same time customers and employes.

It is through the medium of bank credit that the wheels of industry may be again set in motion. Certain fundamental changes are necessary, states Burrell, if the banking industry is to serve the people adequately. The issue is not a matter of "rugged individualism" vs. "social control," but rather the direction and method of control, Burrell writes.

The Dill Pickle club, a division of the upperclass commission and an organization of town girls meeting each Wednesday for luncheon. Close observers have detected cautious preparations for an unusual project afoot at the "Y." Although no information could be obtained as this story is written, officials promise to lift the veil of secrecy early next week.

Lucky Strike *the fully packed cigarette*
— no loose ends

Always the finest tobaccos and only the center leaves are purchased for Lucky Strike cigarettes. We don't buy top leaves—because those are under-developed. And not the bottom leaves—because those are inferior in quality. The center leaves—for which farmers are paid higher prices—are the mildest leaves. And only center leaves are used in making Luckies—so round, so firm—free from loose ends. That's why every Lucky draws easily, burns evenly—and is always mild and smooth. Then, too—"It's toasted"—for throat protection—for finer taste.
