

UO Symphony Plans Concert in Medford

Faculty Members to Play With Group as Soloists

With reports from Medford indicating heavy advance preparation, the University Symphony orchestra and Director Rex Underwood this week proceed to iron out last wrinkles incidental to the March 28 invasion of Medford by the orchestra.

Transportation for the 80 members of the orchestra and their instruments has become one of the chief problems, according to Director Underwood, who yesterday sent out a call for private cars to help out. Alumni Secretary Elmer Fausett was designated as registrar for people who can take their cars.

Appearing in solo numbers for the Medford concert will be George Hopkins, Jane Thacher, and Aurora Underwood, it was announced yesterday.

A new possibility for nationwide broadcasting of University programs was revealed yesterday when it was announced that plans are being formulated for future nationwide broadcasts over a KORE-Mutual hookup. Under this setup a special line would be maintained to the University at the expense of KORE.

Varsity, Frosh

The first match of the spring season will probably pit the varsity and frosh teams against each other April 2, to give varsiteers a warm-up before the opening meet with University of Washington April 8.

New members of the interfraternity council will attend two meetings with outgoing members to learn the work of the council and will take their places with their new officers about the first of May, Prexy Don Johnson said last night.

It is believed that the new sorority prexies will attend one meeting before their installation.

Nash Loans \$150,000 of Rare Books

2400 Volumes Will Be Installed in April; Erb, Allen Confer With Typographer

The John Henry Nash collection of rare books, valued by experts at more than \$150,000, will be loaned to the University of Oregon during the spring term, as a result of negotiations during vacation between Dr. Nash, and President Donald Milton Erb and Dean Eric Allen of the school of journalism.

The 2400 volumes, including some of the finest and rarest books known to typographers, will be installed in the library special collections room sometime in April. Dr. Nash is at present in San Francisco, preparing the books for shipment.

Room Furnishings Included
Accompanying the books will be the furnishings of Dr. Nash's own library room. The loan at present will be on a semi-permanent basis, stated President Erb. It is hoped that book lovers of the Northwest will eventually make it possible to purchase the collection for permanent ownership by the University, he added.

Among the books which will be available to students are: the first volume in Roman type, Jensen's Eusebius, printed in Venice in 1470;
