

Kappa Province Convention Held At Local Chapter

Dean Schwering Speaks Before Group

With Dean Hazel Schwering giving the Kappa opening address on, "The place of the social fraternity in the new educational pattern," about 35 delegates of Iota province of Kappa Kappa Gamma assembled for their seventh bi-annual convention yesterday morning at the local chapter house.

Registration opened the conference at 9 o'clock, followed by the welcome talk by Dean Schwering, who is vitally interested in her subject and has had the opportunity of acquainting herself with this problem in the position of dean.

Luncheon was served the delegates and Oregon chapter members at the Anchorage and afternoon sessions were resumed at 2 o'clock.

A general session will begin at 10 o'clock this morning and the convention will conclude with a banquet at the Eugene hotel this evening.

Delegates are representing chapters from Corvallis, Seattle, Pullman, Whitman, Missoula, Moscow, Vancouver, and Boise, Idaho. Alumni are also guests for the convention.

Chief Pilot Mussolini Goes Aloft

Here is another bit of evidence of the versatility of Premier Benito Mussolini of Italy, who holds in addition to the portfolios of several cabinet posts, the rank of chief pilot of the Italian Air Forces. An expert aviator, he frequently flies unaccompanied. He's pictured above at the controls in flight.

Eugene Pastors Find Favor With Referendum Bill

Signatures on Petitions Are Sought by Group

Various Eugene ministers and those from surrounding parishes have announced their approval of the student referendum on Senate bill 294, and are willing to speak from the pulpit in favor of the move. More ministers are being contacted and it is expected that most of the ministers in the county will give their approval. Also many letters from U. of O. graduates have been sent to the committee, according to Howard Ohmart, campus chairman of a meeting of the student relief committee at the Y hut last night.

Many letters from granges and Townsend clubs requesting petitions or giving speaking dates have been received. Among these are the Townsend clubs in Cottage Grove, Junction City, Cheshire, Leona, and Albany.

It was also announced at the meeting that today will again be referendum day. Any students willing to circulate petitions downtown should see or call Howard Ohmart at the Y.M.C.A. on or before 1 o'clock. The circulating will be done in four shifts, 1 to 2:30, 2:30 to 4, 4 to 5:30 and from 5:30 until the circulator decides to quit. Stephen Kahn will furnish transportation from the College Side downtown and back as long as the gas holds out. Many students have announced their intention of going to Corvallis next week to see the students there who are in sympathy with the cause.

It was decided to start calling in the petitions in order to have sufficient time to check these. Many have already been turned in, among these 1000 names from Senator Carney of Clackamas county. Willis Mahoney, progressive mayor of Klamath Falls has signified his intention to help and has tentatively promised 1000 signatures. These announcements lent an attitude of optimism to the meeting as the number of signatures is 10,232.

Powers Visits Campus

Alfred Powers, dean of the general extension division and director of state summer sessions, visited on the campus yesterday. He came from Portland on business connected with the summer session schools.

ple to enjoy one of the very latest stage hits and one which promises "nerve-tingling, hair-raising melodrama."

How Much am I Offered?

urged the appointment of a national commission to study banking laws before enactment of any new legislation.

F.D. Appoints Hopkins

WASHINGTON—President Roosevelt today selected Harry L. Hopkins to round out a works tripartite charged with putting four billion dollars into the drive to take off the relief rolls all who are able to work.

In a colorful press conference, the president told a hundred or more newspaper correspondents, that Hopkins, Secretary Ickes and Frank C. Walker would be of equal rank in carrying out the works program.

John F. Bovard

would be taken down, the walls redecorated and the room lined with acoustic material. This program should make the room suitable for lectures and student gatherings as well as for dances. The west portion of the building would remain as it is, housing the administrative offices. It was suggested that the downstairs be rebuilt to house the Co-op store and a cafeteria. The swimming pool would remain to be used for social swims.

expensive to change it into a fine student union building. The front portion could remain the same. The walls of the gymnasium are of wood. These walls can be remodelled easily, cutting down the expense. The remodeling of Gerlinger could be done for about \$45,000. A real job could be done for that price."

