That Often It Isn't a Student's Brain but his Pen that Runs Dry—causes Failure—in Classes and Exams!

So he invented this sacless Vacumatic, and Parker engineered it to perfection—gave it 102% more Ink Capacity - made its Ink Level VISIBLE, so it suddenly can't go empty!

YES, a scientist on the faculty of the University of Wisconsin was amazed to find how pens that run out of ink slow down classes, de-moralize thinking, and bring marks that no student wants to write home

His observations led to the birth of the revolutionary Parker Vacumatic. This miracle pen writes 12,000 words
