

Letter Reveals Stude in Alaska

Far From Schools Geometry Student Allowed Privileges

An illustration of the popularity of the University extension department came to light Friday when a letter was received from the mother of Clifford Shellbarger, who lives in Skwentna, Alaska, and who has recently completed a course in geometry sent to him by the University of Oregon extension division.

The purpose of Mrs. Shellbarger's letter was to find out if it would be possible for her or her neighbor to supervise her son's final examination in the examination supervised by a school superintendent or principal which is required in the ordinary case.

Skwentna is located on the southern coast of Alaska and is over a hundred miles away from Anchorage the nearest place where a school superintendent or principal can be found. In order to make the trip to Anchorage it would be necessary to charter planes. "It would be impossible for him to take the course at Anchorage at this time due to the expense of the trip," Mrs. Shellbarger wrote.

The extension department has decided to allow the boy to take the examination under the supervision of his neighbor whom his mother mentioned in the letter.

"This is a very good illustration of the use people can make of correspondence courses," Miss Mozelle Hair, head of the extension department, said. It probably would be utterly impossible for the boy to go to school but because of extension division work the boy can become educated through correspondence study.

Balance

The devil made the breeze to blow The ladies' skirts too high. The Lord was just He raised the dust To blind the bad man's eye. —Silver and Gold.

Their Work Was Rewarded

Five pledges were chosen by Mortar Board, senior women's honor society, at the campus luncheon Friday. Betty Brown is shown pinning a rose, emblematic of membership, on Jeanette Hafner. The other pledges in the picture are, left to right: Anne Frederiksen, Fatsy Taylor, and Blanche Brown. Joan Murphy, the fifth pledge, is not in the picture.

Student Makes Bronze Figures By New Method

Donald McDonald, graduate sculpturing student working for his master's degree, is using a new process of making bronze figures.

The method which has been used very little as yet, consists of building up the figure of clay, making a plaster mold of it, forming a plaster cast of the mold and spraying bronze not over one-half inch thick on the plaster cast.

The thin bronze coating, McDonald explained, is better because it does not crack as the old method would, it is under the supervision of the extension department, said. It probably would be utterly impossible for the boy to go to school but because of extension division work the boy can become educated through correspondence study.

Men Of '42

By KEN CHRISTIANSON

Harve McKee

This scribe has wanted to "write-up" Harve McKee since he first showed a leather coated fist into my face. McKee by virtue of his completely relaxed form in the ring and his high and broad jumping merits deserves a place in this column.

McKee is one of the best boxers in Oregon. He is perfectly relaxed in the ring. He carries his guard low on his chest, but he has such a quick eye that it is nearly impossible to land a solid blow. He knows at almost the same split-second that his opponent is intending to throw a punch.

He has a very fast counter-punch. One night he gave a varsity leather-pusher more than they could handle. A lack of freshman fights scheduled was the reason for his not staying out.

Last Friday, Harve, as he is known, jumped six feet in the high jump against the Oregon State rooks. His teammate, Clair Adams, tied with John Mandic of Oregon State for first place at six-foot-two. McKee has broad jumped over 20 feet.

A graduate of Pacific California academy, Culver City, California, McKee was a captain, and the third, highest ranking officer in the school. He is a polo player. When he was right forward, his team beat UCLA varsity by a 10-2 count. He played halfback on the football team, and he also was a forward on the hoop squad. He was a member of the Pi Kaps, runners-up in the "A" league intramural basketball.

McKee has pitched two no-hitters in the night softball league down town. He pitches both for the Southern Pacific team and for his fraternity's team.

Individuality Shown By William McKinney In Organ Concert

A masterful individuality and finish was shown in the playing of William McKinney, fifth-year organ student, at his concert given Thursday night in the music auditorium.

The program opened with the rapid movement of Bach's "Prelude and Fugue in E Flat Major," followed by Borowski's heavy, impressive "First Suite for Organ," including "Prelude," "Toccata," and "Meditation."

Next he played Guilman's "Finale," skilfully displaying the many changing shades of tone and tempo of the selection. "Les Preludes" by Lisza contrasted and mingled the richness of the low notes to high ones in a striking effect.