In Dr. Bovard's opinion the need for a student union building and a modern physical education plant at Oregon cannot be over-emphasized. A student union building would provide space for all students at the University to hold large or small social and business meetings. Lounge rooms and recreation facilities would provide places for students to gather and meet one another. The remodeling of the gym room should fill the requirement for an attractive lecture hall and ballroom. The possibilities of redecorating this room, with the estimated price of \$45,000 for the entire project, would be great.

"Some years ago when the students voted to levy on themselves a building fund fee they planned not only on building McArthur court, the east grandstand and the new athletic field, but also a student union building which they might call their own," concluded Dr. Bovard. "I am very interested in the entire plan, and hope to see a student union building and a new physical education plant on the Oregon campus in the near future."

a small part of the downstairs being given over to dressing rooms. "Not only is Gerlinger hall an ideal spot for such a project," stated Bovard, "but it is so built that it would be comparatively in-

BUNS

Mothers Will

(Continued from Page One)

Dean Connaway, Bill Paddock, Dave Morris, Doug Ward, Dan Clark, Craig Finley, Mary McCracken, Roberta Moody, Ann-Reed Burns, Peggy Chessman, Elma Giles, Reva Hems, Margery Kissling, Martha McCall, and Marjorie Will. Bill Schloth, general chairman, will be in charge of the men, and Adele Sheehy, chairman for the girls, will be in charge of women speakers.

The activities for mothers will open Friday, when from three to five o'clock mothers will be guests at a tea in Gerlinger hall, sponsored by the associated women students and the WCA. In the evening, from 8 to 9:30, a new feature, a reception, will be sponsored by the Eugene mothers' club and the University faculty women's club. This will offer mothers a chance to get acquainted with each other and with the faculty women.

Following the reception the mothers will be honor guests at the students' most important social affair of the year, the Junior Prom. They will have a special place at this event.

Saturday morning will be left free so that mothers may watch the various events of campus day. The annual mass meeting will be held at 1:30 Saturday afternoon, and at this time the mothers will talk over problems and policies of the University with Dr. Boyer and hear talks by a number of others. Officers for the coming year will be elected and other business transacted.

The annual Mothers' day banquet, the climax of the busy weekend, will be held at 5:30 on Saturday, and will be over in time for mothers to attend the colorful and unique canoe fete at 8:30. Sunday special services will be held in all churches in honor of mothers, and at noon living organizations will have special dinners.

A new system of competition in attendance of mothers will also be started this year. The old plan of awarding trophies to living organizations bringing the most mothers will be abolished, and competition will be between members of the four classes. The winner will be announced at the banquet, but no trophies will be given.

Invitations to all mothers have been sent out, and a record attendance is hoped for this year. Mrs. F. M. Dibble, Portland, says.

Treasurer to Visit

Alice Miller, Phi Mu national treasurer, is to visit the campus chapter Monday, April 29.

Paradoxical Situations Form Main Plot of 'Small Miracle'

"There are miracles today, there are! They may not be big miracles, but there may be small miracles!"

Thus Mac, the kindly old ticket seller of New York's "Firty-third street theatre" creates the mood and warns the audience of impending catastrophe in "Small Miracle," Norman Krasna's sensational Broadway success which will be presented in the University theatre on May 4 and 6, not only as the first amateur production of this new play which has won the unqualified approval of New York's critics.

"Small Miracle," running for 16 weeks in America's theatre center, is concerned with the idea that a very small incident may bring about a whole series of events that culminate in the paradoxical situation of solving the apparently unsolvable and around the main thread-plot of a thwarted murder-

er, miserably that he is to be hanged before he can get revenge on his "squealer," is woven many sub-plots that involve a great number of unrelated persons brought together, by chance, into the lounge of a theatre.

And the results, as Walter Winchell wrote in a New York paper, are that "The town has its first exciting, and exhilarating show. Tense, arresting and breath-taking. One outstanding amusement worth any playgoers investment." Percy Hammond of the Herald Tribune said, "It gets my vote as a tip-top crime show," and Brooks Atkinson, writing for the Times, stated, "this is modern, realistic drama at its best."

The play, "Small Miracle," in book form, has just come off the press, but is not yet on sale in western book stores, so this will be the first and only possible chance for students and townspeo-
