## Customers

### FOR SALE AT PUBLIC AUCTION

Customers of stores, or automobiles, are not obtained free. They do not just happen. They are not the result of chance. You paid SOMETHING for every customer you have.

Some you bought by your reputation. Others you bought by the very location of your business. Still others you acquired in exchange for special service, sound policies, a better price, a better quality, or better advertising.

Suppose, for instance that your net income is twenty thousand dollars a year and that you have a thousand customers. Each is worth twenty dollars to you. When one of these customers walks away, twenty dollars walks off the books—forever.

The question before you is this—will you invest a small part of that twenty dollars to hold your good trade? How much will you put up against a competitor's offer?

Scores of customers will put themselves on sale this week. All over the city they will listen to bids for their attention. Somebody will buy them at bargain prices. Will you?

In Eugene a large percentage of the buyers are college students and the Emerald is the only effective way of reaching them. The Emerald is the students' paper and their buying is guided by the advertising which they read in the columns of their paper.

Put in your bid through this newspaper. Pay the college market the advertising attention it expects and deserves.

The best advertising medium through which to appeal to the students of the University of Oregon.
