Practical Objections

In addition to the theoretical considerations a number of self- game from the sidelines. evident practical objections can well be raised. The question of the administration, and necessarily, the collection, of this tremendous sum per month leads to a frightful problem. The plan specifies that no person over the required age can hold down a remunerative position and at the same time accept the Townsend pension. However, the taxation upon the "under-60" interests would imply the complete control and socialization of indusitself hardly seems out of line with dents," Doug Ward, publicity chair- night at the "Y" hut, unanimously present day thought and opinion, nevertheless the adoption of such a half-baked plan as that pro-
