

Stoll Kidnap Case Ended; Arrest Made

Return Ransom Victim Home Last Night

Federal Agents Trail Car To Indianapolis Hideout

BULLETIN!
STOLL KIDNAP CASE ENDED
Louisville, Ky., Oct. 16—(AP)—Mrs. Alice Speed Stoll was returned to her home here tonight.

The Courier-Journal says that less than an hour after Mrs. Stoll was released, three persons taken into custody by investigators of the kidnaping.

The party was accompanied by a federal agent and was expected to reach Louisville within a short time. The information received here was that Mrs. Stoll was accompanied by the Rev. E. Arnold Clegg, pastor of the Capital Methodist Episcopal church, Indianapolis, and his wife, and Mrs. Thomas H. Robinson of Nashville, Tenn.

Professions of ignorance as to the return of Mrs. Stoll came from members of the family who were canvassed by telephone as soon as the report was received.

"This has been a big day, please get off the wire," was the remark of Berry W. Stoll, husband of the victim.

Other members of the family said they had heard nothing of the report.

The Courier-Journal said the break in the case came when Mrs. Robinson who had been under surveillance at Nashville, picked up the ransom package in Nashville.

Federal agents trailed Mrs. Robinson from Nashville to Terre Haute, Ind., where an attempt was made to get Mrs. Robinson to get into a taxicab driven by a federal agent. This move failed when she decided to take another cab.

From there Mrs. Robinson was trailed to Indianapolis and to the home of the Cleggs.

During the afternoon, Mrs. Stoll was allowed to call her home near here. The telephone call was traced to the Clegg home in Indianapolis.

Federal agents, watching the Indianapolis hideout, saw a Studebaker automobile containing Mrs. Stoll leave the Clegg residence early Tuesday night.

An automobile containing federal agents followed the car as it took the road to Louisville. Another squad of agents was dispatched from Louisville to intercept it.

The automobile was halted on the road and Mrs. Stoll was rescued.

Louisville, Oct. 16—(AP)—Alice Speed Stoll was elaborately guarded from early childhood against kidnapers.

Fear of them was the one thing that kept her mother from complete enjoyment of the children.

After marriage Alice continued the precautions. She practiced pistol shooting. She kept a vicious dog.

She became the victim of one of the nation's most sensational kidnapings.

Mr. and Mrs. William Shallcross Speed, members of one of Kentucky's oldest and wealthiest families always realized their immense fortune might be a magnet to draw all to them in that way. It has been estimated as high as \$10,000,000.

Friends of the family recalled today the vigilance begun when Alice was born at the fortress-like home of her grandfather, James Breckinridge Speed, in Louisville.

Y.W.C.A. to Hold Tea in Bungalow

The first event on the calendar of the upperclass commission of the Y.W.C.A. will be a tea for transfers and old students not in school last term. The tea will be held at the "bungalow," Thursday, October 18, from 3-5 p. m.

A program of musical numbers and informal discussions by the leaders of various Y.W.C.A. groups to acquaint the guests with the subject matter for this year's discussions, will be presented.

Starla Parvin is general chairman for the affair; aided by Charlotte Olitt, refreshments, Margiee Morse, publicity; Grace Peck, hostesses, and Martha McCall, secretary.

All transfers from other campuses are invited, as this tea is presented to acquaint them with possibilities in upperclass work in the Y.W.C.A.

OCTOBER 16

TYPHOON REPORTS MEAGER
MANILA — Blanketed with the debris of the worst typhoon in years, Manila and nearby districts stood in darkness and desolation tonight while the lists of dead and homeless grew longer.

At midnight the death toll was ten persons. The homeless numbered into the thousands and damage estimates for Manila alone ranged as high as \$2,500,000.

MINERS STILL DISSATISFIED
PECS, Hungary—Haggard and exhausted, 1200 Hungarian miners tonight still were bitterly indignant at conditions that drove them to their five-day effort at mass suicide in the inky underground darkness of a coal mine.

Spokesmen for the miners said they accepted compromise terms offered by the company "because we were demoted, because we didn't know what we were doing."

'AIR COP' MAY BE NEEDED
WASHINGTON — Charles A. Lindbergh foresees such a development in private flying that there will be a lot of air traffic accidents unless safety devices are developed.

