THE **Firing** Line

By PAT FRIZZELL

Picking Oregon to win from UCLA today is a different kettle of fish than choosing the Webfoots to down Washington Satte and Washington in previous weeks. For the third straight Saturday I'm picking Oregon, and this time I have company. The Webfoots are Mythical Yearling Title Axemen Crush favored by all the prognosticators from Harvey Woodruff down.

Picking Prince Gary Callison's young men to upset Washington and Washington State was like backing Landon against Roosevelt. Everybody loves a winner, they say, and this column for a change is subscribing to the old adage.

A week ago, before two very surprising gridiron exhibitions, UCLA than Oregon. When the Webfoots looked like a different team against Washington and the Bruins took the unhappy end of the score in a game with Stanford, the entire aspect of today's battle changed.

Why shouldn't the Webfoots win? They have a line that ought to be able to stop young Bill Spalding and Billy Bob Williams ... It also rates as a favorite to stop any other backs old Bill Spalding

Then, on the offensive side, our Ducks have a newly-found passing attack ...which ..everybody ..from grandpa to little Rosemarie agrees is okay. Oregon's running attack has been better in seasons not too far remote, but the Webfoots' terra firma drive is improving, and today may be the day for it to click like a Minnesota steam roller.

Elucidation is finished. Now the score. It may be too close for with the exception of Rach. His comfort, for the Uclas are a good ball club. If their offense gets going, they may be too good. Oh yes, the score. Oregon 13, UCLA 6.

The Bruins of UCLA their punches and coasted against passer, is the probable choice at the Webfoots. That's talking out of turn for an official, who should, they tell us, be seen and not heard. Well, the truth will out this afternoon as far as Jimmy Phelan's Rose Bowl hopefuls are concerned. Stanford is tough, but the Huskies Bill Gleason, fleet Portland boy, is will open up enough to win, about 13 to 7. (That's a score you can't look too bad on.)

What a day this will be in our town, where Stanford and Washington will beef at each other till the shadows droop down over the Indian rooting section and the coeds whimper with the cold. And what wouldn't Tiny Thornhill give for a Bill Paulman this day. I fear Logg and Haines and those guys have not forgotten the 1934 game Breaking through the ranks for in which the great Grayson and ford 7.

The Golden Bears came very close to whipping WSC last week, the same team which tied mighty SC earlier this year.
