

## Dake's Speech Tops Geology Open House

### Agate Collection, Movies, Geographical Displays Seen by Public in Condon Saturday

Sound moving pictures, exhibits, and a lecture will be presented at an open house by the departments of geology, geography, and the herbarium in Condon hall on Saturday, January 16.

Dr. H. C. Dake of Portland, founder of the Oregon Mineral and Agate society and editor of the "Mineralogist," will speak at 7:30 p. m. in 101 Condon on semi-precious stones in Oregon. Dr. Dake plans to bring a part of his personal collection of agates here for exhibit at the lecture.

#### Films Shown

Sound films, specially prepared in collaboration with the University of Chicago department of geology, will be shown during the afternoon. They will cover the following subjects: "Volcanoes in Action," "The Earth's Rocky Crust," "Wearing Away of the Land," and "The Work of Rivers." These films will be repeated several times during the afternoon.

#### Special Exhibits

Special exhibits will also be displayed on the lower floor of Condon hall during the afternoon. These exhibits will show how volcanoes erupt and also other matters of geological and geographical interest.

All three events will be open to the public free of charge. It is requested that children under 12 years of age be accompanied by parents or teachers.

## Strike Leaders Are to Address Mass Meeting

The belief of educators that there are two sides to every question will be carried into practice next Thursday night when leaders in the maritime strike address a mass meeting of Eugene students and townspeople.

John Brost, president of the Portland district of the International Longshoremen's association, will speak. Other speakers will be Chandler L. Raymond of the Portland local, Sailor's Union of the Pacific and Kenneth Irwin of the Marine Firemen's union.

Roy R. Hewett, vice-president of the Oregon Commonwealth federation and former dean of the law school at Willamette University, and Monroe Sweetland, state organizer for the Commonwealth federation, will also be present. The meeting is directed by a student and adult provisional committee which plans to set up a Eugene club as a branch of the OCF. No admission will be charged. Students, farmers, and townspeople have been asked to bring money or food as a contribution to the strike-bound dockers and seafarers.

**DUS 26, SAES 21**  
In a closely-played game which saw the lead change hands several times, the DU courtmen took a hard-fought battle from a determined SAE outfit. The DUs led, 11 to 10, at the half.

After the rest period the DUs ran up a 19-to-13 advantage, but quick buckets by Jack Hodgins and Arleigh Bentley, and then Bentley from the side again, tied the score.

But the DUs had too much on the ball and with a furious last quarter spurt came out on top. Zimmerman with 13 and Hodgins with 7 led their respective teams.

## TVA Labor, Managers In Accord, Says Wood

Rapid strides in cooperative relations between management and workers have been made in the construction and manufacturing sections of the huge Tennessee Valley project contends Dr. Louis A. Wood, professor of economics who has just returned from a trip to that region.

Two phases of labor relations particularly stand out in the TVA, Dr. Wood said. These are the "apprentice" system, under which the authority offers a four year general course to young men, and the "employee suggestion" system, under which workers are encouraged to make observations and point out ways and means in which production may be cheapened and bettered.

Many of the labor relation ideas incorporated in the TVA system have been taken from Dr. Wood's recent book, "Union-Management Cooperation on the Railroads." While in the TVA region, Dr. Wood also conferred with officials on labor questions.

Dr. Wood has been a faculty member of the University since 1924. He has made a specialty of research and study in the labor relations field and is regarded as a national authority. He has written a number of books and articles on this subject and many of his ideas have been put into practice on railroads, in the TVA project, and elsewhere.
