The Oregon Daily Emerald will not be responsible for returning unsolicited manuscripts

The Oregon Daily Emerald, official student publication of the University of Oregon

Let's Get Down To Brass Tacks TUESDAY next, the interfraternity council will meet for the empty-umph time

And precisely nothing will be accomplished—unless—unless the fraternity presidents there assembled forget their ceaseless, silly squabbling

This matter of an "impartial tribunal," which has been the stumbling block of the past several sessions

What the council should do is to define the evils of freshmen week in undisputable terms

Unless the council gets down to "brass tacks" and gives close attention to plans for really eliminating the evils of "rush week"

All Work, No Play Makes Us 'Disgustipated' ONE of the finest results to be obtained from a college education is learning the value of leisure

Leisure does not mean "wasted" time. Leisure simply means a necessary and stimulating change from regular procedure

All work and no play makes not only Jack dull, but dulls the wit and thought of anybody else who doesn't know better than to work all the time

Governor Hoffman has apparently been Hauptnized. The jumbled collection of letters in the recent Emerald-created word "socialife" pictures in our mind a very excellent symbol of the true jumble of the general social whirl

The Safety Valve

Letters published in this column should not be construed as expressing the editorial opinion of the Emerald

Editor, the Emerald:

The radicals and liberals are striving for an ideal it seems; the ideal that every American has a right to be free from compulsion of any kind

While driving through the state of Illinois, observant travelers notice a little custom that might, in the end, prove very effective in making people use their heads instead of their throttle toes

It's simply this. When two cars crash on a highway, and one or more people are smashed to their deaths, the auto club of Chicago erects a monument on the side of the road at that spot

Strangers coming into the state from Iowa or Indiana or Kentucky notice these gruesome markers of sudden death, and wonder what they are

The thing that gets home is the number of them. It's almost impossible to drive anywhere without running into these persistent markers of carelessness that snuffed out human life

Since the conscientious objectors have recourse to an exemption committee that makes "compulsory" an inappropriate word for the present arrangement

I hope this expresses the true opinion of the majority which I have been waiting in vain to hear expressed

Editor, the Emerald:

One more word, and the counsel for the prosecution in the case of Aristotle vs. the University of Oregon will leave the decision with the jury

This morning's Emerald contained the news item that the committee on selection of "heads" to adorn the library had abandoned Phidias for the quite obvious reason that no adequate representation of Phidias could be found

The jury will be, let us say, a group of tourists on the campus, 75 or 100 years from now

Although Noble never had a band of his own until he came to America, he made recordings with musicians recruited from half a dozen American bands

Ray wrote "Goodnight, Sweetheart," "By the Fireside," and "Love is the Sweetest Thing." Two very recent Noble hits are "If You

Editor, the Emerald:

Your representative to the dormitory, Bill Hall, picked a very inopportune time to have our organization cast its votes in the straw ballot

Although this vote should be as comprehensive as possible our ballot will probably make little difference even if it were complete

However, I do not wish anyone to think that this ballot is representative of our organization

I would gladly take the ballot and get a full vote. Also, I assure you there will be no stuffing or monkey-business which seem to be the reasons for the lack of efficiency in procuring the vote

"My what awful chiselers," Aristotle would say if he knew that a "reproduction" of his head is to appear on the new library, heedless

The Marsh of Time

By Bill Marsh

With all this publicity that's been given to "sudden death" and motor accidents in general, there has come a subsequent wave of prevention . . . what's to be done to prevent highway crashes and their ghastly toll of bloody deaths . . . what can be done to make people drive with at least a modicum of foresight and common sense . . .

While driving through the state of Illinois, observant travelers notice a little custom that might, in the end, prove very effective in making people use their heads instead of their throttle toes

It's simply this. When two cars crash on a highway, and one or more people are smashed to their deaths, the auto club of Chicago erects a monument on the side of the road at that spot

Strangers coming into the state from Iowa or Indiana or Kentucky notice these gruesome markers of sudden death, and wonder what they are

The thing that gets home is the number of them. It's almost impossible to drive anywhere without running into these persistent markers of carelessness that snuffed out human life

you can practically see the devil sitting on your radiator cap waiting, waiting patiently for the time when they'll put one of those scarlet and white monuments up over the dry stains which YOUR blood has made on the side of the road

Pleasant thought, isn't it? But by Jove it's a smart one. Nothing like blood and bones and gore to make people use the old brain

Things and Stuff: Ethel Merman, the songstress whom you liked so well in "Anything Goes," has to struggle along on a weekly stipend of \$2,500.00

The Big Top for the fifth post-war Big "C" Sirkus at Berkeley rose over Edwards' field as lettermen started a last drive to perfect all details of the quadrennial carnival scheduled for this Saturday

The opening event of the carnival, the parade of floats, will be given. Floats will be judged

Air Y' Listenin'?

