The Oregon Daily Emerald, official student publication of the University of Oregon, Eugene, published daily during the college year, except Sundays, Mondays, holidays, examination periods, all of December and all of March except the first three days. Entered in the postoffice at Eugene, Oregon, as second-class matter. Subscription rates, \$2.50 a year.

#### AS RAYMOND LEAVES

A NOTHER of the University's finest instructors will regretfully sever his connection with the University of Oregon at the close of the current year.

He is Paul E. Raymond of the school of law, one of the younger professors in that department who has contributed enormously to the distinction which the school has attained. His brilliance and his splendid record may be estimated from the glowing tribute paid by Dean Wayne L. Morse.

Paul Raymond is not leaving Oregon because he wants to. He is going because he will be able to receive fitting compensation at another institution in a far corner of the United States. There is no doubt that it would not have taken a very great increase in salary to have kept him. But the University apparently found itself unable to offer even a small in-

So he has decided to move to a school where salary is commensurate with ability. At Oregon he was "instructor in law," because Oregon could only pay an instructor's salary. In Florida he will be accorded his rightful ranking of full professor, three steps higher on the academic scale.

Deeply we regret the loss of Raymond. His going cannot do other than impair the high standard of the law school. And to offer the finest legal training possible is a basic function of any university-a service vital to the state.

Thus Oregon's professors continue to leave for fields richer in prestige and remuneration. And this will go on as long as we hear the story of limited budgets, pitifully low salaries and slow promotions.

### ONCE MORE WE ARE SAVED

EVER since the advent of The Demon 3.2 the city of Eugene has taken it upon itself to save us from ourselves. It is probably not so much the capricious council that is responsible as it is the righteous folk who have pestered them into passing ordinances that rival the blue-laws requiring the wearing of skirts of specified length.

The farcical four-blocks line went by the boards last fall, and most of the campus eating-houses installed beer pumps. Oddly enough, it was not necessary to install sawdust floors with this innovation, and the numbers of student inebriates that littered campus gutters was surprisingly low.

tance of from six to 12 blocks from the campus in all directions.

Just why University students should be the object of such special wet-nursing is a little puzzling. keys, \$8.50, all of which totals \$640.45. The only explanation is that Eugene, irked by Corvallis's new-found godliness, does not want to be able, acted more wisely in investing his dollars in outdone in the matter of synthetic salvation of the keys to enhance his importance in the eyes of his fine, clean, upright young men and women who grandchildren than he would have done through have been entrusted to her care.

If anything is to be done to regulate the drinking of college students it is the business of the University administration. If we are a local autonomy we have a right to our own government. If we are not we have the same rights as other citizens

#### PRECEDENT TAKES A DRUBBING

FLAUNTING precedent, this year's Emerald business manager is filing as a candidate to succeed himself. And we likewise will break an unwritten rule forbidding comment on candidates before their selection. We unreservedly recommend Grant Thuemmel's reappointment as business manager.

We recommend that the publications committee and the executive council disregard tradition and reappoint Thuemmel to an office in which he has found notable success.

Thuemmel, still a junior, has carried the Emerald through a year of depression in business and advertising circles. In the first two terms of the current year he and his aides piled up about one thousand dollars more in advertising revenue than was anticipated. It is this reserve which is now permitting the Emerald to operate on a full publication schedule despite the near-wrecking of the Emerald's income by the recent ruling of the attorney general on student fees.

The business staff of the Emerald gets little credit for the tedious and unremitting efforts it must put forth to keep the Emerald on a daily basis. It is fit that meritorious service in that department be rewarded and that a continuation of successful policies assured.

#### INSINCERITY

DO political slogans and campaign pledges, the catch phrases calculated to corral ballots, still appeal to the average voter? Politicians apparently still believe they do, for eight out of ten of the Oregon candidates for public office have adopted some such slogan as "A vote for Bilp is a vote for the Roosevelt program." But after this year's spectacle in Washington, many should have learned that little dependence can be placed in preelection pledges.

The Senate's action in defeating ratification of the St. Lawrence waterway treaty is a glaring example of political inconsistency. The last Republican convention adopted a plank pledging the party's support to such a development, but regardless of the promise, Republican senators in conjunction with various elements of the Democratic party an old attitude towards some im- ly large following, however. This uation which has not fallen victim have quashed the ratification.
