The Tip-Off

By BILL PHIPPS

Today's Sport Calendar Full; 'Pigging' Urged to **Bolster Baseball Interest**

TODAY'S sports calendar offers a complete line of entertainment for followers of University of Oregon athletics. Bill Reinhart's 1934 baseball nine makes its initial appearance before campus fans against Oregon Normal. Golfers from University of Washington will match strokes with the Webfoot varsity on the Eugene Country club course. Bill Hayward will stage another of his pre-season meets featuring his cinder artists to round out the program for the day.

Baseball, of course, presents the most appeal for the majority of students today as the Ducks, chafing from a 4 to 3 defeat at the hands of the Wolves Thursday, will be fighting to even the count in this practice series which is preparing them for the coming conference campaign.

"Pigging" to the old ball park is again being urged as a means to stage off impending financial disaster to the national pastime on the Oregon campus. Baseball never pays anything in the A. S. U. O. coffers, the expense being borne by football, but this year the situation is even more serious than ever before.

Even in the days when the entire student body automatically became members of the A. S. U. O. the diamond sport failed to draw good crowds into the bleachers. Playing ball games before a handful of fans scattered about the stands is at best disheartening and not at all conducive to sparkling exhibitions, so "pigging" to the games is encouraged for today's tilt as well as for the remainder of the baseball contests this spring. Whole hearted support to Reinhart's ball club in the form of attendance by those students who do hold student body cards will result in the Oregon outfit's turning in vastly superior performances.

A news flash imparted to the writer today by Bill Eberhart, Emerald sports writer extraordinary, who operates the refreshment concession for the games, announces that free hot dogs will be dished out to the first five couples who trek to the ball park this afternoon. With this added incentive to lure "piggers" to the Webfoot-Oregon Normal tussle, Eberhart anticipates a rush on his establishment shortly before the umpire bellows, "Play ball!" Eberhart is prepared for the immigration movement to Reinhart neid and yesterday afternoon stated that in case the "piggers" attempted to storm the field he would station judges at each of the gates to determine the winners of the free sandwiches.

Well known personalities in Northwest golf will be included in the Husky lineup on the country club course today. Scotty Campbell, who reached the semi-finals in the National public links tourney a year or two ago, along with Harry Givan, former Seattle city champion, and Johnny Shields, who two years ago was considered prize in the Register-Guard's Missone of the finest golfers in the state of Washington, will be big daughter of D. L. Lewis, superinattractions for those who prefer tendent of buildings and grounds the ancient and honorable competition on the green and fairway a senior at University high school. to baseball.
