Queen Mary I Leads Canoe Fete Tonight With 'Float of Songs'

Robert Cathey to Weave Romantic Story In Program

Time Is Set for 8:30

Chilton Plans 'Fire Dive' In Ignited Suit

By Velma E. M. McIntyre
A streak of flame, the curtains part, the "Melody of Spring" floats down the many colored waters of the "Old Mill Stream" as the orchestra plays a soft accompaniment to the fanciful, romantic tale of the master of ceremonies, and the climax of Junior weekend is here—tonight at 8:30.

Queen Mary and her princesses, in her "float of notes", will usher in "The Melody of Spring," the theme for the canoe fete of 1935. Constance Kletzer, a major in the school of allied arts, submitted the idea for which she was awarded a \$15 prize.

Will Weave Story
Robert Cathey, the junior man whose rich and charming voice won him the honored position of master of ceremonies, will weave the story about each float, and the audience will no longer be sitting on the banks of the mill race as the colorful floats carry it away to a land of story and song.

The three judges, Dean Hazel P. Schwering, Horace W. Robinson, instructor in dramatics, and Stephenson S. Smith, professor in English, will select one of the ten floats as winner of the silver trophy. Both the men and women's house will receive a silver loving cup.

Plan Fire Dive
The basis for judging is as follows: conception 20 per cent; presentation, 30 per cent; effort, 10 per cent; design 40 per cent. Second and third prizes will be awarded also.

Robert Chilton, Pacific northwest intercollegiate diving champion, will fascinate the audience with the thrilling spectacle of a fire dive. He will wear a gasoline-drenched suit that will be ignited just as he leaps for the water.

Each float will be constructed around the theme of a popular well-known song. Ten men's fraternities have cooperated with ten women's sororities in constructing the floats the cost of which is not to exceed \$30.00.

Floats Entered
The organizations entering floats are as follows: Delta Delta Delta, Alpha Tau Omega, Gamma Phi (Please turn to page four)

Senators Confer On Power Plans

WASHINGTON, May 10.—(AP)—Senators McNary and Steiwer, Oregon Republicans, will confer with Secretary Ickes tomorrow on plans for distribution and charges for power from the Bonneville dam on the Columbia river between Washington and Oregon.

Senator Steiwer said the public works board had established a policy for the handling of funds from such projects for repayment of the costs and operation of the project.

Under the policy outlined by the board, in the case of Bonneville the chief of engineers of the army will determine the cost of power production and fix the price at which the electric energy will be resold.

The price of electric current will include the amortization of that part of the capital cost of the project attributable to the provision of electric current, with interest on that amount and depreciation charges as well as the cost of operation and maintenance.

Information Seekers at Old Libe Have Faith in Librarian

That students really believe in the omniscient powers of the librarian is shown by a list of questions and topics on which information is being sought, drawn up by Miss Elizabeth Findly, at the reference desk of the old libe.

The list shows the variety and scope of subjects on which students ask questions.

Sometimes the demands are made humorous by misconstrued wording or vagueness on the part of the information seeker. Most of the time students know what they want but do not know where to find the material. "When did Indians first see horses?" one student wants to know. While another asks, "What is the 'Athlete's Bible'?" One not so particular student re-

William Hall Wins Koyle Cup, Ann-Reed Burns, Gerlinger; Friars, Mortar Board Pledge

9 Women, 6 Men Taken By Two Honoraries Yesterday

Lunch Gets Crowd
Dance in Faculty Tennis Courts Follows

By Betty Shoemaker
Climaxing the colorful scene of the campus luncheon which opened Junior weekend yesterday, 15 prominent juniors were drawn into the ranks of Friars and Mortar Board, senior service honoraries.

Winding their way through the scattered crowd, Friars, led by Joseph Renner, carrying the traditional scroll, tapped six outstanding junior men who fell into line behind the members of the honorary. Robert Lucas, Edmond Labbe, William Schloth, James Blais, Cosgrove LaBarre, and Budd Jones have their names engraved on the scroll which hangs now from a limb of the maple tree behind Deady hall.

