

### Arrangements Made for Coed Tennis Matches

#### All-Campus and Interhouse Play Is Planned

Two tennis tournaments have been planned by the women's tennis manager, Sue Moshberger. One will be an all-campus tournament and the other an all-house competitive event. Arrangements have also been made for intramural hour.

Monday, Tuesday, Wednesday, and Thursday at 5 p. m. will be intramural hour. Instruction will be given to those participating in the practice which begins Monday.

**Singles, Doubles Slated**  
Singles and doubles will be played off in the all-campus tournament. A cup will be awarded to

the woman who wins in the final event. In the all-house competition singles and doubles will also be played.

Women planning to compete in either of the tournaments are asked to sign up with the house representative for either of the events, or both if they wish.

Intramural practice will be held for three weeks—two practices a week required of anyone wishing to get WAA checks towards awards.

**Archers Practice**  
Intramural archery practices are held every Tuesday and Thursday from 4 until 5:30 p. m. Teresa Breslin is in charge of archery for spring term.

### Japanese Hold

(Continued from Page One) telling that the Japanese were a peace loving people.

Mr. Tsurumi's eyes twinkled. He grinned. The reporters looked up, and the consul roared with laughter.

He then explained that engineering is the most popular profession among college students. Among

the high school boys it is "To be an airplane pilot—even as the American's."

About war and the League of Nations, the consul said: "The league is a closed question. We are very much interested in international relations. We have common sense, all right, and we know quite well that we can't gain anything by war."

The Murray Warner collection is very representative of Japanese art. Tsurumi said, "I am quite astonished at how well taken care of it is—I think we had better send all the Japanese fine arts here to be taken care of. We lost many things in 1923 in the earthquake and fires of Tokyo."

Mr. Toyochi Nakamura is the Fochow, China. He is on his way to Japan and from there will go to his new post. Mr. Tsurumi comes from Hsinking, Manchukuo. He referred again to the Japanese ideal of harmonizing the races saying that in Japan they understand "Hollywood movies, stream-lined cars, Bringing Up Father (Jiggs) and English."

Tsurumi feels that eventually the fusion of the Japanese and Chinese races will come about, but that at present China is very backward.

Lewis of Oregon defeated J. Soller after a long struggle, 7-5, 6-2, and Charles Hoff of Portland came back in the deciding canto to take George Economus after dropping the second set by a love score. The three sets were 7-5, 6-6, and 6-2. Fred Fischer of Oregon proved too much for R. Venglen, winning easily to the tune of 6-0, 6-0.

In the first of the two doubles matches which were played Portland was once again victorious with Soller and Hoff taking a three set tussel from LaBarre and Fischer, 6-2, 1-6, 6-3.

and University high schools will march together and have their own placards and cars with banners. Several floats are planned, and the parade directorate was still angling for bands to participate late last night.

Leaders in the peace move said they are confident response on the part of students will be good. They anticipate no opposition. "The national slogan, 'demonstrate without disorder,' is very good, but we don't need to worry about such things at Oregon," one student said.

The group anticipates a crowd of 2000 or more at the demonstration, with between 500 and 1000 participating in the downtown parade.
