Move to LimitReading, Conference Courses Brings Faculty Comment

A recent proposal of H. G. Townsend, professor of philosophy, asking that the faculty enact regulations to limit reading and conference courses to students working for "honors" received varied response from University instructors yester-

Dr. Townsends plan would limit the courses to students who had maintained a 2.75 average during their first two years. It would not limit the work to honor roll students, as previously reported.

Most of the professors contacted yesterday said they thought such courses had been frequently abused by indifferent students who could just as well take regular courses. Others felt that so many courses of this kind placed an unnecessary burden on the instructors. A few believed that such restriction would be unfair to some students, and that professors should not permit neglectful students to enroll in these

In favor of Dr. Townsend's proposal was H. C. Howe, professor of English, who said, "It would be a fine thing, because reading and conference courses do better in regular courses, to

students. Too many of such courses make a great load on the shoulders of the instruc-Against the plan was Dr.