Much Enthusiasm
Nine prominent senior women were presented with red roses as a token of membership in Mortar Board. Clad in their caps and gowns the long line of members made an impressive sight as the crowds opened to allow them passage way. Enthusiasm in the crowd ran high as the new members were added to the honorary.

Gaining the right to wear the small black and gold pin were Peggy Chessman, Ebba Wicks, Virginia Younie, Dorothy Bergstrom, Ann-Reed Burns, Mary McCracken, Margaret Ann Smith, Henriette Horak, and Elaine Sorensen. Selections to Mortar Board were based on scholarship, leadership

The lawn between Friendly hall and the old library were crowded with sons, daughters, and mothers. Corsages and the Oregon Mother tags distinguished the honored guests of the weekend.

Band Plays
Hundreds of people were served from the long tables where meat loaf, buns, potato chips, punch, and ice cream cups were the order of the day. Skull and Dagger, Kwama and Thesplan members were kept busy throughout the pledging and crowning of the queen until the crowd had been served.

During the luncheon musical selections were presented by the University band. In their trim blue uniforms the band added to the brightness of the scene.

Plans for the campus luncheon were prepared and carried out by Adele Sheehy, chairman. Miss Sheehy was assisted by Edward Pinney, Helen Wright, William Ito, John Lundeen, Alice Ann Thomas, and Betty Shoemaker.

Following the campus luncheon the faculty tennis courts were opened and a campus dance was enjoyed the remainder of the afternoon. The Ten Commanders orchestra was engaged for the occasion.

Sigma Delta Chi Pledges Talk on Lingerie Points

Clad in everything from grass skirts and Frank Buck hats to out-of-date nightgowns, the five pledges of Sigma Delta Chi, national professional journalism fraternity, added their bit of entertainment for the crowds gathered in wait at the campus luncheon yesterday.

With the library steps as a fitting background the linytype slug wearers loudly proclaimed their views on the subject of summer work for college students. Clever points for students planning to enter into the lingerie sales business (from door to door) comprised the talks.

Touches of pathetic humor over a broomstick added to the merriment of the occasion. While the pre-initiates lauded the business of selling, members of the fraternity scattered among the crowd added their suggestions.

Alfredo Fajardo, George Bikman, George Jones, Dan E. Clark, Jr., and Reinhart Knudsen were the originators and cast for the program.

Colonists Arrive At Future Homes

SEWARD, Alaska, May 10.—(AP)—Excited and happy colonists left Seward today by the Alaska railroad on the last lap of their 4,000-mile journey from Minnesota to Matanuska valley farm-lands.

By late evening they were due to have the first sight of their future home.

For weeks they have talked and thought of the valley and of the opportunity to make a comfortable living on the 40-acre tracts furnished by the government.

In just a few hours they will learn if the country is what it has been pictured.

Since their arrival Monday night from San Francisco the 67 families have kept busy hiking around the town and on the surrounding hills.

Ethiopians Help Munition Makers

ROME, May 10.—(AP)—Apparently officially inspired charges that Emperor Haile Selassie is massing thousands of his desert warriors in an offensive mobilization against Italy were hurled today in Italy's quarrel with Ethiopia.

The authoritative newspaper Giornale d'Italia in making the charges also said great quantities of munitions and the latest tools of scientific warfare—including anti-aircraft batteries, tanks and (Please turn to page 4)

Math Sharks Add Facts to Lottery

PORTLAND, May 10.—(AP)—What if no one broke the send a dime chain?

In eleven and slightly more than a half turnovers there would be a letter for every man, woman, and child in the United States, the Benson Polytechnic high school mathematics class figured today.

William Kletzer, head of the mathematics department, put the problem, using one of the original letters with five names besides that of the sender and with each recipient mailing five more copies. He also assumed the United States population was 120,000,000.

His figure fiends reduced the problem to a logarithm and found 11.56 turnovers the right answer.

And if you doubt it and don't remember your logarithms, use the painstaking method of multiplying five times five; then five times your first answer of 25 and continue it 10 times. In round figures you have 49,000.00. Multiply that by five and the result is 244,000.000, or more than double the population figure.