He told the president's aviation commission today that collisions of transport planes need not be feared as they would be routed by ground radio stations.

FARMER NAMES HAUPTMANN
NEW YORK—Millard Whited, a Jersey farmer and lumberman, tapped Bruno Richard Hauptmann on the shoulder in a Bronx supreme court today and identified him as the "stranger" he saw on two occasions near the Hopewell home of Charles A. Lindbergh in the two weeks before the flier's first-born son was abducted and slain.

F. D. TOLD BUSINESS BETTER
WASHINGTON—President Roosevelt received a report of improved industrial conditions today, coincident with an acceleration of the White House chats with business leaders.

Eugene Black, of Atlanta, former governor of the federal reserve board and now liaison officer between the administration and the bankers, came to the White House from a swing through the southern and middle western states with a report of "improvement."

AAA PROGRAM EXTENDED
WASHINGTON — Dr. A. G. Black, chief of the corn-hog section of the AAA, announced today a new corn-hog program for

Students Named By Republicans To Lead Groups

Robert Zurcher Will Serve As Head of Campus Political Party

Portland, Oct. 15—(Special to the Emerald)—Appointment of a special student committee to organize supporters of the republican party on the University of Oregon campus was announced here today by Arthur W. Prieaux, republican state central committee chairman.

Robert Zurcher will serve as president of the group, with Marshall Harrison as executive chairman and Jerry Murphy as his assistant. Marygold Hardison was named secretary, and Ralph Terjeson, treasurer. An executive committee will be appointed later this week, Prieaux stated.

Plans call for the campus group to become an integral part of the state-wide Republican organization, thus giving students an active part and a practical insight into the workings of a real political campaign.

Discussions of vital state and national issues upon which candidates are basing their platforms are to be encouraged in the group meetings, Republican state chairman Prieaux said.

PICKETS SMASH WINDOW

Portland—Rock throwing, which began here with the start of the textile strike at the Oregon Worsted mills, has never stopped completely, police reported yesterday as they were called to view the result of another rock barrage on a glass window.

A \$125 plate glass window was broken in a billiard parlor owned by Tony Siranni, who told police that a group of strikers called on him recently and advised him to persuade his son to quit a job as electrician at the Worsted mill.

1935 will be offered to producers as soon as possible.

Returns from the referendum of corn-hog producers showed approximately 69 per cent of those voting favored continuance of the control program.

JAPAN NAVAL MEET

LONDON — The representatives of Japan and the United States came to England today to attempt to chart the course of the 1935 naval conference.

Admiral Osoroku Yamamoto, Tokyo's delegate, said at Southampton Japan will decide at the conclusion of the conversations whether to denounce the Washington treaty. He indicated Japan would accept a suitable compromise and pleaded for joint cooperation by the three powers in an effort to conclude the conversations successfully.

Student FERA Aid Reaches Large Group

Criticism of Work Heard From Many Quarters

Deviation From Original Plan Takes Work of Unemployed

New York, N. Y., (NSFA)—FERA appropriations aimed to increase college enrollment this year have been apportioned to approximately 12 per cent of the students now registered throughout the country. In every case applications for jobs were double the number possible to fill.

Financial need, scholastic record and priority of application were the factors considered in allotting positions. And because of overflow requests the work has in many cases been divided between two students who will execute the job during alternate months.

At Kent State college, for example, 223 undergraduates are engaged in the 132 positions available and at Nebraska State Teachers college there are only 81 jobs for 86 appointees.

Under FERA ruling at least 50 per cent of the appropriations must be earned by students who were not enrolled a year ago and each college has divided funds proportionately between men and women.

Such varied occupations as checking traffic and parking violations, repairing furniture, tending children, testing water and milk, tree surgery, construction of campus improvements, research, library, stenographic and clerical work are included in lists of jobs filled.

There has recently been considerable criticism of the type of work these students are currently engaged in. From many quarters comes the reflection that the spirit

Deadline for Second Installment of Tuition Saturday, October 20

Saturday noon, October 20, is the dead line for the second installment of registration fees and non-resident fees. A penalty of 25 cents each day will be charged for late payments beginning Monday, October 22.

In which the appropriations were made has been violated in that undergraduates are being employed in place of older people, given work that unemployed could accomplish.

