ain's war aims and asking that peace be sought immediately, in a spirit of compromise if necessary, because "there is no certainty of a great military victory."

The move was overwhelmingly defeated, 341 to 4. Three laborites and a communist voted yes and two other backers of the move acted as vote counters and so didn't ballot.

Still Some Democracy

As Clement R. Atlee, labor party leader, remarked in the course of the debate denouncing the peace move, such a proposal probably could not have been made in another warring country. In addition to indicating that Britain's situation is quite serious, and that's common knowledge, it also showed that there is still some democracy over there even in time of war. But one wonders if the reason behind British rejection of peace feelers from Portugal, Turkey, and Pope Pius XII might not be that the English are hoping for considerably more aid from the U.S. Following the remark of Jesse Jones, federal loan administrator, that he considers Britain a "good risk" for loans, came Secretary of the Treasury Henry Morgenthau's "me too" yesterday.

Clark Is Startled Senator Clark, Missouri isolationist, said in the senate that he was "very much startled." He demanded that congress investigate the "very large resources of the British Empire" and pointed out that Britain had never repaid the large loans from his country during

the last world war. Meanwhile in Moscow the Soviet government said that its policy toward China remains unchanged. It is a matter of record that a year ago Stalin cabled Chiang Kai-Shek expressing his wishes for "a complete victory over China's ene-

AT the ASUO rally assembly Monday the dogs kept up a constant barrage, so much so, that Coach Tex Oliver was forced to recognize the canine audience. It showed poor consideration for him and for the other speakers upon the part of the students who brought the dogs there.

Even at the basketball games officials are kept busy herding dogs.

The athletic department has done all they can to keep the dogs out. They have even hired four dog catchers-students paid to keep the dogs out. Yet they seem to be getting nowhere, mainly because someone has let, or called, the dog back in each time he was put out.

If houses must parade their dogs before the student body perhaps the ASUO should, as Tex Oliver says, have a dog show. But until that time the dog lovers would earn the gratitude of all if they would leave their pet in that little shelter marked "Fido."

Look at the Oueens

SHADES of Cleopatra ! A fellow just can't get around this campus any more but what he meets a queen of something or other. It seems as if every special weekend, every dance of the school year, and any other campus event must have its own queen.

Originally there was just one queen every year-the junior weekend queen. Then we had a Little Colonel. Well, that wasn't so bad. But now we have to put up with Daisy Maes,

they can hear you.

for the flu.

Dear Editor:

Flu germs to the left of

Betty Coeds, law school weekend queens, and ideal couples. Oh sure, we know that they aren't all called queens. They're - called Daisy Maes or Betty Coeds instead but it's all the same.

WE admit that it is probably good publicity for a dance to

elect some coed a special queen for the affair and announce the winner at the hop. But we'd like to point out that any good publicity stunt, if it is used too much, loses its effectiveness. And students will soon come to the point where they won't be "slickered" into going to every dance on the campus because the election of a queen for the affair is to be announced.

It is rapidly coming to the point where the election of queens for campus social events will approach the heights of the ridiculous. Before long students won't even be able to hold their own house dances without electing a queen. Soon the campus slogan will be, "Every coed a queen." Well, perhaps that is a little far-fetched but it would seem to be the eventual result of all this "queen electing."

Won't someone please give us a dance without a queen? -H.O.

A Big Order

DEAR Santa :

I hope you won't mind my sending this letter so early, but I suppose you get in a frightful rush later on and I would like for you to be sure to see this.

I wish you'd do something about 1941.

I have thought the matter over rather seriously, and it seems that there is no one else I can turn to. People have been tinkering with the situation without getting anywhere. Nobody does anything. They just let things happen.

In the first place, do you think there will be a 1941? It looks rather doubtful sometimes, doesn't it?

There really hasn't been any sense to 1940 at all, and I should think that it bothered you the way it bothers me, you'd want to change 1941 a bit. But I'm sure you'll do the best you can.

Thank you, Santa Claus, Sincerely,

PE. P.S. It you'll fix these things up, I'll take the ice skates off my list.

The blue ribbon for real planning this week goes to the AWS heads who scheduled their assembly and auction for the same time.

"Flu Germs Postpone Dance," says an Emerald head. ... A new name for the sophomores?

The Emerald was in error-one law school student did attend the ASUO rolly assembly Monday.
