

Precinct Petitions For Optional Fees Returned Today

Names Checked by Group Executive Committee

The executive committee of the optional fee group spent a busy day checking the precinct numbers on the petitions, which are to be turned in to the county clerk today. They are still being returned from all parts of the state.

Today is again referendum day and there will be some signature gatherings on the streets all afternoon.

The resolution unanimously passed by the Student Relief committee at its meeting at the University YMCA held May 2, follows:

WHEREAS, one Joseph Renner, president of the Associated Students of the University of Oregon, so kindly consented to debate the question of optional student activity fees, and

WHEREAS, said Renner graciously agreed to debate the subject of the referendum of Senate Bill 204 over local radio station, and

WHEREAS, said Renner deliberately ignored the issues of the debate and resorted to vicious personal attacks on the members of the Student Relief committee, and

WHEREAS, said Renner at the opening University baseball game denounced the fence-sitters and knot-hole spectators as "50% optional fee adherents," and uttered similar unwarranted phrases over the public address system, and

WHEREAS, said Renner has by the above-mentioned words and acts enlisted many adherents and supporters for the referendum of Senate Bill 204, now, therefore,

BE IT RESOLVED, that the members of the Student Relief committee do hereby extend their thanks and appreciation to said Joseph Renner for the effective contribution he has made in winning public support and approval for the referendum, and

FURTHER BE IT RESOLVED, that the Student Relief committee hereby does earnestly plead with said Renner that he continue his tactics of personal insults and abuse of those who are trying to keep down fees; the sponsors of the referendum believing that if said Renner is permitted to continue unabated, he will single-handedly insure the success of the referendum of Senate Bill 204, the unwarranted Student Activity fee bill, which would authorize a \$15 fee primarily for social and athletic purposes.

Mumps, Measles Still at Infirmary

"No visitors" still greets any would-be bringer of cheer at the student infirmary door, because of the special care and attention required by the five cases of measles and one of mumps, besides two other patients.

The patients are: Gladys Battleson, Eugene Stromberg, Stephen Hart, Darrell Ellis, William Spears, Robert Johnson, Allen Christensen and John Weills. Stromberg, executive secretary of the YMCA, who recently underwent an appendicitis operation, was placed in the infirmary Thursday from the Pacific hospital where he has been since April 24.

If you break it go down and see Jens. He can fix it.

Training School Fails in Operation

Failure to fully understand the laws regulating the commitment and confinement of delinquents to the state training school, and failure to determine between dependency and delinquency, has resulted in considerable confusion and miscarriage of justice in the matter of handling the so-called "wayward" youth, Paul Foreman, graduate student who has spent several months in research work, told members of the Salem Lions club Thursday noon.

He explained that in every county in the state with the exception of Clackamas and Multnomah, the county judge is given the task of passing upon the advisability of committing boys to the institution. In many counties no trained official is available for study upon the cases as they come up.

Multnomah county is the only one of the entire state which accompanies its commitment papers with full case histories, although in recent months SERA workers have assisted the courts in providing information, Mr. Foreman said.
