Fifty-five Intra-Mural Harristers To Vie For Cup This Afternoon

WOLVES BAY DISAPPROVAL AT SELECTION OF CARDS AS ROSE BOWL PERFORMERS

WASHINGTON MILITIAMEN PROTECT HUSKY UPRIGHTS FROM DISAPPOINTED MOB

By TOM McCALL

Three consecutive years in the Rose Bowl seems to be too much of a good thing for any football team. That assertion is attested to by the general wail that rose from the throats of coast football followers upon the selection of the Cardinals from Leland Stanford university to represent the western end of the United States in the New Year's

With Stanford in the Bowl it will take a pretty flashy team from the East to raise a full house in Pasedena. We think that Stanford has already lowered the standing of the conference through their last two losses in the Bowl, in 1934 and 1933. Columbia's feeble eleven drove out a 7-0 victory last year and this year Alabama downed the Indians by a 16 point margin. Performances like those won't bring out many of the local gentry, although they would be calculated to warm the hearts of the Eastern fans. It's a long way from either New York or Alabama to Pasedena and it would require lots of enthusiasm and mazumiasm to make the trip. If the thing is going to be a financial success, wouldn't it be more feasible to accommodate the largest number of available wallets?

Stanford was a better team than California, in every department, except popularity, in last Saturday's "big game." The Golden Bears would probably give the Pasedena turnstiles a few more shudders than would the Indians. They might afford better competition than Stanford, who seems to tie up before the onslaughts of the Eastern in-

The chance of seeing the mincing, magical Mustangs from the plains of the Lone Star state, would bring the customers on the run. But their possibilities for playing in the Bowl of Roses contest were precluded by the stupid tradition of only allowing a Pacific Coast conference team to play there. Ardent backers of coast teams forgot their prejudices and rocked in wholesale delight as the conference's favorite "babies," the Uclans, were plundered by a 21 point margin by these same Mustangs a couple of weekends ago in Los Angeles. Just put any old team up against Southern Methodist, and the crowds will get double their money's worth in merely watching the fancy, deceptive play of the southerners.

Howard Harding Jones and his Southern Californians deserve a tip of the hat for the manner in which they finished up a season which started off horribly.

Jones and his players apparently decided, after the first few games, that El Trojan would never run up many touchdowns if they stuck to the kind of plays and formations that they had been using. It was near to mid season before that conclusion was reached, but captain and crew changed their whole offensive and then went out and thrashed Washington State and threw a pretty scare into

The Trojans discarded their more sedate type of play by disposing of the shift and installing a wide open, devilmay-care ball advancing system.

Conspicuous by its absence from the souvenirs that are usually brought back from the battle field by the exponents of the winning team, was any speck, spar, or segment of a Washington goal post.

Reason: A well formed, club laden detachment of the Washington militia martialled itself before each goal post almost before the final gun had started squeaking.

Astute radio fans, owning two or more radios, would have noticed the following peculiarity, last Saturday, had they been tuned in on the Washington-Oregon, Stanford-California games, simultaneously. The Webfoots scored their first touchdown the same minute that Stanford scored theirs, and the Huskies rolled over the Oregon goal line at exactly the same time of day that Stanford completed her second successful thrust for points.

How did we figure the score of the Duck-Husky tilt? That is the constant query of many a lesser prognosticator. Well, lads, it was this way. The two teams, counting this year's game, have met 30 times. Four of the contests ended in ties. Oregon had won 13 and Washington 12, up 'til last Saturday. Anticipating a win for the Webfoots, which would have made the series count 14-12, we divided those digits, separately, by two. The answer: Oregon 7, Wash-

Webfoot Hoop Squad to Play Here Saturday

Hobson's Quintet Meets All-Star Team In Season Opener At McArthur Court

Oregon's 1935-36 varsity basketball season will open, very unofficially and informally, at Mc-Arthur court Saturday night, when Howard Hobson's untried Weofoots play a practice tilt with an all-star team sponsored by Riggs service station.

After a month of nightly workouts, the ambitious Duck basketeers are ready for regular conflict. For the last week Hobson has sent ATO Defeats the lads through light scrimmages, trying out various combinations.

During the first three weeks of drill

SAE Squad basic principles and fundamentals of the game were stressed. Riggs Team Is Strong
