## OUR THANKS TO YOU

for your confidence and support which have made this, our twenty-first year the greatest in our history; greatest not only in volume of sales but also in the services which we have been able to perform for students of the University.

We have co-operated in that one-third of all salaries paid by the store went to students. Thousands of dollars were paid students for used books. 5% refund is being paid on cash register tickets turned in.

Which summed up means that approximately \$16.00 of each \$100.00 taken in by the store has been returned to students through these three services.