In devising this plan to increase college enrollment, the educational department of FERA voiced the hope that jobs allotted would be new ones, that work in the fields of education, government and social service at present left entirely undone should be devised for students benefiting from the appropriations. Surveys of housing conditions, election registration checks, investigations of social needs, apprenticeships to government officials, posts in literary classes are a few of the possibilities which the originators of the plan had in mind. Construction, stenographic and clerical work, jobs which the already unemployed are in need of, are being filled instead of the newly devised occupations which in no way interfere with the general employment situation.

College Women to Confer at Astoria

Several members of the faculty will attend the 11th annual conference of the American Association of University Women to be held at Astoria, October 19 and 20.

Mrs. Virgil Earl, president of the Oregon state branch of the association, Dr. C. L. Huffaker of the school of education, Dean Alice B. Macduff, and Miss Mozelle Hair of the extension department are slated to appear on the program.

Dr. Huffaker will speak on "An Evaluation of the Public Schools

Ancient Volume Kept in Library

The oldest book in the University library is an ancient arithmetic, geometry and music book published in 1492 in Venice. The book was written about 900 years before that time by Boethius. It is written in Latin and is in the Gothic style of lettering.

According to old ideas, music was part of an arithmetic or geometry course and so was included in the book. With medieval musical writers Boethius' works carried as much weight as those of Aristotle with the philosophers.

The author came to a premature end as he was executed by order of King Theodoric under suspicion of treason.

The scholars of the middle ages and even later had to depend on the writings of Boethius for knowledge of the Greek's practise of music.

Moll's Latest Book On Sale at Co-op

"Campus Sonnets" is the title of the latest volume of poetry by Ernest G. Moll, associate professor of English, and versatile poet and author. Professor Moll's work has been published by the Metropolitan Press and is on sale in the book department of the Co-op.

This is the fourth work of Professor Moll to be published; other works include "Sedge Fire," and "Native Moments," two volumes of poetry, and a prose work on the appreciation of poetry. Considerable interest has been aroused upon the campus by the satirical note, new to Professor Moll's work, introduced in the present volume of sonnets, according to Mrs. Elsie Belknap, in charge of the book department in the University store.

The Day's Parade

his complacent statement that he is "actually eager" to testify in his own behalf. The actual charge against Mr. Insull and his coterie of former associates is using the mails to defraud. It is alleged that he engineered a \$143,000,000 swindling project with United States citizens constituting the largest number on the "sucker list."

The Good of His Country

Strange it is that eager Mr. Insull should be so misjudged by the American public, as he evidently thinks himself. According to lawyers' statements, Insull had only the good of his native land at heart, made a mistake—costly to a great many people—and desires to have everything aired in court. What kept many observers guessing this week, was whether capitalist Insull meant the United States or Greece by his references to his "native land." Unfortunately Mr. Insull has come to his decision of being "actually eager," to testify, about a year too late, and only after there were no further loopholes through which he could hope to evade the little unpleasantnesses attending extradition.

LINFIELD ENROLLMENT 507

McMinnville, Ore., Oct. 16—(AP)—A new registration peak at Linfield college was reached this year when enrollment was reported at 507. Enrollment at this time is exactly 100 in excess of last year.

Husky Young

WHEN YOU'RE TOO TIRED TO THINK

RICHARD VOIGTLANDER '38, says: "Studying electrical engineering takes as much out of me as the hardest physical effort you'd put into an active outdoor sport. I'm a Camel smoker. The harder I work the more I like to smoke, because Camels help me to keep alert and full of 'pep.' I enjoy Camel's milder flavor, and they never frazzle my nerves."

GET A LIFT WITH A CAMEL!

You will like this delightful way of "turning on" your flow of energy. Whenever you feel "played out," try this convenient way of ironing out fatigue and increasing your energy: Light a Camel. Soon you will enjoy a definite "lift"... an upturn in energy...and in good spirits. Smoke Camels all you wish. Camels are made from finer, MORE EXPENSIVE TOBACCOS and never interfere with healthy nerves.

TUNE IN! CAMEL CARAVAN with Glen Gray's Casa Loma Orchestra, Walter O'Keefe, Annette Hanshaw, and other Headliners—over WABC-Columbia Network.
