

Millrace House Tri Delts' Plan For Late Spring

Sorority on Hill Slated to Build Next to Betas

Chief spring construction news on the campus this week was the announcement that Tri Delta sorority will definitely build a new house on the millrace this summer.

Although complete plans have not yet been organized, construction will begin soon after school is out in June, according to Bette Norwood, Tri Delt president.

The new chapter house will be built on the property directly across the millrace from Beta Theta Pi. Arrangements have not yet been made concerning the disposal of the old house on University street.

Reason cited for moving by Miss Norwood was the more favorable location of the race property.

Libe Visitor Feted

Miss Helen Fay, Holiday house representative on the campus, will be entertained at a dinner given by the staffs of the University library and the Co-op Friday at 6 p.m. After the dinner, Miss Fay will be in the browsing room, where she is to speak at 7:30.

The 'Co-op' will buy used books at close of Spring Term as usual.

On Wednesday and Thursday of next week, March 6th and 7th, a representative of the College Book Company of Columbus, Ohio, will be at the Co-op to buy second-hand books. The Co-op has invited this company here to give students an opportunity to sell books which are not to be used at Oregon again. This arrangement will not interfere with our usual purchase of books at the close of spring term.

Hold current books for us at close of spring term.

University 'CO-OP'

Limited numbers of the following books wanted at the 'Co-op' now

Bogert, Nutrition and Phys. Fitness, 3rd ed.
 Bonneville & D., Org. and Fin. Business

Piggers' Hours Cut As Friday Deadline Is Shifted to 10:30

Piggers' Friday night social

life for winter term will end at 10:30 tonight as the dean of women's office announces that next Friday will be closed because of finals.

On the two Saturday evenings

before examination 12:15 permission will be granted. This Sunday will also be open until 10:30, Dean Hazel P. Schwering said.

No entertainment in the differ-

ent living organizations is to be scheduled during the next two weeks, whether benefits, banquets, dinners, or teas, she declared.

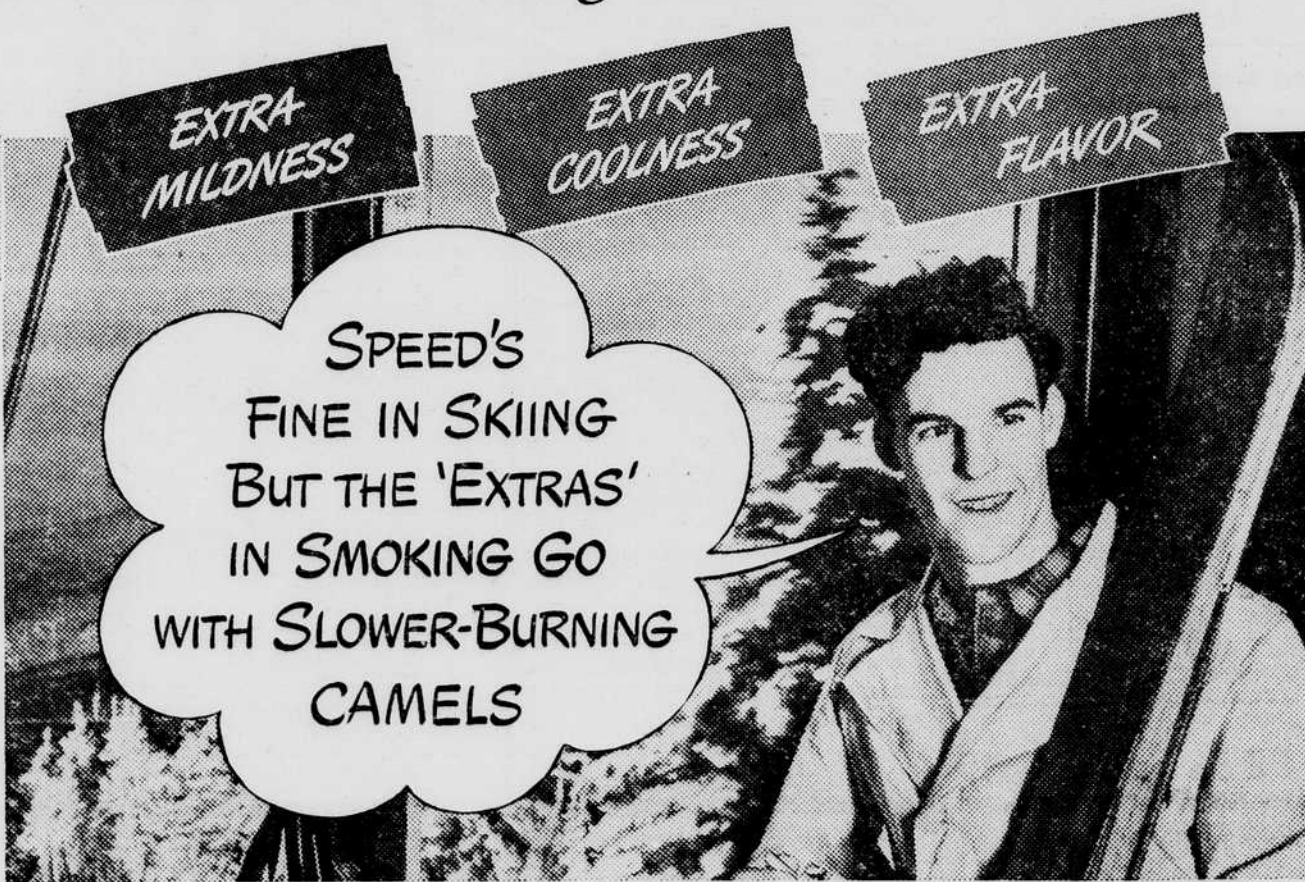

Send the Emerald home to dad.

LIKES FLASHING SPEED ON SKIS

but chooses slow-burning Camels for

It takes your breath away even to watch him. Down the side of the mountain... a perfect telemark turn... and there he goes... faster and faster. That's Bob Bourdon, former Vermont champion. On skis, he's one of New England's fastest. But in smoking, he's strictly on the slow side. Read what he says (at right).

In the Cannon Mountain Aerial Tramway, Franconia Notch, N. H., Bob Bourdon (above) enjoys a slow-burning Camel. "No speed for me in my smoking," says this ski champion. "Camels are slower-burning and give me extra mildness, extra coolness, and extra flavor."

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them. That means, on the average, a smoking plus equal to

5 EXTRA SMOKES PER PACK!

"THE faster the going, the more fun in skiing," says Bob Bourdon. But he has a different angle on cigarettes. When Bob Bourdon says: "Slow burning is my guide to more mildness, more coolness, and more flavor," he's putting the stamp of actual smoking experience on the findings of science.

Fast burning in a cigarette means heat. Nothing dulls the delicate elements of cigarette flavor and aroma so surely as excess heat. There's little pleasure

or comfort in a hot, flat smoke in which the flavor has been burned away. The extra mildness, refreshing coolness, and that smooth, mellow flavor of Camels are confirmed by recent widely reported scientific tests, in which Camels...the cigarette of costlier tobaccos...burned the slowest of the sixteen of the largest-selling brands tested! (See panel at left.) So, change to slow-burning Camels and enjoy extra pleasure and extra smoking.

MORE PLEASURE PER PUFF... MORE PUFFS PER PACK!
Camels — the cigarette of Costlier Tobaccos