By Jimmy Morrison

"Among the Maestros," — news of the dance bands—an Emerald of the Air program inaugurated last Friday, will be on the air at 3:45 today

Presenting Ray Noble: This distinguished band leader who came to America from England with nothing but a music library of his own arrangements and broke into popular music spotlight here certainly deserves all the success he is now enjoying

Born in London, Ray, who is the son of a noted surgeon, was graduated from Cambridge and trained in classical composition, but turned to popular music. He won three consecutive contests for the best music arrangement. Then he joined the British Broadcasting company (BBC) and became general director of British Victor at 26

Although Noble never had a band of his own until he came to America, he made recordings with musicians recruited from half a dozen American bands

Ray wrote "Goodnight, Sweetheart," "By the Fireside," and "Love is the Sweetest Thing." Two very recent Noble hits are "If You

Leap Year Dance Calls Out Etiquette

Women Draw Up Rules for 'Escorting Dates to OSC Limp'

Oregon State held a "leap year limp" last Saturday and the women drew up ten commandments for the treatment of their partners

The rules were: Thou shalt call up your date at least four hours before time to go after him

Thou shalt arrive at his domicile at the appointed hour and tell him he is worth waiting for if he is late getting ready

Thou shalt treat him as an invalid, opening doors and helping him with his coat

Thou shalt provide cigarettes of the brand he wishes

Thou shalt let him precede you through the receiving line

Thou shalt not fumble among your myriad things to find your ticket and programs to present at the door

Thou shalt introduce him to all comers when trading dances

Thou shalt let him sit down and stand yourself if only one chair is available

Thou shalt take him out to eat after the ball

Thou shalt get him home in time for closing hours

Lettermen Ready For 'Big Sirkus'

The Big Top for the fifth post-war Big "C" Sirkus at Berkeley rose over Edwards' field as lettermen started a last drive to perfect all details of the quadrennial carnival scheduled for this Saturday

The opening event of the carnival, the parade of floats, will be given. Floats will be judged

Oregon State 'Static' Backs KOAC Remote Station for Eugene

Young Chimpanzee, Child Have Nearly Equal Intelligence

A three-year-old chimpanzee and an 18-month-old child have equal intelligence, Prof. John Todd of the UCLA psychology department, said

In a laboratory test, it was found that the chimpanzee could scribble with a crayon, place a pellet in a bottle, and arrange three blocks according to size

The chimpanzee also looked for a spoon that fell from the table. He pounded vigorously upon the table when told to squeeze noise from a rubber doll

Expenditure Large, But Studio Is Considered Advantageous

In the "Static" column from the Oregon State Barometer comes the following comment: "Eugene students are trying very hard to obtain a remote KOAC studio at the University

The plan will involve the expenditure of a tidy sum to be used for the purchase of a wire line between Corvallis and Eugene

But, as the Emerald pointed out in an editorial the other day, when one considers the expense incurred in transporting students down here to broadcast, the money required doesn't seem out of proportion

"Such a remote studio would be greatly to the advantage not only of University students but also of KOAC, itself. It would give the station a change to present much new talent, and would eliminate many hours of phonograph music

At present the station is sometimes unable to find suitable campus entertainment for certain broadcasts. So it is hoped that the powers that control the purse strings will see fit to grant the state-owned station this very desirable addition"

Norman Thomas Lectures Norman Thomas, socialist leader and author, spoke before the students at the University of Kansas on "America: Liberty's Frontier"

Send the Emerald to your friends

Trojans Win From Hawaii The Trojan debate team won a forensic contest from students of the University of Hawaii

The two schools debated on the veto power of the supreme court as injurious and a check on such power would be desirable

The Los Angeles students took the affirmative side

At the beginning of the program a bowl was presented to Southern California by a Hawaiian representative to serve in perpetuating mutual good will between the two institutions

The Hawaiian speakers present leis to the winning team after the contest

Washington Coeds Honor Scholars Washington's AWS honored nine women having high scholarship at one of Seattle's hotels recently

A scholarship plaque was awarded for the first time. It was given to a senior woman

Sophomore and freshman Mortar Board plaque winners for the past four years were also named

UCLA Starts Precedent A leap year dance, the first to be given on the UCLA campus, is planned by the student body at Los Angeles

Play By Play

Marian Bauer

The title sounds naughty enough, the actors try to make it that way, but somehow "The Widow From Monte Carlo" is just another show—or should one say quickie?

There's much ado about nothing for an hour. The plot, if you can honestly call it that, winds itself around a letter, a poor little innocent letter, concerning which everybody goes into a dither

If you like the Latin type, Dolores Del Rio will be as ravishingly beautiful as ever for you. She goes

through her part of the clinging vine duches trippingly. Makes a good clothes horse

Warren William, always the suave gentleman popping up out of nowhere just in time to save a lady's love life, gives the rest of his days to making the duchess happy

Entertaining in places, but with all its sophistication takes a back seat for home spun "Ah, Wilderness." Plays for the last times Saturday

Dr. Keezer Will Talk on Education

Dr. Dexter Keezer, president of Reed college, will speak before the American Association of University Women on "Modern Trends in Education" next Tuesday evening

The meeting, which will be held as a dinner meeting, is scheduled for 6 o'clock at the Osburn hotel

There will be a charge of 50 cents a plate and the public is invited. It is necessary, however, to make reservations by calling either Mrs. Alice B. Macduff at the dean of women's office or Mrs. O. E. Stafford

Supreme Court Gets Fine Reception at White House

Talk of the AAA was a tabu subject at the white house, where most interest in the decision centered, during the state reception for the judiciary, when four of the six U. S. supreme court justices whose decision upset the president's agricultural reform program were among the honored guests of Mr. and Mrs. Roosevelt

CONVERT'S BEGINNERS—CONVINCES VETERANS! FILTER-COOLED Frank MEDICO (PATENTED) This simple appearing yet amazing absorbent filter invention with Cellulose exterior and cooling mesh screen interior keeps juices and flakes in Filter and out of mouth. Prevents tongue bite, raw mouth, wet heel, bad odor, frequent expectation, No breaking in. Improves the taste and aroma of any tobacco.