Closing the program, Mr. McKinney and Elwyn Myrick, pianist, played Demarest's "Fantasie for Piano and Organ," which demonstrated how impressive the music of the two instruments combined can be. The playing of both musicians was splendidly done.

Ruth Ketchum Gets Northwestern Award

Ruth Ketchum, senior in business administration, recently received a scholarship to Northwestern university for her graduate work there next year. Only about 25 of these scholarships are awarded annually in the United States

Coeds Engage In Donut Golf

Playing for top honors in the coed intramural golf tournament are Donna Hatton, Hendricks, vs. Ruth Stoddard, Pi Phi; Ann Ernst, Pi Phi, vs. Eileen Washburne, Hendricks; Kay Conroy, Pi Phi, vs. Ruth Hingley, Pi Phi. These matches must be played and the scores reported by May 19.

Those trying for first and second places on the advanced tournament are Fran Roth, Gamma Phi, vs. Marge Moore, Chi O; Darlene Berry, Tri Delt, vs. Jean Foster, Chi O. As all matches in this round, these must be played and recorded on the Gerlinger bulletin board by Friday.

The following matches for third place in the tournaments must also be played by Friday.

Intermediate tournament—Patty Hamley, Gamma Phi, vs. Jean Kendall, AOP; June Justice, Pi Phi, vs. Bernice Hirter.

Advanced tournament—Ann Du-punch, Kappa, vs. Bernice Vadnais, Tri-Delt; Hope Dondero, Co-op, vs. Jeanne Wagay, Kappa.

Tournament flights in the women's gym will show the progress in coed play.

Regner Sets SDP Record

Freshman Bill Regner, present first string end for Tex Oliver, kept up the by-word, "a record a day," in the Sigma Delta Psi tests, when he heaved the baseball 340 feet 1 inch Thursday. It bettered the old local record of 322 feet 6 inches set in 1935 by Ben Hargreaves.

Regner now has completed six of the thirteen tests, and has an excellent chance of qualifying for the national honorary, Russ Cutler, intramural instructor said. Another all-around athlete, George "Porkey" Andrews, is nearly finished in his tests with but one to pass. Two others are close enough to have a chance to pass before the deadline Monday, May 15.

Boyd Brown, Bill Hayward's javelin ace, is almost certain to break his old record of 197 feet set last year when he throws for the books next Monday, after returning from the division championship at Pullman.

and Miss Ketchum is the only one to have received one from Oregon yet this year.

The scholarship consists of graduate study and practical business experience in some of the leading retail stores of Chicago. Miss Ketchum last week won the Phi Chi Theta silver key for being the most outstanding senior woman in business administration.

An advisory council on education in the graphic arts has been formed by the Carnegie Institute of Technology.

Opportunity for West Point Post Awaits Webfoot

A real opportunity is knocking at the door of every Oregon man between the ages of 17 and 21 who has military inclinations. Congressman Pierce has requested Dr. Donald M. Erb, president of the University, to recommend a student for a West Point appointment. Of course, the one hitch is that the student must be able to pass the examinations.

Teacher's Note Starts Career

A little note of encouragement, written almost 20 years ago by W. F. G. Thacher, professor of English and advertising, started Mrs. E. H. Hedrick writing short stories for the Saturday Evening Post, Liberty, Esquire, and other magazines.

Several years ago Helen Hedrick found on the back of a short story Mr. Thacher had corrected when she was a student of his at the University, a note telling her to keep writing for one day she would be a good writer. So it was that a long time after graduation she again started to write short stories, this time for profit.

Mrs. Hedrick writes of the Northwest, coming from Medford herself. Her latest short story is in this week's Saturday Evening Post entitled, "I Remember the Rain."

Her first story, "The Road Kid" was published last summer. Mrs. Hedrick is the wife of the superintendent of Medford public instruction and is the mother of several children.

Youth Councils Plan Joint Meeting for Sunday Evening

To enable members of the student church groups in the city to become acquainted with each other, the Eugene interdenominational youth council and the student Christian council are planning an evening meeting for 6:30 o'clock Sunday evening. The meeting will be held in the garden back of the music building, it was announced.

Featured speaker for the event will be Professor A. E. Cromwell of the Northwest Christian college. He will speak on "Heart and Hand Fellowship."

