Stars, Stripes Set as Ball Motif

February 22 Sees Washington Statue Surveying Formal

The stars and stripes will hover over McArthur court on February 22 in a gigantic flag as the Military ball gets under way. Red, white, and blue velvet drapes will edge the Igloo forming a multi-colored wall.

Hidden flood lights will shine out from the boundaries of the dance floor, casting a light over the swirling throng of formals and dashing uniforms. A spot light will play over the dancers picking out prospective Little Colonels. A gleaming spot will shine upon the commanding band stand where Woody Hite and his 11-piece orchestra from Portland will be swinging out with their original arrangements.

Large panels of military scenes will be placed at vantage points throughout the "parade ground" and a six-foot statue of George Washington will stand conspicuously above the elaborate reviewing platform where the Little Colonel will receive her badge of office.

'Heart' Girls Reveal College Friendship, Similarity of Interests

Because they are such close friends Dorothy Havens and Jean Hoover were more than happy when news reached them that they had been named Oregon's "Valentine Girls" in the Oregonian-Life contest.

Dorothy and Jean are both freshmen, Dottie majoring in science and Jean in art. Dottie is of medium height, has lustrous black hair and dark blue eyes. Jean is tall, has dark brown hair, brown eyes, and when she smiles cameramen forget to pull slides and change film.

Both Portlanders Both of the girls have lived all of their lives in Portland, and both are graduates of Washington high school. "We never knew one another while we were in high school," Dorothy said, "but we have certainly made up for that since we have been here at the University."

Expressing surprise that she would be one of the chosen two, Jean replied: "Now that the contest is over, we are happy that only one of us wasn't named, because we both have the same interests." The "heart" girls paid an endless stream of compliments to the beauty and personalities of the other candidates—Jean Morrison, Edie Bush, Emma Verdum, Eleanor Sederstrom, and Carolyn Chapman.

Careers Discussed Jean, who was chosen queen of Portland's Rose Festival in 1939, is still doubtful as to the career she would like to follow after graduation; but Dottie has pretty well sold herself on the idea that she would like to become a laboratory technician.

The University Choral Union, which now boasts more than 500 voices, will be accompanied by the University symphony orchestra. The entire production will be under the direction of Dean Kratt and under the co-sponsorship of the music school and the educational activities board.

Poll Reveals Dime Card Popularity

Rising sentiment on the campus regarding class cards has led to endless committee meetings and sky-rocketing aspirin sales. So today we conduct a symposium of campus opinion on class cards in general and the new plan set forth by the resolutions committee in particular.

This proposed new plan would mean that the classes would depend for revenue upon a 10 cent class card. If bought within five days after registration, this card would entitle the holder to voting privileges. Cards bought after this five-day period would carry with them the right to enter activities but would be punched void for voting.

The question asked the following people was phrased, "What do you think of class cards?"

Lowell Dick: "I bought one when I was a sophomore. What's more, I still have it, if you want the evidence of what a sucker I was."

Elizabeth Steed: "I've had one sitting on my mirror gathering dust for a month. I wish someone would tell me what you do with it."

Favors Dime Tiger Payne: "I'm for the 10 cent class card, and I think it's the noblest step taken by any class in a long time. It isn't Utopia but we must sacrifice some principle to that of raising revenue. This way it'll get more people interested in activities."

Norm Foster: "Class cards are a stupid idea. Charging 10 cents

Jane McCurdy and Barbara Ward are plenty gripped because their names always appear last in the infirmary report. It seems that they were in the "far" end of the infirmary, and their names were always last. They were moved out into a room with a better view, and now they're happy.

JAPAN AT WAR...

Dr. Noble to Speak On Oriental War

Professor to Base Talk on Own Life Among Japanese

Dr. H. J. Noble, associate professor of history at the University, will use information based on his life spent in the Orient to make up the text of his coming lecture on "War and the Japanese People," tonight at 7:30 in Alumni room at Gerlinger hall.

The talk will show the effect that four years of war has had on the Japanese people. "One of the most striking changes brought about by the war," Dr. Noble declared in an interview, "is the dull and drab robes that the women wear. It is now against the law for them to appear in the bright and colorful robes that were so typical of the Japanese race."

"Japanese students have all been exempt from any active service in the army until they are 25," the associate professor announced. "In this way the intellect of the country will not vanish."

Dr. Noble spent the greater part of his life in the Orient. He studied and taught at the Government Imperial college at Tokyo for several years. The lecture is a benefit to aid Chinese students who are suffering because of the war. Tickets may be purchased from representatives who will visit the various organizations and clubs in Eugene. Tickets for adults will cost 25 cents and for children 10 cents.
