highway from Alaska to Bahia Blanca. Government surveyors from several countries have already planned the route, which will pass through the western United States. Requests have been made to the government of Alberta, Canada, for permission to have a highway built through the plains of that province, on to Alaska.

Strategically, the highway would be of immense value to this nation, economically it would also be a boon to American trade, but, what should be more important than either of those considerations, it would help to build up an intercontinental union based on cooperation, rather than coercion.

Editor, the Emerald:

To brilliant Professor Harold J. Noble the Emerald owes apologies. To humor-attempter Barney Clark the editor might suggest use of with instead of weak literary meanderings. Yesterday's Inocent Bystander told the tale of how B. Clark and some fellow-cramming stooges stayed up all night to be in shape for a Noble exam. It went on to tell how the boys wobbled into class the next a. m. ready for the ex, but that Professor Noble failed to show up. And there it ended. It might have added that Prof. Noble, along with about 50 other members of the class, was at the time listening to a lecture extraordinary by Devildog Smedley Butler. Sleepy Clark and his crammers might well have been there too. Sincerely, I Went to the Lecture.

BOATS!

Born This Week To Mr. and Mrs. Elephant

THE newes child of political chauvinism was given birth recently by the Republican party. The infant has been named "The Trumpeteer," and its immediate parents have been announced as the Young Republican Division of the Republican National Committee and the Young Republican National Federation. Both parents and child are reported to be doing as well as may be expected.

On looking through the infant magazine, we are inclined to think that the child was born with an anti-Roosevelt campaign in its mouth. In fact, some of the first words the child babbled are these: The youth of the nation will not be fooled! They know that the Roosevelt administration has deceived them. They demand the restoration of the lost opportunity which is theirs by right. They are not afraid of the future. They know their rights cannot be restored until Franklin D. Roosevelt is removed from office. They know that the only orderly method of accomplishing this is on election day next fall. They know that their only hope is the Republican party, which is traditionally the party of opportunity. They are confident that the Republican party will not disappoint them, and that it will not violate its pledges as Franklin D. Roosevelt has so notoriously done."

Not satisfied with babbling, the baby hopped up on a soap-box and burst into oratory. "Once freed from the chilling hand of political jobjuggling and the heavy hand of federal waste and Editor, the Emerald:

We voted "no" on the so-called "sealed-bid" rushing plan submitted to the Interfraternity Council Tuesday. This will present the Pi Kaps' stand.

The new plan corrects neither of the two evils that were discovered in our former rushing plan, namely, the inadequate housing for the success of a closed plan (according to Dean Earl), and the many violations of the rushing rules by the individual fraternities (according to the Interfraternity Council itself.)

How does the new plan overcome the housing difficulties of new students? What assurance is there that there will be fewer violations? The "sealed-bid" plan has added nothing to the solving of housing difficulties but has ignored the whole matter, and has only added more rules which will be the playthings of the fraternities. Was this "sealed-bid" plan merely adopted to save the "face" of the Interfraternity Council, or was it a mistake due to lack of consideration by the members?

We would also like to state that the new plan is not the true result of the nation-wide survey as implied in Wednesday's Emerald.
