"Who will it be next," wails John Warren as he watches his frosh basketball quintet disintegrate piece by piece. The old injury bugaboo which ruined Honest John's football team last fall stayed right with him and now it threatens the best Duckling basketball team of several seasons.

Kirsch looks like a good double for Anet in build and in playing style, and he wears Bobby's No. 20. Tuttle is built more like Johansen and quite naturally wears Wally's No. 32. So maybe this school will be seeing four more great years of that hard-driving, closely synchronized No. 20 and No. 32 combination.
