County Schools' Speech League To Convene Here

Saturday Program To Feature Panel; Business Meeting

Fifteen schools, making up the "B" league high schools in Lane county, will hold a speech league convention on the University campus tomorrow.

The conference has a four-fold objective: to elect officers, accept the proposed constitution, formulate rules for a general program, and set a time and place for the next convention.

Following the business meeting at 9 a.m. in alumni room of Gerlinger hall, a demonstration panel will be held on the topic, "Has Too Much Emphasis Been Placed on Athletic Competition Among the High Schools?"

Students on Panel

Elva Jane South is in charge of the discussion. Students talking on the panel will be: Darlene Warren, who will present a brief background; Earl Helmer, who will discuss the problems of the small high school in its attempts to keep up with the larger ones; Leonard Clark, who will defend the present

The group will eat at the Anchorage after which a tour of the campus will be held. The delegates will visit the speech division, radio studio, speech clinic, and other points of interest.

The speech league was formed a short time ago in an effort to promote interest in the speech and discussion activities in small high schools. The constitution for the group was drawn up by W. A. Dahlberg, acting director of the speech department, and Marvin Krenk, associate professor in

BARRISTERS' BRAWL ...

Law School to Hold Premier 'Coke' Hop

By JOANNE NICHOLS

The law school's winter term formal will be held February 8 at a location as yet unknown to the music of a band as yet unidentified. (Legally defined, a band consists of three pieces, one piano versus two bass drums.)

A committee of Robert Recken, William Robert, and Ed Luckey, is seeking assiduously for a hall, while Jack Dunn, another committee, hunts for an orchestra, the bucolic barristers report.

Contest Committee

The law student body voted yesterday to hold the annual Little Judge contest for the most popular girl. The committee (Mary Wormser, John Winkler, and Elmo Vickers) was carefully chosen to avoid the sort of thing that occurred last year when the chairman's girl won by more votes than there were voters.

Co-Chairmen Speak

Floyd Hamilton, vice-president of the law school student body and co-chairman with Professor Charles G. Howard of the prohibition faction, stated last night: "With the spirit of temperance, sobriety, and total abstinence running rampant throughout the law school, the future barristers have given assurance that this, the greatest dance in the school's history, will be conducted on an absolutely spiritless basis. Anyone found consuming any liquids other than Coca Cola will be socially ostracized by the law students for the remainder of the year."

Sickly Swing Session

Teh!

Ruth Hartley, who was sick in bed with a cold, requested "You've Got Me This Way."

Cynthia and Carolyn both requested—"Seven Beers with the Wrong Kind of Man."

Florence Schweitzer wanted—"Never Throw Stones at Your Mother," but they just didn't have that record in stock, so they substituted "Scrub Me Mamma With a Boogie Beat," which was the nearest thing to it.

Things are really progressing nicely, and all expect to have Hollywood offers before they get out. Just as long as they don't interfere with the Federal Communication Commission—they're safe, for the time being anyway.

ANOTHER BIG ADVANTAGE FOR YOU IN SLOWER-BURNING CAMELS

THE SMOKE OF SLOWER-BURNING CAMELS GIVES YOU EXTRA MILDNESS, EXTRA COOLNESS, EXTRA FLAVOR—AND

28% LESS NICOTINE

THE SMOKE'S THE THING

"SMOKING OUT" THE FACTS about nicotine. Experts, chemists analyze the smoke of 5 of the largest-selling brands ... find that the smoke of slower-burning Camels contains 28% less nicotine than the average of the other brands tested—less than any of them!

than the average of the 4 other largest-selling brands tested—less than any of them—according to independent laboratory tests of the smoke itself

FOR many a year your taste and your tongue told you there was something distinctive about Camels ... something you just couldn't seem to find in any other cigarette.

Then scientific research told you Camels were slower-burning. You learned that this slower way of burning meant more mildness, more coolness, and more flavor in the smoke.

Now, new tests—impartial laboratory tests of the smoke itself—confirm still another advantage

of Camel's slower burning: Less nicotine in the smoke. Less than any of the four other largest-selling brands tested—28% less than the average!

And when independent laboratory tests reveal such a distinct advantage for one brand of cigarettes over all the others tested—that's worth your looking into—right now!

Try the slower-burning cigarette ... try Camels. Compare them ... compare them by smoking them. The smoke's the thing!

BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to 5 EXTRA SMOKES PER PACK!