Master of ceremonies for the meeting will be Peter Howard of the youth council.

Professor Arthur H. Compton, University of Chicago physicist, has reported the discovery of trillion volt cosmic ray particle.

Outstanding in Junior Class

The much coveted Gerlinger and Koyl cups, awarded annually to the outstanding junior man and woman, are shown in the possession of Rita Wright and Roy Verstrom. Miss Wright holds the Gerlinger cup and Mr. Verstrom the Koyl cup.

Pi Mu Epsilon Initiates Nine

Pi Mu Epsilon, national mathematics honorary, initiated nine new members at a service in Gerlinger hall Wednesday evening followed by a banquet at the Anchorage in honor of them.

The new members include Robert Chilcote, Cecil Crafts, Herbert T. Iwata, Truman Teeter, Wallace Caulfield, Jane Catrall, Benson Mates, Wentworth Bowman, and Lois Holmes.

Gordon W. Link was toastmaster at the banquet and introduced Dr. Paul Hoel from Oregon State college who spoke on the subject "Approximating the Value of Pi." Each one of the initiates made a few remarks, followed by a short talk by Dean O. F. Stafford. The newly installed officers include George Costello, director; Mary C. Soran-sou, vice-director; Ben J. Winer, cou, permanent secretary.

Zetas, DUs, Chi Psis

(Continued from page two)

Niklas held the Phi Psi to three bingles.

The fourth inning saw 10 of the 11 runs score for the hall on eight hits. One was made in the next frame on two safeties. The sixth inning was unique in that three hitters were forced on batters for the Phi Psi men. Three batters hit, after one had gone down, then all three were forced on the bases, on the same play, although one out was wasted.

Phi Psi's three hitters were Cam Collier, Hamer, and Larry Langston. Niklas fanned four fraternity men and walked none. Fred Carlson was hit hard by the bat and walked five.

Summary: R H E
Gamma000 (10) 10-11 15 0
Phi Psi000 0 1-2 3 3

Ad Honorary Plans Fun Fest

Byington Award, Thacher Plaques To Be Presented

The W. F. G. Thacher chapter of Alpha Delta Sigma, national advertising fraternity at the University of Oregon, will again have its annual "conclave," again combined with the society's fun fest and homecoming, on Wednesday, May 20, it was announced Monday. The meeting will be at a banquet at 6:30 at the Osburn hotel.

Approximately 100 members, among them many leading advertising men on the Pacific coast, will be present. Jack Smith, advertising manager of Lipman, Wolfe, and company of Portland, will act as toastmaster, and Frank Jenkins, publisher of the Klamath Falls Herald, will address the group on "The Future of the Newspaper as an Advertising Medium."

Cup to Be Awarded

Presented at this time will be the Robert Byington cup, to the most outstanding member of the active chapter; and the recipient of the W. F. G. Thacher scholarship for the coming year will be named. The Thacher plaque, for the outstanding advertising man, will also be awarded.

Six prominent men now actively engaged in some phase of advertising will be formally initiated. These will be Donald McWright, Portland; Martin Allen and Robert Sprague, Salem; Walter Naylor, Astoria, and Marion McClain and Clarence Lombard of Eugene. Gene Callahan has charge of the promotion for Portland members' participation, and Glenn Pender, chapter president, is in charge of the affair here.

Spanish Honorary To Exhibit Mexican Photographs Tonight

An open meeting of Sigma Delta Pi, national photography honorary, will feature an exhibit of photographs taken by J. Winthrop Robinson of Santa Monica, California, tonight. The pictures will show scenes, customs, and people of Oregon and Mexico.

Mr. Robinson, a professional photographer, had had his work displayed in the All-American Salon of the Los Angeles Camera club, and the international exhibition of the Minneapolis Institute of Art.

The meeting will be held at the home of the honorary's sponsor, Leavitt O. Wright, 2262 Birch lane, at 8 o'clock tonight.

Student commuters at Massachusetts State college travel 14,000 miles every week.

Thank You

The University Window Cleaning Company wishes to thank you for your continued patronage during the last year of school. We have done our best to serve you well. In the future we shall continue to serve you in the same efficient manner as has always been our custom.
